RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living, working, and visiting the area adjacent to the Lookout Transfer Station, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, and various heavy traffic noises.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Sincerely,

Christina Achatz

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living one mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A).

After 15 years of being a resident next to the Lookout Station and two years of participating in public hearings on this permit and expansion, I am most concerned that the actions of the North Texas Municipal Water District have been arrogant and no more than lip service to the valid concerns of those who must endure the end product. Before this permit is granted, it seems that it is time to have the State of Texas hear the voices of her people on this issue rather than rubber-stamping from the capitol.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Thank you for your time and attention on this issue.

Respectfully,

Re: North Texas Municipal Water District Permit Amendment Application (Permit #53A)

Dear Sir or Madam:
As a resident living within 1.5 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. The significant increase in truck traffice, noise pollution, and odor could well become a detriment to my neighborhood and decrease the value of my property.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Sincerely,

Jerry Adamic

Re: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living 1 mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, we formally request a public meeting to be held with the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A).

We just recently moved into this neighborhood and this is the first that we have heard of the massive expansion of the transfer station. We are obviously concerned about this expansion and how it will impact our neighborhood. We are troubled by the extra traffic, odors, litter making its way into the park and other problems that this expansion will cause.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to our comments in writing.

RE: North Texas Muncipal Water District Permit
Amendment Application (Permit No. 53A)

Dear Sir or Madam:

As a resident living less than a mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I feel that we will be living too close to the odor and pollution of this trash site. We have a creek and pond that can affect our ducks, birds and fish. Please keep our air, land and water clean for these animals and the people that live close to the proposed area. Finally, we need to keep the quiet atmosphere of our residences. If you drive in our streets you will see that we have a lot to lose to this proposed action.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living about one mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. Currently we do not have any noticeable impact from the Transfer station, however if the plans go through to more than triple the amount of average daily garbage intake, I expect that may change. I have driven near other transfer stations where there is almost always a disgusting smell, and I do not want to live in an area like that.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

Dear Chief Clerk:

As a resident living less than 2,000 feet from the Lookout Transfer Station, in one of the neighborhoods most directly impacted by this application, I formally request that a public meeting to be held within the City of Richardson on the permit amendment currently pending for the Lookout Drive Transfer Station (Permit No. 53A).

Over the course of my five years living in this neighborhood, the Lookout Facility has adversely affected my ability to use and enjoy my own property in addition to Lookout Park due to unpleasant odors, airborne dust, windblown refuse, truck traffic and equipment noises at the Facility, especially during prime summer months.

As a tax-paying resident of this neighborhood, I deserve the opportunity to ask how the North Texas Municipal Water District Intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the requested meeting and respond to my comments in writing.

Sincerely yours,

Peter G. Balbus

Re: N. Texas Municipal Water District Permit Amendment App. (Permit no. 53A)

As a resident living within a mile from the Lookout Transfer Station, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit n. 53A). Expansion of the Lookout facility will bring more truck traffic and more noise when the trucks drive through Plano Road as they deliver their load to Lookout Station. I currently have to endure this noise as my house backs to Plano Rd.

Residents deserve an opportunity to ask how the North Texas Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested.

RE: North Texas Municipal Water District Permit
Amendment Application (Permit No. 53A)

As a Resident living approximately one mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. Currently there is heavy trash truck activity on Plano Road and Lookout. This impacts the park entrance, the Owens Sausage community events and is generally unsightly. There are also odors when the wind blows from the West. Litter is also problematic. An expansion without constraints to keep the neighborhood environment healthy would not be of value to our community

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion

Please respond to our comments in writing.

As a resident living near the Lookout Transfer, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain protections agreed by the City of Richardson and the Northwest Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.
Please respond to my comments in writing.

Sincerely,
Jaime Barr

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Sincerely,

Lawrence W. Bax Jr

I live 1000 feet for the Lookout Transfer Station. I formally request a public meeting to be held in the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit #53A). It smells, is loud, and has heavy truck traffic. We feel this hinders our property value and quality of life.

Please grant my request for a public meeting in Richardson.

Thank you,

Steven Bayouth

(Written comments may be submitted at any time during the meeting)

Please give this form to the person at the information table. Thank you.

Good Evening,

I am Martin Brady, the current president of Owens Park Neighborhood Association which is comprised of 411 Homes. I am making this statement on behalf of the OPNA Board of Directors regarding the Proposed New Lookout Transfer Station.

We have come to the point of this Public Meeting by TCEQ after years of meetings and negotiations with the City of Richardson, NTMWD ,our surrounding Neighborhood Associations , Neighborhood Protection Alliance of Richardson(NPAR)of which we are a member and Texas Campaign for the Environment(TCE).

We have a 16 point Memorandum of Understanding signed by all of the above mentioned entities hammered out after many years and meetings. The City of Richardson reiterated in a recent meeting that they support the MoU and will enforce it to the best of their ability: however we see that important points of the MoU relevant to the District are not part of this pending permit. We don't understand this . It is our feeling that if the pertinent points of the MoU are incorporated we are in favor of this permit and that we will then be assured of a new State of the Art transfer Station that is Environmentally,Asthetically and Livably sound.

Thank you,

Martin Brady – President Owens Park Neighborhood Association

RE: North Texas Municipal Water District Permit Amendment Application (Permit # 53A)

Chief Clerk:

As a resident of Richardson, Texas, living within one half mile of the Lookout Transfer Station, I am deeply concerned about the conditions of the currently proposed facility expansion. I live on the East side of the Sherrill Park Golf Course and enjoy using the walking trail that extends into that property and runs alongside Lookout Park and borders the transfer station. However, what I do not like are the occasions when I go out for a peaceful early morning weekend walk on the trail (or sometimes during the week), and have to hear the noise of the garbage trucks, with their beeping backup horns, as well as smell the odors on the days when the wind blows them in the direction of the park and golf course. The grounds there are unsightly and not maintained on a regular basis.

The fact that the facility is going to be expanded is bad enough. But the fact that application to amend the permit does not contain several of the protections/restrictions previously agreed upon by the City of Richardson and the NTMWD, makes the future for the surrounding areas and residents much worse. Until those protections are guaranteed and conditions met to safeguard the environment and property values for me and my neighbors, I respectfully request that the TCEQ NOT grant the expansion for the Lookout Transfer Station.

I look forward to receiving your written response to my request.

Sincerely,

Karen Breitbart

RE: North Texas Municipal Water District
Permit Amendment Application (Permit NO 53A)

I live approximately 1/2 mile from the proposed site and the current facility impacts my quality of life. Trucks regularly drop liquid waste on the street leading to the facility. There are many days that the street is covered with broken glass which affects the bike path. There are soccer fields ajacent to the facility which would be effected due to the planned expansion. I ~~der~~ do request a public meeting be held within the City of Richardson. These decisions should be made by the residents of Richardson.

RE: North Texas Municipal Water District Permit Amendment Application

(Permit No. 53A)

As a resident living approximately 2 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed.

The traffic is congested with the trash trucks coming and going, and the noise from the traffic is disruptive. The transfer station should act as a good neighbor by limiting the size of the expansion.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

The planned facility will be 650 feet southeast of my home at 1516 Braeburn. Our Neighborhood Association has been working with the City and other neighborhood's representatives for 2 ½ years to get the District to meet certain requirements in building and operating the new facility, as well as to make the current operation less offensive. I already hear shrill beeper and pounding noise. The permit request is to allow approximately double the current average daily demand on the facility.

In December 2010 all parties agreed to sign a Memorandum of Understanding (MOU) containing 16 points to give our neighborhoods the best possible oversight in the planning, design and operation, including the allowed volume of trash to be accepted and 15 other items to best protect our neighborhood from more than doubling the truck traffic, noise, odors and blowing trash.

msw
79923

After the District, the City Council and the neighborhood representatives all agreed to and signed the MOU, the City Manager asked the City Attorney to prepare a legal version for execution by all parties. Although having tried for a year and reviewed and responded to two revised versions, we have been unable to get the City and District to revise the draft legal version so that it matches the approved MOU.

Re: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living less than one mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of 15 years, the Lookout facility has inhibited my ability to use and enjoy my property due to noise, odor, windblown waste and truck traffic.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Sincerely,

Kenneth Burrow

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

Dear Ms. Bohac:

As a resident living three miles from the proposed Lookout Transfer Station rebuild, in one of the neighborhoods most impacted by this application, I formally **request a public meeting to be held within the City of Richardson** on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). We already have some issues with noise and wind-borne particulates from this facility, both at my home and at Lookout Park where my three children play and have sporting tournaments..

I am very concerned about the negative impact of the station and the seeming indifference NTMWD continues to demonstrate toward this sensitive area. Last year, Mayor Gary Slagel and the Richardson City Council assured families in this affected area that an agreement was in place to protect our neighborhood and our community. However, the NTMWD permit application includes very little of this "Memorandum of Understanding"—which was signed by Mr. Jim Parks, NTMWD Executive Director, over a year ago. This agreement contained a set of essential "neighborhood protections" that would ensure protection of my property values, nearby parks and recreational areas as well as the surrounding environment. As proposed, the trash station will be partially sited in the 100-year flood plain, on a watershed creek, without significant grading and filling in an area directly adjacent to a now-defunct gun range (where, incidentally, lead contamination was discovered several years ago).

Again, I would like to formally **request a public meeting** in the City of Richardson on this permit amendment application (Permit No. 53A). The citizens who live and play in the communities nearest the Lookout Transfer Station —and who will be affected most by the proposed facility—must receive an opportunity to ask questions and hear in detail how this proposed amendment will affect our quality of life. Moreover, residents deserve an opportunity to ask whether or not the NTMWD intends to fulfill its prior commitment in spite of the fact that few components of the agreement are contained within the permit application. Please grant the public meeting as requested.

Thank you for your time and consideration in this matter. I look forward to your response and to the public meeting.

Sincerely,

Matthew and Mary Alice Cafiero

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living less than 2 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. Having young children, we are often in the area around the Lookout Transfer Station at Lookout Park for sports practices or visiting Owens Farm. We have noticed in the past strong and very unpleasant odors originating from the Lookout Transfer Station in its current size. If the transfer station is to be expanded with no set protections in place the smells emanating from transfer station could increase and no one would be held accountable to correct the situation. Please help the residents of Richardson keep our city a great place to live by setting up specific protections for our current and future residents.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

I would appreciate a written response to my comments.

Re: North Texas Municipal Water District Permit Amendment Application
(Permit No. 53A)

I live within a few hundred yards of the Lookout Transfer Station (just across Lookout Park), in one of the neighborhoods most impacted by this application. I am concerned about the expansion as it is currently proposed. In my five or so years living in this location I have often had to remove trash from my front yard and parkway that was dropped by trucks or blown in by the wind. Luckily, the landscaping that blocks access from Owens Blvd to Lookout Park has cut down on the number of trash trucks using Owens as a shortcut. However, we still get refuse blown over the hill by the wind.

Not to mention that when the wind is just right we can smell the Transfer Station.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this extension.

Re. North Texas Municipal Water District Permit
Amendment Application (Permit N° 53A)

As a resident Living within ½ mile from the Lookout Transfer Station, in one of the neighborhoods most impatted by this application, We formerly request a public meeting to be held within the City of Richardson on the current pending permit amendment for the Lookout Drive Transfer Station (Permit N° 53A). Over the course of the last month, since moving to the area, we have noticed the excessive amount of noise created by the refuse trucks along Owen Drive and danger to children of residents playing in the area due to the amount of Litter blown from the site onto adjacent playing fields.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting a requested.

