Re: New Source Review Authorization under Texas Clean Air Act (TCAA) § 382.0518
TCEQ Air Quality Permit Number 89957L001
Martin Marietta Materials Southwest, Inc.
Hondo, Medina County
Regulated Entity Number: RN105776306
Customer Reference Number: CN603213315

Dear Mr. Reed:

This is in response to your Form PI-1 (General Application for Air Preconstruction Permits and Amendments) concerning the proposed TCEQ Air Quality Permit Number 89957L001.

A permit for your new facility is enclosed. The permit contains several general and special conditions that define the level of operation and a maximum allowable emission rates table. We appreciate your careful review of the special conditions of the permit and assuring that all requirements are consistently met. In addition, the construction and operation of the facilities must be as represented in the application.

No planned maintenance, startup, and shutdown emissions have been reviewed or represented in this application and none are authorized by this permit.

This amendment will be automatically void upon the occurrence of any of the following, as indicated in 30 TAC § 116.120(a):

1. Failure to begin construction of the facility authorized by this amendment within 18 months from the date of this authorization.

2. Discontinuance of construction authorized by this amendment for a period of 18 consecutive months or more.

3. Failure to complete construction within a reasonable time.

Upon request, the executive director may grant extensions as allowed in 30 TAC § 116.120(b).

The permit is effective as of the date of this letter and will be in effect for ten years from the date of approval.

As of July 1, 2008, all analytical data generated by a mobile or stationary laboratory in support of compliance with air permits must be obtained from a NELAC (National Environmental Laboratory Accreditation Conference) accredited laboratory under the Texas Laboratory Accreditation Program or meet one of several exemptions. Specific information concerning which laboratories must be accredited and which are exempt may be found in 30 TAC § 25.4 and § 25.6.

For additional information regarding the laboratory accreditation program and a list of accredited laboratories and their fields of accreditation, please see the following Web site:

http://www.tceq.state.tx.us/compliance/compliance_support/qa/env_lab_accreditation.html

For questions regarding the accreditation program, you may contact the Texas Laboratory Accreditation Program at (512) 239-3754 or by e-mail at labprgms@tceq.state.tx.us.

If you need further information or have any questions, please contact Larry Buller, at (512) 239-1890 or write to the Texas Commission on Environmental Quality, Office of Permitting and Registration, Air Permits Division, MC-163, P.O. Box 13087, Austin, Texas 78711-3087.

Sincerely,

Bryan W. Shaw, Ph.D., Chairman
