PWSSP Adhering RTCR Laboratories

The following is a list of microbial laboratories that can analyze samples for compliance with the Revised Total Coliform Rule (RTCR). These laboratories have acknowledged in writing to TCEQ that they have reviewed the Public Water System Supervision Program (PWSSP) Quality Assurance Project Plan (QAPP) Addendum 4, "Guidance for Collection, Analysis and Reporting of Microbial Contaminants Under the Revised Total Coliform and Groundwater Rules", and agree to adhere to the requirements contained therein. The TCEQ PWSSP recommends using laboratories that are properly accredited in the drinking water matrix and have agreed to adhere to PWSSP requirements. Data from laboratories that do not adhere to PWSSP requirements may be rejected by TCEQ and result in potential violations for the water system.