MW

If possible, can you please respond to my prior comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application
Permit # 53A

As a resident living about ½ mile from the Lookout Transfer Station, in the Owens Park neighborhood most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of 2 years, the Lookout facility has inhibited my ability to use and enjoy my property due to odor, noise, wind blowing debris, truck traffic and traffic noise. The odor is stifling on warm summer mornings when trying to walk. It smells like a garbage dump. On windy days garbage is stuck in my bushes and on my lawn. Huge trucks use the same road that is used for bike and pedestrian trails. Trucks backing up and banging their beds to loosen debris can be heard all hours of the night and day even though noise Lessing devices have been added to trucks.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

COMMENTS: We need the meeting to be held in Richardson, TX not Austin. The Transfer Station is in my backyard, the NTWD is in the area and my City Council is here. Also we would not be requesting this meeting if the City and NTWD had lived up to their side the of the bargin by legally committing to the terms set forth in the letter of understanding. This transfer station is in the middle of a neighborhood and if the NTWD tried to put this waste dump in this same location today it would be restricted, and OH MY THE WAY, the land it sits on is zoned residential!!!!

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living about 2 football fields north from the Lovkart Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lovhart Drive Transfer Station (Permit No. 53A). Over the course of 23 years, the Lovhart facility has inhibited my ability to enjoy the use of my property everyday. At times the odor is bad, don't want to be outside — the crazy noises, beeping constantly, drives us crazy all times of morn + night. Truck traffic inhibits us from getting out of the neighborhood easily,

MW

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living 1.9 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping. This also affects our traffic congestion and road conditions for the neighboring areas.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Sincerely,

Nancy + Mike Claassen

RECEIVED

OCT 09 2012

AT PUBLIC MEETI

my name is Diana Clawson (RDC HOA)

~~I am Shelley McCall~~, ~~President of Highland Terrace Neighborhood Association~~ which includes ~~1800~~ 1451 homes ~~here on the Eastside of Richardson.~~ We are also members of the Neighborhood Protection Alliance of Richardson. I am making this statement on behalf of the ~~Highland Terrace Board of Directors~~ Duck Creek Board of Dir. regarding the permit application on the proposed ~~of~~ expansion of the Lookout Trash Transfer Station.

Two years ago an agreement was reached with the NTMWD between the City of Richardson, NPAR, individual impacted neighborhoods and Texas Campaign for the Environment . This became a 16 point Memorandum of Understanding which all the parties signed including the water district and I was one of the signators. It was specifically created to protect the neighborhoods, and the surrounding environment from this expansion. The current permit does not completely reflect that agreement. ~~Highland Park Neighborhood association~~ Duck Creek supports the MoU and the request by NPAR to have those key elements included in the permit application and as well as their request to directly meet with the District. Having these protections spelled out within the permit gives all of Richardson's citizens a guarantee by the state. We understand that these kinds of waste permits are for the life of the facility and not subject to review by law and therefore it is very important to have these elements included from the beginning.

noise traffic water pollution

We acknowledge the effort on both the NTMWD and the City of Richardson in working together and agreeing to essential protections to preserve our quality of life and communities through the MoU. However, the MoU a~~lone may not be~~ is not sufficient to accomplish this goal. Since we all share this goal, we need NTMWD to meet with neighborhood representatives as soon as possible and have the full extent of the MoU reflected in the permit or through a separate legal addendum.

Transfer Station is not out in a desert - surrounded by homes & public places - people, children, pets & wildlife

Thank you

address: ~~NTMW~~ D staff - would you want this fac to be built 650 ft from ~~next to~~ your home?

we live here in Richardson & want you to be good neighbors,

Re: North Texas Municipal Water District Permit Amendment Application (Permit # 53A)

To Whom It May Concern:

As a current resident living less than one mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within our city of Richardson, Texas on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit # 53A). Over the course of the last 10 years, the Lookout facility has inhibited my ability to use and enjoy my property due to noise, the blowing trash, the smell and the truck traffic you have with the transfer station now has greatly effected the quality of life and recreation for our family and the many families living in our neighborhood.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. I am requesting that you please grant the public meeting as requested. Please respond to my comments in writing. It would be greatly appreciated and show a real concern for the residents of Sherrill Park and the surrounding neighborhoods.

Yours truly,

Georgia Clymer

Dear Sir,

I live approximately 3 blocks from the Lookout Transfer Station in Richardson, Texas. We have lived in this house since 1976, and have seen the activity of the transfer station increase with time. I am very concerned with the increase in traffic, the persistence of strong odors, and noise at the transfer station. I am concerned about the impact of expansion of the transfer station on the quality of life in our neighborhood and on our property values.

I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A).

Sincerely,

Penelope A. Colbaugh

Re: North Texas Municipal Water District Permit Ammendment Application (Permit No. 53A)

As a resident living 8448 ft / 1.6 miles from Lookout Transfer Station, in one of the neighborhoods most impacted by this application. I formally request a public meeting to be held within the City of Richardson on the currently pending Permit Ammendment for the lookout drive Transfer Station (Permit No. 53A). Over the course of fifteen plus years, The Lookout Facility has inhibited my ability to use and enjoy my property due to excessive movement, and noise brought by the allready large number of trucks. Increased traffic draws in others in the community decreasing safety. Random debris litters the roads, and the excessive odor truly makes it horrible.

Residents deserve an opportunity to ask how North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Sincerely, and hoping to hear soon

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (permit No. 53A)

As a resident living ¼ mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this project, I formally request a meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (permit No. 53A). Over the course of the past year, the Lookout facility has inhibited my ability to use and enjoy my property due to the increase in truck traffic and noise in the area, which will get worse with the proposed expansion to this facility.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested.

Please respond to my comments in writing.

Thank You for your consideration

RE: Municipal Solid Waste Permit Amendment
Permit No. 53A

Dear Sirs:

As Executive Director of Public Works for the City of McKinney, I fully support Permit No. 53A. If Permit No. 53A is approved, it will authorize the North Texas Municipal Water District (NTMWD) to construct a new transfer station building to replace the existing facility. This facility improvement will benefit the citizens of the City of Richardson as well as the citizens of the other four cities which comprise the Solid Waste District.

Thank you for your favorable consideration of Permit No. 53A.

COMMENTS: The Richardson Environmental Action League (R.E.A.L.), founded in 1973 as a volunteer recycling and general environmental organization, enthusiastically supports the permit application as submitted by the North Texas Municipal Water District for the Lockout Transfer Station (LOTS)in Richardson,Texas. The current transfer station at this location is woefully outdated. The proposed new facility will have major best management practices, and state-of-art environment protections to better manager municipal solid waste at this facility. R.E.A.L would like the TCEQ to approved this application as soon as possible so that the majority of area residents can benefit from the improvements and enhancements built into the proposed LOTS facility. Ed Curran, President R.E.A.L.

COMMENTS: To whom it may concern: I have learned that the final hearing for the Lookout Transfer Station permit is 10/9/12. As a citizen of the city of Richardson, the construction of the new transfer station concerns me. We have all followed the Neighborhood Protective Alliance of Richardson's (NPAR) activities and the permit. I feel that the permit does not accurately reflect the 16 point protections that the North Texas Municipal Water District, the City, and the neighbors agreed upon in the 2010 Memo of Understanding (MoU). Please do not approve the permit until all the applicable points that both sides agreed to earlier, be guaranteed within the body of the permit. Thank You, Ernie Davenport 1908 Tulane Dr. Richardson, TX 75081 erniedavenport@sbcglobal.net 972-690-8376

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living 2 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have noticed the odor and noise and it's very unpleasant. My kids and I have just moved here to stay with my parents, and I am very concerned about the effects this could have on my children's health.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Sincerely,
Angela Davidson

COMMENTS: I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station. This is permit 53A. We have had to live with the Lookout Transfer Station for a number of years, and are very disappointed it is being allowed to continue in operation, given its location in the middle of several neighborhoods and parks. The trucks carrying waste to and from the station spread nasty odors through our neighborhood and interfere with bike and pedestrian traffic around the parks. A great deal of effort was spent trying to address these concerns, and we need to know that (despite their reputation) the NTMWD will work with the Memorandum of Understanding which was developed by our neighborhood and our city.

CHIEF CLERKS OFFICE

From: Jane and Wayne Davis
2302 Windsor Drive
Richardson, Texas 75082

Subject: Permit No. 53A

Gentlemen:

We formally request a public meeting be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station. This is referencing Permit No. 53A.

Holding the meeting in Richardson and not Austin will allow the citizens who are impacted by the Lookout Drive Transfer Station changes an opportunity to voice their concerns and to make certain that the Memoranda of Agreement reached between the NTMWD, the City of Richardson, and the citizens of Richardson is addressed. The elements of this Memoranda of Agreement are currently not within the text of Permit No. 53A and this must be documented as agreed.

From our home, we are approximately ½ mile from the transfer station and listen to the backing horn of the equipment. I understand the value of a backing horn, but the noise all the way here is the type of unnecessary intrusion we experience. Along the creeks and drainage areas there is trash of all sorts that have blown in from the station and trucks.

There have been improvements since the neighborhood associations have vigorously complained, but the LOTS has not been a good neighbor nor a caring steward of their product and impact on the area.

Sincerely,

Jane Davis
Wayne Davis

COMMENTS: I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station, Reference Permit No. 53A. I personally have seen a trash truck drive through our neighborhood and cut through the playground to get to the existing transfer station. We need to ensure that the public has an opportunity to continue to express their concerns and discuss the memo of understanding with the North Texas Municipal Water District. The fairest way to do this is to have the hearing here locally, not in Austin.

To whom it may concern,

As a resident living within ½ mile of the Lookout Transfer Station and in the neighborhood most impacted by this application, I formally request a public meeting to be held within the City of Richardson regarding the pending permit amendment for this station (Permit number 53A). During the 15 years of my residency here, this neighborhood increasingly been exposed to equipment noise, heavy truck traffic, and blowing trash. This has resulted in decreased property values and impacted lifestyles here.

Respectfully,

RE: North Texas Municipal Water District Permit
Amendment Application (Permit No. 53A)

As a resident living within 1 1/2 miles of LookoutTransfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. We have lived at this address for nearly 20 years. I have not had any issues pertaining to the facility as of yet. We pay a large amount of taxes to live in this nice community and we want to continue to do so. Please protect our environment and our neighborhood!

This application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby neighborhoord are guaranteed these protections, TECQ should not grant this expansion.

Please respond to my comments in writing.

Sincerly,

Alison M. Duckem

As a resident Sherrill Park/Foxboro Addition; I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit #53A).

I live within 2000 feet from LOTS and hear the noisy 24 hrs. Over the course of 9 years this has inhibited my ability to enjoy living here. I've experienced odor, multiple truck (heavy) truck in a residential, trash along our parkway and garbage stain at intersections. The trucks drive fast and are not courteous to cars.

I'm concerned about our property values going down.

Sincerely
Stephen Dodge

Re: North Texas Municipal Water District Permit #53A

As a resident of Richardson (75082) I live about 1/2 mile from Lookout Transfer Station. This neighborhood is really impacted by this transfer station.

I am request a public meeting to be held within the City of Richardson to review the pending permit application.

