

Plain Language Summary Template and Instructions for Texas Pollutant Discharge Elimination System (TPDES) and Texas Land Application (TLAP) Permit Applications

This template is a guide to assist applicant's in developing a plain language summary as required by [30 Texas Administrative Code Chapter 39 Subchapter H](#). Applicant's may modify the template as necessary to accurately describe their facility as long as the summary includes the following information: (1) the function of the proposed plant or facility; (2) the expected output of the proposed plant or facility; (3) the expected pollutants that may be emitted or discharged by the proposed plant or facility; and (4) how the applicant will control those pollutants, so that the proposed plant will not have an adverse impact on human health or the environment.

Fill in the highlighted areas below to describe your facility and application in plain language. Instructions and examples are provided below. Make any other edits necessary to improve readability or grammar and to comply with the rule requirements.

If you are subject to the alternative language notice requirements in [30 Texas Administrative Code §39.426](#), **you must provide a translated copy of the completed plain language summary in the appropriate alternative language as part of your application package**. For your convenience, a Spanish template has been provided below.

ENGLISH TEMPLATE FOR TPDES or TLAP NEW/RENEWAL/AMENDMENT APPLICATIONS INDUSTRIAL WASTEWATER/STORMWATER

The following summary is provided for this pending water quality permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

TEXAS MUNICIPAL POWER AGENCY (CN600127567) operates GIBBONS CREEK LIGNITE MINE, POND SP-20, RN102814837, a settling pond for surface water runoff. The facility is located at 17375 FM 3090, in Carlos, Grimes County, Texas 77830. This application is for the renewal of Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0002460000, which authorizes the discharge of stormwater from sedimentation ponds in post-mining areas on an intermittent and flow-variable basis via Outfall 004R. The effluent is discharged via Outfall 004R to unnamed tributaries, thence to Gibbons Creek, thence to the Navasota River below Lake Limestone in Segment 1209 of the Brazos River Basin.

Discharges from the facility are expected to contain pH and settleable solids. The stormwater will be treated by settling.

PLANTILLA EN ESPAÑOL PARA SOLICITUDES NUEVAS/RENOVACIONES/ENMIENDAS DE TPDES o TLAP

AGUAS RESIDUALES INDUSTRIALES/AGUAS PLUVIALES

El siguiente resumen se proporciona para esta solicitud de permiso de calidad del agua pendiente que está siendo revisada por la Comisión de Calidad Ambiental de Texas según lo requerido por el Capítulo 39 del Código Administrativo de Texas 30. La información proporcionada en este resumen puede cambiar durante la revisión técnica de la solicitud y no son representaciones federales exigibles de la solicitud de permiso.

TEXAS MUNICIPAL POWER AGENCY (CN600127567), maneja GIBBONS CREEK LIGNITE MINE, Pond SP-20, RN102814837, una represa para el tratamiento de escurrimiento de agua superficial. La instalación es ubicada en 17375 FM 3090, en Carlos, Condado de Grimes, Texas 77830.

Esta solicitud es para la renovación del Permiso Texas Pollutant Discharge Elimination System (TPDES) No. WQ0002460000, que autoriza la descarga de aguas de represas en áreas de la mina que han sido rehabilitadas que son intermitentes y variables según el flujo a través de Outfall (punto de descarga) 004R. El agua se descarga por Outfall 004R a un tributario sin nombre, de allí a Gibbons Creek, y de allí a parte del Navasota River que esta debajo del Lago Limestone en el Segmento 1209 de la Cuenca del Rio Brazos.

Se espera que las descargas de la instalación contengan pH y Solidos Sedimentables. Los aguas residuales van a ser tratados por sedimentación.

INSTRUCTIONS

1. Enter the name of applicant in this section. The applicant name should match the name associated with the customer number.
2. Enter the Customer Number in this section. Each Individual or Organization is issued a unique 11-digit identification number called a CN (e.g. CN123456789).
3. Choose "operates" in this section for existing facility applications or choose "proposes to operate" for new facility applications.
4. Enter the name of the facility in this section. The facility name should match the name associated with the regulated entity number.
5. Enter the Regulated Entity number in this section. Each site location is issued a unique 11-digit identification number called an RN (e.g. RN123456789).
6. Choose the appropriate article (a or an) to complete the sentence.
7. Enter a description of the facility in this section. For example: steam electric generating facility, nitrogenous fertilizer manufacturing facility, etc.
8. Choose "is" for an existing facility or "will be" for a new facility.
9. Enter the location of the facility in this section.
10. Enter the City nearest the facility in this section.
11. Enter the County nearest the facility in this section.
12. Enter the zip code for the facility address in this section.
13. Enter a summary of the application request in this section. For example: renewal to discharge 25,000 gallons per day of treated domestic wastewater, new application to discharge process wastewater and stormwater on an intermittent and flow-variable basis, or major amendment to reduce monitoring frequency for pH, etc. If more than one outfall is included in the application, provide applicable information for each individual outfall.
14. List all pollutants expected in the discharge from this facility in this section. If applicable, refer to the pollutants from any federal numeric effluent limitations that apply to your facility.
15. Enter the discharge types from your facility in this section (e.g., stormwater, process wastewater, once through cooling water, etc.)
16. Choose the appropriate verb tense to complete the sentence.