I have lived in this house for 30+ years and this station, if it is enlarged, will greatly impact the value of our home. We often experience odors and increased traffic. Increasing trash from 500 tons to 1900 tons will certainly impact our home value. The traffic alone will be a big negative impact.

We deserve to have a personal meeting with the Water District to ask how they intend to protect our community and property values.

Please grant our city a public meeting. Please respond to my comments in writing. Thank you.

COMMENTS: "I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station" Permit # 53A The area and proximity of the proposed location is not in the best interest of the neighborhood surrounding this station. The noise and smell would be unbearable in the area and should not happen. The existing size and amounts of trash being dumped there now is somewhat acceptable, but ANy expansion would not be.

RE: North Texas Municipal Water District Permit Amendment Application

Permit No. 53A

As residents living about 1 mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, **we formally request a public meeting be held within the City of Richardson** on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit53A). Over the past 10 years the Lookout facility has inhibited my ability to use and enjoy my property due to heavy truck traffic, windblown waste and noise. My grandchildren have not been able to fully enjoy the city park on Braeburn for these reasons and the odor when they visit us.

We residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting that we affected residents are requesting. Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit # 53A)

As a resident living about 3 blocks from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit # 53A). Over the past 5 years, the Lookout facility has polluted the air with foul smells, blowing debris, and more importantly truck traffic.

We deserve an opportunity to ask how the NTMWD intends to fulfill its commitment to protect the surrounding areas during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Sincerely,

Nicholas Fekete

RE: North Texas Municpal Water District Permit Amendment Application (Permit No. 53A)

Dear Sir or Madam:

As a resident living ¼ mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed with regards to issues of noise, odors, traffic and overall quality of life.

This application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municpal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Thank you for your consideration.

Sincerely,

Mike Flahive

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a Richardson resident living less than 1/2-mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting on the application to be held within the City of Richardson, where the people impacted by the permit can have direct input.

It is very disappointing that the North Texas Municipal Water District is unilaterally moving forward with this application, without notifying the City of Richardson or the neighborhood groups they have been working with and reassuring that they would be a good neighbor. This action is an indicator of their future activities if the proper enticements are not in place prior to the permit being issued. A local hearing, sanctioned by your commission and with your commission having accountability to the findings of the hearing, is our last opportunity to work with the NTMWD. We also want to be good neighbors, and are trying every avenue we can to keep a neighborly relationship.

Again, please hold an official meeting on this application in the City of Richardson so that we can have an official forum to enter into public record the items of the Memorandum of Understanding that all parties have signed on to, but which the NTMWD has not contractually signed.

Thank you,

Re: North Texas Water District Permit
Amendment Application (Permit No 53A)

As a resident of 1511 Braeburn, I live less than a block from the Lookout Transfer Station (as the noise and odor fly). I am concerned about the expansion as it is currently proposed. In fact I am rather shocked that this is still an issue as a couple of years ago our neighborhood attempted to get concessions regarding the facility and I thought it was a done deal. I really am opposed to any expansion as I see no good reason to take in neighboring cities garbage in a residential neighborhood.

During the week the noise is considerable when I am out in the pool or yard. I can really sense the impact of the station when it is so much quieter on weekends. The additional traffic on Plano Road is a bother when I try to turn onto Plano Rd to go anywhere. Generally the odor is contained but there are still far too many days when the odor is noticeable. In addition, when I play golf at Sherrill Park the beauty of the outdoors is compromised by the noise and the odor from the station.

The application does not contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.
Please respond to my comments in writing.

I am hoping that you do the right thing as promised to the neighbors/taxpayers and RICHARDSON residents who live near the station. Aren't we as important as the blind spider in San Antonio? They shut down a $15 million dollar highway project for a spider that hasn't been seen in 32 years but won't listen to the will of the people affected by a garbage dump in their neighborhood.

North Texas Municipal Water District Permit Amendment Application (Permit No. 53 A)

As a resident living 1 mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. At one meeting I attended, it was explained that a Dallas truck company was bringing trash here from McKinney. Only to go back North to the landfill. That's just how they do it. Expansion will not force the efficiency they need and we deserve. The site is loud and holds a terrible odor. They have not been good neighbors under the current permit. We need more?

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should <u>not</u> grant this expansion.

Please respond to my comments in writing. Thank you!

Sincerely, Carla Grant

As a resident living in the Crowley Park Neighborhood, I am concerned about the expansion of the Lookout Transfer Station as it is presently proposed. The noise it generates is already an annoyance, and that will surely greatly increase, lessening the quality of life in this area near the Lookout Transfer Station.
The increased truck traffic from City of Richardson vehicles and the larger trucks transferring solid waste to disposal sites will certainly detract from the area's attraction to present and future residents in the neighborhood.

The application does not contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Permit Amendment Application (Permit # 53A)

As a resident living about 1/4 of a mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit # 53 A). Over the course of the last 28 years, the Lookout facility has inhibited my ability to use and enjoy my property in the way I should, due to odors and traffic when I am using the walkway

MW

that borders the transfer station. In a time when we should be more health conscious, I feel hampered by the noise + odors which limits my health program and my enjoyment because of having these problems so near my property.

Please grant the public meeting as requested and please respond in writing.

Yours truly

Kathryn D. Gundersen Gundersen

1416 Woodoak Dr.

Richardson, TX 75082

As a resident living 1,000 feet from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the city of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (permit No. 53A). Over the course of 3 years, the lookout facility has inhibited my ability to use and enjoy my property due to Smell during hotter months, dangerous dump truck drivers on our roads, and the degrading of our city streets by overuse.

Residents deserve an opportunity to ask how The North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. please grant the public meeting as requested. Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living within a quarter mile of the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, **I formally request a public meeting to be held within the City of Richardson** on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of five years, the Lookout facility has inhibited my ability to use and enjoy my property due to noise, odors, and vermin (skunks, raccoons, and coyotes).

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Respectfully yours,

Daniel R Hanson

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about my neighborhood, heavy and noisy truck traffic, and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living 1.0 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. The transfer station as it currently exists already results in heavy truck traffic, debris in the air and grounds, and frequent noise from the back-up signals on the trucks which all contributes to an undesirable situation in the middle of city neighborhoods.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipala Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living 1.5 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed.

I pass through Lookout Park daily on my bicycle commute to and from work. The odor produced by the decaying trash is often oppressive, especially during the summer months. The increased traffic levels and volume of waste that an expansion of this facility would bring could make the nearby parks unpleasant for citizens to use, as well as reduce the property values of the nearby neighborhoods. I hope that you will take these issues into consideration when you make your decision.

The Application does not yet contain many of the neighborhood protections agreed to by the City Of Richardson, and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

I would appreciate a response to my concerns in writing.

Sincerely,

David Heckmann

Re: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living less than 1 mile from this Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I play golf at Sherrill Park Golf Course and have heard the noise and smelled the trash. I also get behind these trucks and it is not a good experience. Please help clean up this mess the best you can. I am a long time resident of Richardson and would like for this transfer station to match the rest of this fine City.

This application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing at my address above. Thanks you for your consideration.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living 1/4 mile from Lookout Transfer station. We are one of the neighborhoods most impacted by this application.
I am concerned about the expantion as it is currently proposed. We have had mice several times at our house in the past. We would like to insure this does not become a bigger problem along with odor, Noise, traffic + excess trash.
The application does not yet contain many of the neighborhoods protection agreements.
Residents should be given these protections both in the expantion application and in a binding contract. Thank you, Sonja Hill

RE: North Texas Municipal Water District ~~Permit~~
Amendment Application (Permit #53A)

MSW
79923

As a resident living within 2 miles of the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have had the occasion to take trash to the station when I have missed the regular trash pick-up. The smell is horrific. The large trucks are a traffic hazard.

The application does not as yet contain many of the protections guaranteed to the neighborhoods by the City of Richardson and the N. TX Municipal Water District. Until nearby residents are guaranteed these protections, the TCEQ should NOT grant this expansion.

Also please do something about the disgusting smell and taste of the Water in the summer. If it smells rotten & tastes rotten, I can't cook with it or drink it. I have to purchase bottled water for consumption.

RE: North Texas Municipal Water District Permit Amendment Application
(Permit Number 53A)

Dear Sir/Madam:

I am a resident of Richardson living within ½ mile of the Lookout Transfer Station, and am impacted by this facility. I am concerned about the expansion of this as currently proposed.

I regularly ride my bike and bring my children to play in the nearby parks, and there are already garbage trucks rolling past, and garbage and noise make the area unpleasant.

This application for expansion lacks many of the neighborhood protections agreed to by the City of Richardson and North Texas Municipal Water District . Until nearby residents (myself and my family among them), I would request that TCEQ not grant the expansion of this facility.

I would like a response to my comments in writing.

Sincerely,

RE: N. TX Municipal Water Dist. Permit
Amendment App (Permit No. 53A)

As a resident living 2.5 mi. from the Lookout Transfer Stn., in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I don't want to hear the noise, smell the smells or have the vermin that it will produce.

The application does not yet contain many of the neighborhood protections agreed to by the Cith of Richardson and the NTMW District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Sincerely,

Fred Huffman

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living approximately 1/16 mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of many years, the Lookout facility has inhibited the neighborhood's ability to use and enjoy much of the area due to odor, noise, windblown waste and truck traffic.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Sincerely,

Public Meeting on Transfer Station October 9, 2012

My name is George Human. I live at 1510 Amesbury Drive, Richardson Texas

I want to assure both the District and the residents here tonight that the City has reconfirmed as late as five days ago its intent to fully enforce all of the requirements set out in the Memorandum of Understanding as executed in December 2010 with all means it has in its authority. This includes such steps as plan review with oversight and input from neighborhood leaders, issuance of building permits, water and sewer connections and driveway access permits and occupancy permits.

The City has also hired noise design and testing consultants to make sure the design of the facility includes sufficient sound protection to meet the City's noise ordinance. The consultant will also conduct sound tests when construction is completed to make sure the operation of the new facility does not exceed the City's noise Ordinance. The District will have to retrofit the facility if its operation exceeds the noise ordinance. This includes all noise and specifically truck and other equipment back up warning alarms. Our agreement also includes maximum capacity restraints, which besides the noise suppression, is the most important element of the agreement.

This agreement was carefully developed over approximately 18 months and executed by the City, the Water District, the Texas Campaign for the Environment, the Neighborhood Protection Alliance and the five neighborhoods most heavily involved in the process.

The reason I'm happy that so many of you are here tonight is that we want all of you and the District to know that the residents of the area are still fully committed to all conditions of the 2010 agreement being met in the design, construction and operation of the facility.

This has been a long and tiresome process for your neighborhood leaders as well as the City staff and the District. We all look forward to a much quieter facility being completed as soon as possible. I live 1,800 feet from the facility and still hear the beeper noise every day.

The new facility is to be built 400 feet closer to our neighborhood than the current facility and will be only 650 feet from our nearest home. Since our Sherrill Park neighborhood is the neighborhood most impacted by the existing facility's noise and truck traffic adjacent to our neighborhood and since the prevailing winds bring the facilities noise and odors into our neighborhood more than any of the others, we especially appreciate everyone's past efforts in developing the agreement and being be here tonight.

RECEIVED
OCT 09 2012
AT PUBLIC MEETING

George Human

George Human, Sherrill Park Neighborhood Association Board City Liaison
1510 Amesbury Drive, Richardson TX, 75082

Also, all of the parties to the MOU agreement except possibly the District are in full agreement ~~with the~~ as ~~expanded~~ executed on December 22, 2010

Re: NTMWD Permit Amendment Application No. 53A

I am a 23 year resident of the neighborhood closest to the proposed expanded new facility to be built 300 foot closer to our neighborhood and one of many who hears the noise almost daily from the existing facility.

I will request that a public meeting be held in Richardson Texas if the NTMWD does not agree in writing to honor its commitment in full as contained in the 16 point Memorandum of Understanding (MOU) signed by the neighborhoods, the City of Richardson and the NTMWD (North Texas Municipal water District) on December 22, 2010.

The permit application, as submitted, does not contain all that was agreed upon in the MOU. If the District fails to convey in writing to us, within three weeks, its commitment and agreement to amend it's permit request to meet all of the MOU requirements, we will definitely ask that a public meeting be held in Richardson.

If the District agrees to honor the MOU and amends it's permit to honor the MOU commitments, I will be willing to write a letter of support on behalf of our Neighborhood Association's 384 residences. However, if the District refuses to honor the MOU as signed by their Executive Director, Jim Parks, I will be one of many who will request a contested hearing in addition to the public meeting in Richardson.

Thank you for giving us the opportunity to go on record on this request.
Sincerely,

George Human

COMMENTS: I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station. The Memo of Understanding for 53A is not clearly defined on the TCEQ site. I have lived near drop off stations before and not only is the smell bothersome but the environmental impact (clearing of land, water runoff, truck traffic, etc.) causes surrounding land property to decrease.

As you well know, the application for these amendments does not contain many of the neighborhood protections agreed to by both the City of Richardson and the North Texas Municipal Water District, just two years ago in 2010. Until our community can be guaranteed these protections, as we thought we were in 2010, your office, the TCEQ, should not grant this expansion.

Please respond in writing.

Re: North Texas Municipal Water District Permit Amendment Application (Permit #53A)

I am a 19-year resident of Richardson and live less than a 3-mile drive from the Lookout Transfer Station. While I understand the need to expand the capacity of the transfer station, I am concerned about the current proposal to do so. Although the transfer station does not directly impact my neighborhood, I am concerned for my fellow citizens of Richardson whose neighborhoods are affected. They should not have to endure odors, noise, excessive traffic, litter, and the possibility of illegal dumping so near their front doors.

In November 2010, residents of Richardson obtained a Memorandum of Understanding from city of Richardson officials and the North Texas Municipal Water District (NTMWD). This Memorandum stated a commitment to address concerns by residents. I understand that the application to expand the transfer station does not yet contain many of the neighborhood protections as agreed to by the City of Richardson and the NTMWD. This disturbs me. According to your own website, the mission of the TCEQ is to "protect our state's public health and natural resources consistent with sustainable economic development" with the goal of "clean air, clean water, and the safe management of waste." As currently written, this application to expand the Lookout Transfer Station does not guarantee nearby residents these protections. Therefore I ask that the TCEQ not grant this expansion.

Please respond to my comments in writing. Thank you.

COMMENTS: I am writing in reference to the Lookout Drive Transfer Station expansion permit application. I am concerned that many of the proposed provisions to protect the environment, nearby neighborhood impact (as agreed in principle by Richardson officials and the North Texas Municipal Water District) have not been included in the application. Please ensure that the provisions are included before any expansion permit is approved.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living within a half mile of the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I am concerned by the prospect of the increased intake volume causing:
Odor, Litter and Sound pollution in the neighborhoods and park adjacent to the site. The site is also located adjacent to a creek and there will necessarily be run-off from the site into the waterway.

I am also concerned about the increased truck traffic in what is currently a bike path on Lookout Drive.

I understand that the Transfer Station needs to be modernized and rebuilt. But I feel that guarantees to the neighborhood and City should be included in the proposed plan.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing. Thank you for your time and attention.
Sincerely,

Carol Klee

RE: **Written Statement Regarding Environmental Impact**
Permit Application No. MSW 53A
Lookout Transfer Station, Richardson, Texas

Office of the Chief Clerk:

On behalf of concerned citizens representing over 2,500 homes in the City of Richardson, Texas, the following Written Statement is submitted for public filing regarding pertinent environmental conditions at the proposed Lookout Transfer Station (LTS) site in Richardson, Texas, and errors in the LTS Permit Application No. 53A. The groups of concerned citizens (the Citizens) represented by this Written Statement are listed as Attachment 1.

Environmental conditions and permitting application errors regarding former activities at the proposed LTS site and current activities at the North Texas Municipal Water District (NTMWD) Waste Transfer Facility (WTF) site in Richardson, Texas warrant further investigation before the LTS WTF permit is approved.

The proposed LTS WTF is located at the City of Richardson (COR) former Fire Training Center (FTC) site, which is either adjacent or overlying the COR former municipal landfill that was abandoned in the 1950s. In addition, the current and proposed LTS WTF sites are adjacent to Spring Creek, a watershed that includes public access and walking trails. The attached Site Diagram Depicts the proposed and current LTS sites, along with the adjacent Spring Creek and its South Tributary.

The proposed LTS site and environmental conditions and permit application errors include:

- The COR former Fire Training Center (FTC) site was contaminated followed by insufficient remediation and erroneous site closure in 1996;
- Spring Creek and its South Tributary Seeps were contaminated from Former COR municipal landfill and FTC operations;
- Inappropriate Variance of Residential Zoning Request granted to current LTS WTF and requested for proposed LTS WTF;
- Error in classification of Spring Creek as not a Water of the US in LTS Permit Application;
- Potential illegal breaching of Landfill Cover if the LTS WTF site is approved;
- Lack of Noise and Air Emissions Study in the LTS Permit Application.; and
- Lack of Alternative Site Selection Study for the proposed LTS WTF site.

According to statements from the NTMWD made at the public meeting in Richardson on October 9, 2012, the NTMWD has no plans to perform an Environmental Assessment of the proposed LTS to address the historical contamination issues or confirm that the site is appropriate for its proposed use. In addition, it was also understood at this meeting that the NTMWD has no plans to confirm their current WTF operations have not impacted the site with soil or groundwater contamination.

Insufficient FTC Remediation

The proposed LTS WTF is located at the COR former FTC site. Excerpts of a Cura Inc. groundwater investigation report dated May 24, 1995 (1995 Cura Report) regarding pre-existing contamination at the former COR FTC are included as an appendix in the May 31, 2005 COR Lookout Site Master Plan. This appendix includes a 1996 Industrial Solid Waste Certification of Remediation Report (1996 ISWCRR) for the FTC that provides no actual supporting data. The following inadequacies in the data provided in this ISWCRR and accompanying Texas Natural Resource Conservation Commission (TNRCC, now the TCEQ) Closure Letter dated July 29, 1996 are as follows:

- The FTC was remediated to commercial industrial standards. Unfortunately, then as now, the site is zoned as Residential and the remediation to commercial industrial standards was inappropriate, insufficient, and not valid for residential exposures.
- Flame retardants to stop chemical reactions in fires were likely used at the FTC. These types of retardants are made from organic halides and no analytical results for these chemicals were included in the TCEQ closure letter for the FTC. The table of analytical results provided summarizes analytical data to support remediation of the FTC. Nine constituents were listed; however, these did not include results from laboratory analyses that would be appropriate for assessing a fire training facility that is either adjacent or overlying former a municipal landfill that was abandoned in the 1950s. Omitted or non-analyzed constituents that would be appropriate for assessment of historical activities of this type would include:
    - benzene,
    - metals,
    - semi-volatile organic constituents (SVOC),
    - PCBs, and
    - Pesticides.
- Vinyl chloride (VC) and trichloroethylene (TCE) are among the compounds that are included in the 1995 Cura Report table. Comparison of the results of VC and TCE to current residential Protective Concentration Levels (PCL) published by the Texas Commission on Environmental Quality (TCEQ) indicate both of these highly carcinogenic compounds exceed their PCLs. TCE exceeds its PCL for soil, and VC exceeds its PCL for groundwater by **two orders of magnitude**. In addition, the detection limits for PCE in soils, TCE in groundwater, and VC in soils are not provided and it is possible that the detection limits were above the current PCLs. If the detection limits were above the PCls, these constituents may indeed be present above their PCLs. The table below presents the data included in the 1996 ISWCRR and accompanying TNRCC 1996 Closure Letter, along with current TCEQ PCLs:

Compound	Result Groundwater	TRRP 2012 PCL Residential Groundwater	Result Soil	TRRP 2012 PCL Residential Soil
Benzene	Not Provided	0.005 mg/L	Not Provided	0.026 mg/kg
PCE (tetra-chloroethylene)	Below detection limit, but detection limit not reported	0.005 mg/L	0.0128 ppm	0.05 mg/kg
TCE (trichloroethylene)	Below detection limit, but detection limit not reported	0.005 mg/L	0.0199 ppm	0.034 mg/kg
VC	0.028 ppm	0.002 mg/L	Below detection limit, but detection limit not reported	0.022 mg/kg

Spring Creek and South Tributary Seeps

Currently, a milky white material is oozing from the contact between the proposed and current LTS WTF soils (likely the former Landfill soils) and the bedrock of Spring Creek. This ooze has resulted in staining the Spring Creek soils, sediments, and bedrock a dark orange/brown color, as shown in the attached Photographs. This same ooze and staining is also present on its south adjacent tributary (South Tributary). It is likely that the Spring Creek and Tributary ooze and staining are sourced from the current WTF, former FTC, and former COR Landfill sites.

The South Tributary is a border of the residential property at 2315 Windsor. Approximately 20 years ago, this residents' complaints about ooze and staining in the South Tributary became so frequent that the COR stabilized and plastic lined the section of its bank and bed along that property. No sampling data or report documenting the remediation of the South Tributary was provided to the resident. Because no remediation was performed either up- or down-stream, this minor remediation could not have controlled upstream or downstream contaminants. Currently, contaminants have re-presented.

The Citizens collected a sample of the water in Spring Creek on September 16, 2009 and submitted it for analysis of arsenic by Xenco Laboratories. The result was 1.49 mg/L. This is **three orders of magnitude above its PCL of 0.01 mg/L for groundwater ingestion.** According to the TCEQ closure letter for the FTC, a sample of the Spring Creek seep was analyzed for arsenic and was reported at 0.015 mg/L, just barely below its PCL. No information regarding the location of the TCEQ sample or supporting documentation has been provided. Because Spring Creek is a linear feature, one sample is insufficient to refute the Residents sample result. Most importantly, the 1996 TCEQ Closure Letter indicates VOCs were of concern; however, these constituents were omitted from the TCEQ closure letter that reported sampling of the Spring Creek seeps.

It is clear that the release to the South Tributary has not been satisfactorily remediated and the same conditions are present in Spring Creek. Appropriate sampling and analyses for the seeps should be performed that includes constituents likely associated with the former FTC activities, current LTS WTF activities, and former COR municipal landfill; specifically, RCRA metals, VOCs, semi-volatile organic constituents (SVOC), PCBs, and pesticides.

Costs and assessment of analyses of this nature are much beyond the capabilities of the Citizens. Therefore, this additional sampling and analyses must be performed by either the NTMWD or TCEQ and made available to the Citizens that are accompanied with supporting documentation to include maps, sampling methodology, and full analytical reports.

Inappropriate Zoning Variance Request

The current WTF received a variance for the residential zoning. As part of the LTS permit application, a request to continue the zoning variance is being pursued. This request is inappropriate. The 500-foot sensitive receptor distance surrounding the proposed LTS contains parkland, sidewalks, and public lands. Video-tapes provided to the TCEQ in February 2013 of citizens and their pets corroborate the use along Spring Creek daily.

Permit Error

The Spring Creek Watershed is a Water of the United States. The conclusion of the Threatened and Endangered Species/Wetland Determination section in the LTS Permit Application states that the Spring Creek Watershed is not a Water of the United States, and is incorrect.

Former COR Landfill

The Texas Administrative Code (TAC), Chapter 330, Subchapter T regarding Use of Land over Closed Municipal Solid Waste Landfills **prohibits** the breaching of the cover of a landfill unless owners and lessees of the property initiate investigations.

Residents have been able to obtain historical aerial photographs of the area back to 1995 in an attempt to determine the extents of the former COR landfill. However, a more thorough historical review may reveal that the current WTF and the proposed LTS are actually situated over the former landfill. According to statements made by the NTWD during the public meeting on October 9, 2012, no environmental or historical investigations have been performed or are planned.

It is proposed that an 18 foot excavation will be part of the LTS construction. This excavation would breach the cover of the former COR landfill, if present at that site, and further mobilize contaminants that are already leaching into Spring Creek, its South Tributary, and the surrounding parks, public land, and residential property.

Lack of Noise and Air Emissions Study

The COR Comprehensive Zoning Ordinance Article XXII-B provides the basis for noise, odorous matter, toxic and noxious matter. Review of the engineering plans of the proposed LTS indicates that the proposed LTS facility will be inadequate to prevent exceeding established limits for noise and toxic and noxious matter. According to statements made by the NTWD during the public meeting on October 9, 2012, no noise study has been performed or is planned as a part determining the appropriateness of the proposed capacity for proposed operations of the LTS.

Review of the site plan maps for the proposed LTS indicated the access and egress roads are insufficient to accommodate to the projected truck traffic. Sharp turns are required to maneuver into and out of the proposed facility that will cause truck traffic to stall, creating constant engine idling and revving. In addition, the 18 foot subsurface loading area of the proposed facility will cause constant engine revving noise as trucks climb up and out of this loading area. This noise will most certainly exceed the established Article XXII-B limits at the boundary of a Residential District, outlined below.

Table 3. Maximum Permissible Daytime Octave Band Decibel Limits at or within the Bounding of a Residential District

Octave Band (cps)	37-75	75-150	150-300	300-600	600-1200	1200-2400	2400-4800	4800-9600	A-Scale
Decibel band limit (db re 0.0002 microbar)	80	68	61	55	51	48	45	43	56

The engine idling from stalled truck traffic will also emit significant VOCs. A study to assess the requirement for a Title V Prevention of Significant Deterioration (PSD) air emission permit that also adheres to the Greenhouse Gas Tailoring Rule is required for this proposed significant air emission source.

SUMMARY AND CONCLUSIONS

The following actions within the 500-foot Sensitive Receptor area are requested:

- Investigation/remediation of Spring Creek and its South Tributary;
- Performance of an Affected Property Assessment Report (APAR) according to TCEQ Residential PCLs that includes complete horizontal and vertical delineation of contaminants at the current WTF, the former FTC, the former COR Landfill, and the Spring Creek Watershed and its South Tributary;
- Performance of an Environmental Assessment that includes a Noise Study, an Air Emissions Study, and a Cultural Resource Study to assess if siting the LTS in the proposed location with its proposed through-put/capacity is appropriate; and
- Results of an Environmental Assessment that indicates the proposed LTS site is not located on the former COR Landfill.

In addition, the following requests are made:

- Denial of the Variance of Residential Zoning Request for the Proposed LTS; and
- Correction of the classification of Spring Creek as a Water of the United States in the LTS Permit Application.

The state of the Spring Creek Watershed and its South Tributary clearly warrants immediate assessment. Adding the LTS without performing the above requested actions would further aggravate this already egregious situation.

.....∞.....

The Citizens are requesting that data results regarding the above described actions be made available prior to any permit approval. In addition, this Written Statement also serves as a written request of all documents pertaining to any environmental issues raised in this Written Statement; specifically, those documents concerning the areas within the 500-foot receptor area of the proposed LTS. Documents specifically requested are those on file at the NTMWD, COR, and TCEQ. This request is being submitted pursuant to the federal Freedom of Information Act (FOIA). In addition, because this request is of vital interest to the public who use the public areas in the 500-foot receptor area of the proposed LTS, the Citizens are requesting these documents be placed on file at the COR Public Library.

If you have any questions, you may direct them to the undersigned at 214-810-8956 or sheri@parkerleigh.biz.

To:
Office Chief Clerk
MC 105, Texas Commission on Environmental Quality
Austin, TX

As a resident of Sherrill/Foxboro Park living within ½ mile from the Richardson Tx LOTS Lookout Transfer Station, formally request a public meeting to be held within the City of Richardson on the pending Permit #53A amendment. The noisy, trash along our Parkway and large truck traffic degrades our ~~co~~ residential community surrounded by a golf course, sport field, nature & bike trails and nice business buildings.

Please grant the Richardson public the meetings as requested.

Yours Truly,
Joyce E. Lasich

Re: North Texas Municipal Water District Permit
Amendment Application (Permit No. 53A)

MSW
79923

Dear Sirs;

As a resident living in the Fairways of Sherrill Park, which is close to the Lookout Transfer Station I am concerned by the expansion as it is currently proposed. I was under the impression that the Memorandum of Understanding of 2010 with the City of Richardson solved any problems and questions that had we had. Now I understand that an application being presented by the North Texas Municipal Water District does not include many of these provisions in it's expansion application. Resident's should be guaranteed the protections agreed to in the 2010 Memorandum both in the expansion application and in a binding contract.

Until nearby residents are guaranteed these protections the TCEQ should not grant this expansion.

Yours truly,

John M Lauder

Re: North Texas Municipal Water District Permit
Amendment Application (Permit No. 53A)

As a resident living 700 feet from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it currently is proposed. I have been personally subjected to the noise, exhaust emissions, odor, and constant dirt and dust for over 12 years that comes from the daily operation of LOTS. I also was personally involved in the MOU protections that were drafted by the neighborhoods and sat with city officials and NTMWD representatives that promised the protections would be guaranteed if we all signed. We signed and they backed off. We went to the table in good faith, over and over again even though NTMWD denied our request for public records and treated us with less than the respect we gave them. When I moved to this house in 1999, I did not believe in my wildest imagination that the city would allow this type of facility to continue operation when it needed to be rebuilt. I used to ride my horse in the creek back in the late 60's and there were no houses in the vicinity. That was then and this is now. The threat to public health this facility (old or new) poses to human health is beyond comprehension. There is one feeder road to and from the facility. It is very near a flood plain and a watershed. The truck exhaust, noise and odor are tangible always. Accept on Sundays. At this point gentlemen, I am in favor of contesting the petition.

The application does not (as promised) contain many of the neighborhood protections agreed to by the City of Richardson and the NTMWD. Residents should be guaranteed these minimal protections both in the expansion application and in the binding contract. That is the least to be expected from educated human beings. This is not a money issue. It is our health and quality of life.

Please respond to my comments in writing.

Sincerely,
Gay Riley and Dr. Mehdi Lavassani

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Sincerely,

Al Leo

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53 A)

I am a resident living approximately 500 feet from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application; I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of 11 years, the Lookout facility has inhibited my ability to use and enjoy my property due to the odor.

Residents deserve an opportunity to as how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Jim Parks, North Texas Municipal Water District
P.O. Box 2408
Wylie, TX 75098

Mr. Parks,

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this expansion application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Residents should be guaranteed these protections both in the expansion application and in a binding contract.

Please respond to my comments in writing.

Sincerely,

Joy Long

Re: North Texas Municipal Water District Permit Amendment Application
(Permit No. 53A)

As a resident living 1 mile from the Lookout Transfer Station, and a visitor with my family to the park adjacent to the Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed.

The noise and traffic have always been evident for all of the 12+ years I have lived near the Lookout Transfer Station. I worry about the impact of the expansion on the safety of our neighborhood and the potential for property depreciation because of a very smelly and noisy blight near our beautiful and proud neighborhood.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Thank you for your time and help.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living 3 miles away from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. Increased truck traffic, wind-blown litter and potentially more pollutants in the nearby creek and trail system affect our neighborhood and city.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TECQ should not grant this expansion.

Please respond to my comments in writing.

Sincerely,

Charles Maresh

RE: North Texas Municipal Water District Permit Amendment Application
(Permit No. 53A)

As a resident living very close to the Lookout Transfer Station, in one of the neighborhoods most closely impacted by this application, I am concerned about the expansion as it is currently proposed. I frequently run in the Richardson Nature Reserve, enjoy the Richardson Parks and ride bikes in the Richardson Trails. The quality of the environment of the surrounding area is very important to myself and my family.

The application does not yet contain many of the neighborhood protections agrees to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Respectfully,
Melissa Martin

In reference to North Texas Municipal Water District Permit Amendment Application (Permit # 53A) I am concerned about the expansion of the Lookout Transfer Station as it is currently proposed. Living close to the station the expansion will affect me directly with increased traffic, noise litter and odors. The application dose not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until the nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Sincerely,

Thomas Mason

- Services & Supplies

Due to potential misuse/abuse of pets, The Dallas Morning News suggests that advertisers charge a nominal fee for their pets. Every life has a value. Also, due to health risks to the pets, we recommend puppies and kittens are at least 8-12 weeks old before they are sold. Use caution when responding to pet ads that involve unusual payment plans or require long-distance shipping. Find your pet from a trustworthy source. If purchasing from a private party or breeder, ask to see where the dogs/cats live to ensure the environment is a clean and healthy one. Reputable breeders will almost always provide detailed genealogical information and a health guarantee. You are encouraged to report suspected inhumane conditions and animal neglect and abuse to the SPCA of Texas and your local authorities.

Bids & Proposals

Dallas Independent School District

Fiscal Year 2011-2012

P.O. #455867
September 27, 2012

NOTICE TO BIDDERS

Sealed bids for the following items will be received by the Dallas Independent School District Purchasing Department: 3700 San Jacinto, Dallas, Texas 75204 until 2:00 p.m., on the dates listed below, when they will be publicly opened at 3:00 p.m. For bid documents, you can obtain a copy of the bid by downloading it from the DISD website homepage at http://www.dallasisd.org/ at the "Vendor Opportunities" link.

Any bids received after the closing time will be returned unopened.

*****MWBE POLICY ENDORSEMENT*****

"All bids of $25,000 or more shall contain the MWBE Compliance Guidelines and Forms at the time of bid opening. Bidders/proposers who will subcontract out portions of the work must attach the signed Letter of Intent to Subcontract. Bids will be considered non-responsive, and thus not accepted if the completed and signed MWBE Compliance Guidelines and Forms and Letter of Intent to Subcontract are not submitted. However, the MWBE department reserves the right to contact bidders for additional information/clarification after bid opening."

Any questions regarding the MWBE Documentation should be directed to the MWBE Office at 972-925-4140.

BID#
CJ-203948-12/13

Bid Description:
Small Cafeteria Serving Wares & Equipment Drop Shipment To FCNS Warehouse - 1515 Grand, Avenue-Dallas Texas 75215

Closing Date: 10/17/2012
Closing Time: 2:00 pm
Buyers Initials: CJ

The right is reserved to reject any or all bids and to waive technicalities.

The Dallas Independent School District is committed to the ideals of equal opportunity in all its business endeavors.

It is the goal of the Dallas Independent School District that at least 30% of the work performed under each contract will be done by minority or women-owned business enterprises.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF PUBLIC MEETING
FOR A MUNICIPAL SOLID WASTE
PERMIT AMENDMENT

PERMIT NO. 53A

APPLICATION. North Texas Municipal Water District, (Lookout Drive Transfer Station), P.O.Box 2408, Wylie, Collin County, Texas 75098, has applied to the Texas Commission on Environmental Quality (TCEQ) for a Municipal Solid Waste Permit Amendment to authorize the construction of a new transfer station building that will replace the existing building. The facility is located at 1601 E. Lookout Drive, Richardson, Collin County, Texas 75082. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice: http://www.tceq.texas.gov/assets/public/tb610/index.html?lat=32.985&lng=-96.6925&zoom=13&type=r . For exact location, refer to the application.

The TCEQ Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. Notice of Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.

PUBLIC COMMENT / PUBLIC MEETING. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all formal comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address.

The Public Meeting is to be held:
Tuesday, October 9, 2012 at 7:00 p.m.
Douglas Otto Middle School Cafetorium
504 North Star Road
Plano, Texas 75074

INFORMATION. Citizens are encouraged to submit written comments anytime during the meeting or by mail before the public meeting to the Office of the Chief Clerk, TCEQ, Mail Code MC-105, P.O. Box 13087, Austin, Texas 78711-3087 or electronically at http://www.tceq.texas.gov/about/comments.html . If you need more information about the permit application or the permitting process, please call the TCEQ Public Education Program, toll free, at 1-800-687-4040. General information can be found at our Web site at www.tceq.texas.gov . Si desea información en Español, puede llamar al 1-800-687-4040.

The permit application is available for viewing and copying at North Texas Municipal Water District's offices at 505 East Brown Street, Wylie, Collin County, Texas 75098 and the Richardson City Hall, 411 W. Arapaho Road, Richardson, Dallas County, Texas 75083. Further information may also be obtained from North Texas Municipal Water District, P.O. Box 2408, Wylie, Collin County, Texas 75098 or by calling Mr. Jeffrey D. Mayfield, Solid Waste System Manager at (972)442-5405.

Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at 512-239-3300 or 1-800-RELAY-TX (TDD) at least one week prior to the meeting.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF PUBLIC MEETING FOR A MUNICIPAL SOLID WASTE PERMIT AMENDMENT

PERMIT NO. 53A

APPLICATION. North Texas Municipal Water District, (Lookout Drive Transfer Station), P.O.Box 2408, Wylie, Collin County, Texas 75098, has applied to the Texas Commission on Environmental Quality (TCEQ) for a Municipal Solid Waste Permit Amendment to authorize the construction of a new transfer station building that will replace the existing building. The facility is located at 1601 E. Lookout Drive, Richardson, Collin County, Texas 75082. The following link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice: http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=32.9858&lng=-96.6925&zoom=13&type=r. For exact location, refer to the application.

The TCEQ Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. Notice of Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.

PUBLIC COMMENT / PUBLIC MEETING. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all formal comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address.

The Public Meeting is to be held:
Tuesday, October 9, 2012 at 7:00 p.m.
Douglas Otto Middle School Cafeterium
504 North Star Road
Plano, Texas 75074

INFORMATION. Citizens are encouraged to submit written comments anytime during the meeting or by mail before the public meeting to the Office of the Chief Clerk, TCEQ, Mail Code MC-105, P.O. Box 13087, Austin, Texas 78711-3087 or electronically at http://www.tceq.texas.gov/about/comments.html. If you need more information about the permit application or the permitting process, please call the TCEQ Public Education Program, toll free, at 1-800-687-4040. General information can be found at our Web site at www.tceq.texas.gov. Si desea información en Español, puede llamar al 1-800-687-4040.

The permit application is available for viewing and copying at North Texas Municipal Water District's offices at 505 East Brown Street, Wylie, Collin County, Texas 75098 and the Richardson City Hall, 411 W. Arapaho Road, Richardson, Dallas County, Texas 75083. Further information may also be obtained from North Texas Municipal Water District, P.O. Box 2408, Wylie, Collin County, Texas 75098 or by calling Mr. Jeffrey D. Mayfield, Solid Waste System Manager at (972)442-5405.

Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at 512-239-3300 or 1-800-RELAY-TX (TDD) at least one week prior to the meeting.

Reference: North Texas Municipal Water District Permit Amendment Application
(Permit No. 53A)

To Whom It May Concern:

I am a resident of Foxboro Addition, one of the neighborhoods most impacted by the reference application. I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Residents of impacted neighborhoods deserve an opportunity to inquire and learn how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. I respectfully ask that you please grant the requested public meeting.

Re: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

To Whom It May Concern:

As a resident living within 2,000 feet from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I **formally request a public meeting be held within the City of Richardson** on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of the last 10 years that I have lived here, the Lookout facility has continued to inhibit my ability to fully enjoy my property and surrounding municipal parks due to odors and windblown waste.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. In addition, I would appreciate a written response to my concerns in this matter.

Sincerely,

Kevin & Carrie McClelland

RE: North Texas Municipal Water District Permit Amendment Application (Permit No, 53A)

As a resident living .5 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the application as it is currently proposed. The stench during the summer is overbearing and when my son and I walk on the trail at Lookout Park there is consistently trash blowing across the park and sports fields.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing. Thank you.

RE: North Texas Municipal Water District Permit Amendment Application
(Permit No. 53A)

As a resident living less half of a mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, **I formally request a public meeting be held within the City of Richardson** on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of 4 years, the Lookwout facility has inhibited my ability to use and enjoy my property due to the stench and vile smell that comes from the station. I am unable to walk or jog near the station at certain times due to the horrible smell. The noise factor is also a large concern of mine. I can hear the grinding of garbage for hours on end. I have also noticed an increase in the number of coyotes and other rodents as they are drawn to the area looking for trash to feed on.

As a resident of the city of Richardson, I deserve the opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding neighborhoods during the construction and operation of the proposed facility. Please grant the public meeting as requested and also please respond to my comments in writing.

Sincerely,

Candace McDowell

Re: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

We have been residents of Richardson, living walking distance from the Lookout Transfer Station for the past 25 years. We are directly impacted by this application because we live close, use the park directly next to the station and walk the trails that run right beside the station. We are concerned about the expansion of the transfer station as it is currently proposed. We are concerned about the odor, pollutants added to the air, noise from the vehicles using the station and basically the overall impact this permit will have on our neighborhood.

The application does not yet contain many of the neighborhood protections that have been presented to us through neighborhood meetings with the City of Richardson and the North Texas Municipal Water District. Until we, the residents of Owens Park Neighborhood, are guaranteed these protections, TCEQ should not grant this expansion.

We expect serious consideration to this matter and to the promises that have been previously guaranteed to the residents of our community.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No 53A)

As a resident living .5 miles from the Lookout Transfer Station, in the neighborhood MOST impacted by this application, I am concerned about the expansion currently proposed. During the day, there is already a constant flow of semi-trucks and garbage trucks; I can't imagine how much more traffic will be one block away from my home if the station is expanded as proposed. We are an avid biking family and there is a Richardson bike trail connection that goes down Lookout and crosses through the park. When you are traveling down the bike lane on Lookout, the 18-wheelers have little regard for the safety of the bikers. When exiting the park to travel west on Lookout by car, with the angle of the road you cannot even see the trucks that are coming out of the transfer station. It is a miracle that there has not been more accidents on this road with the amount of large trucks traveling on a daily basis

I often take my young daughter to Lookout Park and at times the stench is so awful that we have to leave. There is often trash that has blown into the trees on the north side and west side of the park. There are so many wonderful aspects of this community, but this is definitely a major concern with living here.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

RE: North Texas Municipal Water District Permit Amendment Application (permit No. 53A)

As a resident living .7 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No.53A). Over the course of 9 months, the Lookout facility has inhibited my and my family's ability to use and enjoy our neighborhood due to the noise and odor that continually assaults the playground and walking-trail amenities that are a huge draw for this neighborhood.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surround communities during the construction and operation of the proposed facility. Please grant the public requested. Please respond to my comments in writing.

Thank you,

Re: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living less than one mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of 12 years, the Lookout facility has inhibited my ability to use and enjoy my property due to the noise of trucks constantly moving along the road; those same trucks slowly destroying the road due to it being a normal city street and not designed for the frequency of trash and transfer trucks constantly moving on it; windblown waste from said trucks and the facility itself; and finally the wafts of odor from trucks and the facility.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

COMMENTS: The North Texas Municipal Water District has not been upfront with the citizens most affected by the new Lookout Transfer Station. Agreements made have been disregarded. Now I understand that there are environmental concerns with the property. Please review the permit application and the environmental situation before making your decision. This neighborhood has been here for over 30 years. This is a quality of life issue for this neighborhood but also for Spring Creek which traverses a large area.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY
2011 DEC 21 AM 10:30
CHIEF CLERKS OFFICE

Dear Sir:

I am concerned about the permit amendment, Permit No. 53A, for the Lookout Drive Transfer Station. It seems NTMWD is not as concerned as we had hoped, about the people who will be directly affected by what is decided. As a homeowner in this area, I strongly plead that our very fair and thought out suggestions in the Memo of Understanding will be implemented. I hope you will hear the voices of many homeowners who simply want to ensure protection of the sensitive surrounding areas.

I formally request a public meeting to be held within the City of Richardson on this currently pending permit amendment.

I trust that those in power for this decision will do for us, what they would want done in their own neighborhoods and for their own families.

Sincerely,
Mrs. Tamarra Moyer

Office of the Chief Clerk
Re. North TX Municipal Water District Permit
Amendment Application (Permit No 53A)

2011 DEC 27 PM 3:01
CHIEF CLERKS OFFICE

As a resident living within a few miles from the Lookout Transfer Station, I am one of the neighborhoods most impacted by this application. I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No 53A). Over the course of 19 years, the Lookout facility has inhibited my ability to use and enjoy my property due to noise and truck traffic.

Residents deserve an opportunity to ask how the NO TX Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction & operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Sincerely,

Allison Murphy

Dear Sir:

I am writing in reference to the North Texas Municipal Water District Permit Amendment Application (Permit NO: 53A). I live just a few blocks away and am concerned about the expansion as currently proposed. It is my understanding that it doesn't contain all the protections that the City of Richardson & NTMWD agreed to. Please do not grant this expansion until the residents near by are guaranteed these protections.

Thank you Danette Murphy 2003 Portsmouth Richardson 75082

RE: North Texas Municipal Water District Permit Amendment Application –Permit # 53A:

As a resident living 3 blocks from the Lookout Transfer Station, I am concerned about the expansion as it is currently proposed.

The application does not yet contain many of the protections agreed to by the City and NTM Water District. We should be guaranteed the delivery of what was promised in a binding contract. I am specifically concerned about the pest control and odor control that was promised.

Please help hold the water district accountable. Until the application contains the protections promised to the neighborhood, TCEQ should not grant this expansion.

Thank you -

COMMENTS: I am unable to attend the final hearing for the Lookout Transfer Station permit on 10/9/12, so am sending you this note to express my concern as a citizen of the city of Richardson. I do not believe the permit accurately reflects all of the protections that the North Texas Municipal Water District, the City, and the Neighborhood Protective Alliance of Richardson(NPAR)agreed in their 2010 Memo of Understanding (MoU). Specifically, Sections 1, 9, 11, and 14. See the attached signed MoU for reference. I ask that you not approve the permit until all the applicable points in the MoU are guaranteed within the body of the permit. Thank you for your consideration.

Lookout Dr. Transfer Station

MOU Key

1. Through Put: (II) (A) (1-4), p. 6
2. Parkway Utilization: (I) (B), p. 2 (II) (B), p. 6

16. Back-up Alarms: (I) (L) (3), p. 5 (II) (H), p. 8

Note: All 16 issues negotiated and later agreed upon by all parties are now included in the legal MOU. The unanimous agreement was reached through signatures from each of the respective representatives.

Lookout Dr. Transfer Station
16 Issues Summary/MOU

This agreement between the signed parties of the North Texas Municipal Water District (NTMWD), City of Richardson (COR), and Neighborhood Protection Alliance of Richardson (NPAR)/Neighborhood Leadership assumes an on-going relationship between the said parties in every aspect of the following 16 points through planning, design, construction and the operational lifespan of the Lookout Trash Transfer Station in order to ensure that best management practices and quality of life for the citizens of Richardson is upheld to the highest standards for the surrounding impacted areas.

1. Through-put

The Application will request that the TCEQ allow an annual average of 750 tons per day averaged over 365 days per year and a maximum throughput of 1,500 tons per day of waste. Within 60 days of the permit becoming final and non-appealable the permit will be modified as described below.

The throughput limits shall be:

January 1 of Year	Annual Average (365 Days)	Maximum Daily
Immediately	500 tons per day	1,125 tons
2015	550 tons per day	1,325 tons
2016	575 tons per day	1,425 tons
2017	600 tons per day	1,475 tons
2018 and beyond	625 tons per day	1,500 tons

2. Parkway Utilization

The Parkway Transfer Station was part of the NTMWD's overall Transfer Station Evaluation Study, 2002. This study recommended modifications to the NTMWD's transfer stations (Custer, Lookout, and Parkway). The NTMWD will conduct a study to develop recommendations regarding the Plano Parkway Transfer Station. The City of Richardson will ensure the NTMWD places a program priority on keeping the Plano Parkway Transfer Station operational during future site improvements to Parkway. The study to be conducted by NTMWD will include a determination of the feasibility of the Parkway Transfer Station remaining operational during future improvements. Additionally the City of Richardson will continue diverting logical routes to maximize the usage of the Plano Parkway Transfer Station.

Lookout Dr. Transfer Station
16 Issues Summary/MOU

3. Waste Diversion Initiatives

The City of Richardson commits to enhancing its recycling programs and waste diversion initiatives. City of Richardson staff will conduct a Solid Waste Program Evaluation during the 2010-2011 fiscal year, and within 180 days of completion, work with the Richardson Environmental Advisory Committee (EAC) as directed by the City Council to evaluate and recommend the possible implementation of recycling programs and waste diversion initiatives.

4. Wind-blown Litter

Every operating day, NTMWD personnel (including temporary labor) will police the facility, including fences, access roads, entrance gates, and any storm water discharge points that discharge stormwater from Improved Lookout, to pick up and return windblown material and litter to the facility and perform such other litter control measures, as necessary. On days when the facility is in operation, NTMWD will be responsible for at least once per day cleanup of waste materials spilled along and within the right-of-way of public access roads used for the delivery of waste to the facility for a distance of two (2) miles in either direction from the entrance of the facility. On days when the facility is in operation, the City of Richardson will monitor wind-blown litter between the facility and Spring Creek (top of creek bank), in Lookout Park and within the right-of-way of public access roads serving the facility for a distance of two (2) miles in either direction from the entrance used for the delivery of waste to Lookout and Improved Lookout, and will notify NTMWD when conditions warrant clean-up efforts. The City of Richardson will be responsible for cleanup of litter in Spring Creek after significant rain events.

5. Re-route Trash Truck Traffic

In an effort to minimize vehicular noise and promote safety (solid waste vehicle lane usage), the City of Richardson will address with its Solid Waste drivers a higher level of awareness and sensitivity when entering/exiting the Lookout Dr. Transfer Station. Additionally this topic will be discussed among the NTMWD Solid Waste Member Steering Committee in an effort to expand a higher level of awareness and sensitivity among all Solid Waste Member Cities as they utilize the Lookout Dr. Transfer Station.

6. Walking/Bike Trail

The City of Richardson commits to maintaining, planning, designing, and constructing its trails, nature preserves, and parks in accordance with the City's Parks Department's Master Plan. Included in the Parks Department's Master Plan is a future trail along Lookout Drive between Plano Rd. and Lookout Park. Additionally a potential trail along Spring Creek, north of the Lookout Transfer Station connecting with Foxboro Park, will be studied and evaluated. Trail development will take into account and accept input from nearby neighborhoods as well as ensuring any desired Lookout Dr. crossing is made at the signalized Plano Rd. intersection.

7. Oversight Committee

The City will designate an ombudsman (Assistant Director of Public Services) for all Lookout Transfer Station related issues and inquiries. The ombudsman or the ombudsman's representative will attend meetings with NTMWD and/or NPAR/neighborhood leadership when requested by either NTMWD or NPAR/ neighborhood leadership during the current operation of the Lookout Dr. Transfer Station, and throughout the design, permitting, construction, and operation of Improved Lookout. Design documents at the 30% 60% and 90% completion stages will be provided to the NPAR/neighborhood leadership. Staff will develop a "communication plan" to inform on construction related events (noise, detour routes, etc...). NPAR/neighborhood leadership attendees will be comprised of designated individuals as determined by the NPAR/neighborhood leadership. Unresolved issues will be forwarded to the City Manager for further review, evaluation, and appropriate action.

Additionally, within 30 days of MOU execution, the City of Richardson will include the Lookout Dr. Transfer Station on the City's call center (972-744-4111). Once notified by the NTMWD, the City of Richardson will within 10 business days notify the NPAR/neighborhood leadership in writing of any proposed operation/permit change.

Lastly, on a monthly basis the City of Richardson will provide the NPAR/neighborhood leadership the latest NTMWD Regional Solid Waste System Monthly Report and the NTMWD Daily Weight Ticket file for Richardson within 10 business days of receipt from the NTMWD.

8. 23-acre Property

The appraised value of the 23-acre property (southeast corner of Lookout Dr & Plano Rd.) is 4.8 million dollars and is zoned Industrial. City will be mindful of land development sensitivities and work toward a final development that is in the best interest of the City of Richardson, NPAR/neighborhood leadership, and the property owner. "Best interests" is defined through the collaborative dialog among all the affected parties with the final determination as to the future zoning/development of the 23-acre property resting with the decision of the City Council.

9. Storm Water BMP

When required the NTMWD will obtain authorization under the Texas Pollution Discharge Elimination System ("TPDES") prior to commencing construction and operations at the Improved Lookout. Examples of stormwater management practices during construction include: sediment control practices used to divert flows away from exposed soils, to limit the contact of runoff with disturbed areas, or to lessen the offsite transport of eroded soils. Examples of erosion controls include hay bales, silt fences, swales, mulch filter berms, rock berms, and vegetative filter strips. City staff will monitor water quality at Spring

Creek monthly during improved Lookout construction and every six months thereafter. The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of water quality and erosion control during the design/prior to the building permit approval and subsequent phases as applicable for the new Lookout Dr. Transfer Station The City will share all final reports* with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.
*final reports are defined as all reports and information given to COR/NTMWD by the third party consulting firm *before* any final decision/action is made.

10. Lookout Drive Repairs

With the 2010 Bond Election passing Lookout Drive will be reconstructed in accordance to the City of Richardson's standards and specifications accommodating the necessary traffic types and volumes without any additional design requirements for servicing the Lookout Dr. Transfer Station or the adjacent properties.

11. Odor Control

The NTMWD will not accumulate solid waste in quantities that cannot be processed within such time as will preclude the creation of odors, insect breeding, or harborage of other vectors. NTMWD will not store waste in the Improved Lookout building overnight except for extenuating emergency circumstances such as weather or mechanical break down. NTMWD will wash the Improved Lookout building floors at least twice per week, and more often if required by site conditions. Wash waters will not be allowed to accumulate on-site without proper treatment to prevent the creation of odors or the attraction of vectors. Floor washing areas are required to be discharged into the sanitary sewer system. Improved Lookout will be designed and operated to provide ventilation for odor control and employee safety. If NTMWD becomes aware of or receives complaints regarding nuisance odors outside the facility permit boundaries, NTMWD will cause an investigation to be conducted, with follow-up contact with the complainant. The NTMWD will install an odor neutralizer system inside the Improved Lookout building for odor control. The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of odor control during the design/prior to the building permit approval and subsequent phases as applicable for the Improved Lookout. The City will share all final reports with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.

12. Pest Control

The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of pest control during the design/prior to the building permit approval and subsequent phases as applicable for the new Lookout Dr. Transfer Station. The City will share all final reports with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.

13. Garbage Storage & Floor Washing

NTMWD will not store waste in the Improved Lookout building overnight except for extenuating emergency circumstances such as weather or mechanical break down. NTMWD will wash the Improved Lookout building floors at least twice per week, and more often if required by site conditions. Floor washing areas are required to be discharged into the sanitary sewer system.

14. Sound Wall

The NTMWD will provide a wall or walls in the vicinity of the northwest side of the permitted area to absorb, dampen and/or deflect sound from the operation. Additionally, the NTMWD will work with the City and its third party consultant to determine the need for wall(s) in the vicinity of the remaining sides (i.e., all but northwest) of the permitted area to absorb, dampen and/or deflect sound from the operation. City will pay for the costs associated with evaluation, design and construction of any additional walls beyond the northwest wall.

As part of the design and development of the COR property, the City of Richardson will construct a vegetative screening/sound buffer along the southern property line better screening Lookout Park. The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of noise control during the design/prior to the building permit approval and subsequent phases as applicable for the new Lookout Dr. Transfer Station. The City will share all final reports with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.

The City will arrange for the NPAR/neighborhood leadership to meet with the City's third party consultant to understand the noise abatement needs due to noise emitting from the current and new facility, and understand how this will be evaluated. Back up alarms will not be excluded from the 3rd party's noise evaluation.

Should there be noise nuisances following the construction of Improved Lookout that do not comply with the City's standards (specifically Article XXII-B Performance Standards, Section B, Table 3 of City's Comprehensive Zoning Ordinance) then the City of Richardson will engage with the NTMWD to determine an appropriate plan of action. Vehicle back-up alarms will not be excluded from any noise evaluation.

15. Vegetation

NTMWD will landscape Improved Lookout in accordance with the Landscape Plan granted administrative approval by the City of Richardson on March 17, 2009. The City will work with NPAR/neighborhood leadership to determine need for vegetative screening/sound buffer in the remaining areas as suggested by NPAR/Neighborhood Leadership (i.e. southern property line – fill gap south of Transfer Station along existing

bike trail). Additionally the City will evaluate the four locations (listed below) as part of, but not limited to, the "Tree the Town" initiative.

- Add to north side of Spring Creek in the Owens Boulevard right-of-way
- Extend between Transfer Station and Owens Farm
- Extend between Lookout Park parking lot and 23-acre vacant lot
- Fill gap north of 1600 block of Woodoak Drive

16. Vehicle Back up Alarms

"White-noise" back up alarms have been installed on all NTMWD on-site equipment at the Lookout Dr. Transfer Station. Back-up alarms on all equipment the City sends over public roadways meet the requirements established by the Occupational Safety and Health Administration ("OSHA") or other applicable laws or regulations. Within 12 months of MoU execution, the City of Richardson will install dual systems (A/B switch) for over the public road and off road utilization, enabling and requiring "white-noise" back up alarms to be utilized while on the LOTS premises. Within 18 months of MOU execution, the NTMWD will request that other member cities and their private haulers evaluate "white-noise" back-up alarms for possible installation on vehicles that utilize the Improved Lookout.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Thank you for you attention to this matter.

Sincerely,
Amy K. Nezat

CHIEF CLERKS OFFICE

Re: NTMWD Permit Amendment Application (Permit 53A)

As a resident living approximately 500' from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently-pending permit amendment for the Lookout Dr. Transfer Station (Permit No. 53A). Over the course of 12 years, the Lookout facility has inhibited my ability to use and enjoy my property due to noise from extensive truck traffic on Plano Rd., as well as back-up beepers at the transfer station itself, unsightly blown trash up and down Plano Rd., and a very nasty odor that blows into our neighborhood all summer.

Residents of my and surrounding neighborhoods deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested, I would appreciate a written response to my letter.

Thank you for your consideration.

Sincerely,

Oliver Oldham

Re: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living 200' from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of 6 years that we've lived in the neighborhood, the Lookout facility has posed a danger to my family and my community due to the odor, noise, truck traffic, etc. Truck traffic is definitely the most dangerous as the trucks daily exceed 40 mph on our street, which is 10 mph over the limit; taking into consideration the great weight of these trucks, the great distance at which is required to come to a stop at 40 mph, our kids will always be prohibited from playing in our front yard due to this danger.

Us residents deserve the opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing. Thanks for your understanding.

CHIEF CLERKS OFFICE

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living just a few miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of 7, the Lookout facility has inhibited my ability to use and enjoy my property due to the odor, noise, windblown waste, truck traffic, etc that affect the quality of life for me and my family.

We the residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Sincerely,
Kristen Philips

Re: North Texas Municipal Water District Permit
Amendment Application (Permit No 53A)

As a resident living a two block distance from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. While living here for over 30 years, I've experienced the smells whenever the wind is out of the south coming from the current trash station. And the truck traffic is loud now so I imagine that is going to be a big factor when the station is enlarged. And finally, the current station has no barriers so walking the trail to the golfcourse, I try to keep eyes away from the station.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Dear Sir/Madam

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living at 1/4 of mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed.

The quantity of flies, roaches and rodents in the area has increased in the past three years and some times, despite continuous pest control. When there are winds from the north, the smell is terrible outside.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should should not grant this expansion.

Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit
Amendment Application (Permit No. 53A)

As a resident living within 2 miles from the Lookout Transfer Station and in one of the neigborhood most impacted by this application, I am concerned about the expansion as it is currently proposed. We enjoy using the bike trails through Look Out park and pass the intended site on a regular basis. As I understand, the proposed application intends to increase the volume of waste by a factor of 4 which will clearly change the appearance and traffic associated with this site.

The application at present does not yet contain many of the neighborhood protections previously agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

I would appreciate your response to my comments in writing.

COMMENTS: Dear TCEQ, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station. I am one of the residents closest to the station and have many concerns about how the North Texas Municipal Water District is trying to push this permit through without addressing the concerns of citizens like myself who are directly impacted by this change. The noise, smell, and windblown trash already generated by this facility are affecting our quality of life. The North Texas Municipal Water District does not appear to care about how an increase in collections will further affect my quality of life so I would like the opportunity to express my concerns directly to the TCEQ in my city. The planned changes also move the new planned facility to within 100 yards of my front door. I am also concerned that the North Texas Municipal Water District is not going to honor the Memorandum of Understanding that the citizens and city have worked so hard to generate. The North Texas Municipal Water District needs to answer to this concern directly in front of the TCEQ and the citizens they are directly impacting and it needs to happen in the City of Richardson so all can attend. Respectfully, Philip Rains

Mayor Townsend,

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this expansion application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Residents should be guaranteed these protections both in the expansion application and in a binding contract.

Please respond to my comments in writing.

RE: North TX Muni Water District Permit Amendment Application - Permit #53A

Dear Sir:

I live 1.6 miles from the Lookout transfer station in one of the neighborhoods impacted by this application. I'm concerned about the expansion as it doesn't include details about how the NTMWD plans to follow thru with the neighborhood protections. I've picked up punctures in my car tires and the litter right by the station is often a problem at Lookout Park. From what I understand the application doesn't include many of the neighborhood protections guaranteed/agreed to by the City of Richardson & the NTMWD. Until they put it in writing, TCEQ shouldn't grant this expansion.

Please respond to my comments in writing and thank you for your time.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

COMMENTS: TCEQ, Reference PERMIT #53A To whom it may concern: I understand the final hearing for the Lookout Transfer Station permit is 10/9/12. As a citizen of the city of Richardson, the construction of the new transfer station concerns me. I have followed the Neighborhood Protective Alliance of Richardson's (NPAR) activities and the permit. I fear that the permit does not accurately reflect the 16 point protections that the North Texas Municipal Water District, the City, and the neighbors agreed upon in the 2010 Memo of Understanding (MoU). I urgently request that you do not approve the permit until all the applicable points that both sides agreed to earlier, be accurately guaranteed within the body of the permit. Thank You, Max Rhymes 1821 Plymouth Rock Richardson, TX 75081 mrnk2@tx.rr.com 972 231 2972

Re. North Texas Municipal Water District Permit

Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the communities most impacted by this application, I am concerned about the expansion as it is currently proposed. The transfer station not only impacts traffic in, near and around my community, but the noise and odor frequently permeates the air by the park and bike trails.

Our community is not protected by the application agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Sincerely,

JoAnne Rickel

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living at 2217 Victoria Lane about 1/8 mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). The station is directly next to the park and walking trails I use regularly and I am concerned about the odors, trash, and the lack of tree & wall screening that create such an unsightly view along the trail pathway. I am also concerned with water runoff into the stream nearby that could easily contain toxic chemicals from the many garbage trucks the transfer station handles. Since garbage trucks often contain hazardous chemicals (like paint, oil, solvents, mercury light bulbs & etc.) because people do not properly dispose of them, I am concerned that this stuff leaks onto the facility floor and has to be washed down frequently and goes into the regular sewage drain. It would seem there should be some special treatment for these toxic chemicals and avoid being flushed directly into our regular sewage system.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility.

Please Grant the Public Meeting as Requested. Please also respond to my comments in writing.

Sincerely, Evelyn Roberson

RE: NTMWD Permit Amendment Application (Permit #53A)

As a resident living 1.5 miles from the Lookout Transfer Station in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed.

I can hear the noise from the Transfer Station. I also have asthma and would be most concerned about the increased air pollution if a mega-station is allowed.

RE: No. TX Municipal Water District Permit Amendment (Permit #3-A)

As a resident living 1/4 miles from Foothill Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Foothill Station. Any amendment that could cause any neighborhood's quality of life should be carefully studied before acting. If any family is negatively impacted by the change it should not happen.

Residents deserve an opportunity to ask how the No. TX Municipal Water District intends to fulfill its commitment to protect the surrounding Communities during the construction of the proposed facility.

Please grant the public meeting as requested.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Sincerely,

Jeremy Schubert

RE: Norh Texas Municipal Water District Permit
Amendment Application (Permit No. 53A)

As a resident living within a few miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed.

The Lookout Transfer Station is located in an area surrounded by muti-family homes. It is very important the quality of life and value of our homes is not affected by any negative environmental issues; i.e. pollution, odors, noise, litter, etc.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Yours truly,

Marlene A. Seward

COMMENTS: I formally request a public meeting to be held withing the city of Richardson on the currently pending amendment for the Lookout drive Transfer station. I live 2 streets down from the transfer station and we are concerned about pollution, noise of the trucks and workers,smell etc. No one wants such a station near the residental area. It is a such beautiful,peaceful city and please let us enjoy living here.

RE: North Texas Municipal Water District Permit
Amendment Application (Permit No. 53A)

As a resident living 2 miles from the Lookout Transfer station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I suppose this is important, but it really hasn't affected our quality of life, we have more important issues at hand, like getting the current POTUS out of office. The stranglehold of EPA regulations will be eased in favor of private enterprise.

The application does not yet contain many of the neighborhood protections agreeded to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

COMMENTS: TO Whom It May Concern, I request that a public meeting take place in Richardson concerning the rebuild of the Lookout Trash Station Facility.I am very concerned about the negative impact of the station and the seeming indifference NTMWD continues to demonstrate toward this sensitive area. For over two years concerned citizens and an alliance of neighborhoods have been in negotiation with NTMWD to ensure that this sensitive area is adequately protected from this expansion. The NTWMD (Mr. Parks, Exc Dir.) signed an MoU to this end. This agreement contained a set of essential "neighborhood protections" that would ensure protection of my property values, nearby parks and recreational areas as well as the surrounding environment. As proposed, the trash station will be partially sited in the 100-year flood plain, on a watershed creek, without significant grading and filling in an area directly adjacent to a now-defunct gun range (where, incidentally, lead contamination was discovered several years ago). There is no indication with the manner in which this permit submittal has taken place that the NTMWD intend to honor the MoU. In fact very little of this agreement is currently reflected in the permit. Therefore as a resident in the nearby neighborhood most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). The citizens who live and play in the communities nearest the Lookout Transfer Station-and who will be affected most by the proposed facility-must receive an opportunity to ask questions and hear in detail how this proposed amendment will affect our quality of life. Moreover, residents deserve an opportunity to ask whether or not the NTMWD intends to fulfill its prior commitment in spite of the fact that few components of the agreement are contained within the permit application. Please grant the public meeting as requested. Thank you for your time and consideration in this matter. I look forward to your response and to the public meeting.

OCT 0 1 2012
By

MSW 79923

September 25th, 2012

As a concerned citizen and member of the Neighborhood Protection Alliance of Richardson (NPAR), I was deeply disappointed to find out that the public meeting on the NTMWD's new permit for the Lookout Transfer Station (LOTS) is currently scheduled to take place in another city other that Richardson. LOTS primarily services Richardson, it is our city and neighborhoods that are directly impacted by it, and Richardson is where the trash facility exists. For these reasons, NPAR and other concerned citizens made a very simple request to have the meeting take place in Richardson, which would allow for the most fair, inclusive and transparent process to serve those most greatly impacted by the expansion.

As I am sure you are aware, whenever a public meeting such as this takes place in another municipality other than where the polluting facility exists, it can have a negative impact on the participation of those most directly affected. In addition, it perpetuates the perceptions (once again) that those repeatedly trying to reassure citizens with promises that this project is being handled correctly, don't really have our best interests in mind. Therefore we are *still* requesting that the TCEQ find a more central and appropriate location within the Richardson city limits for the October 9th meeting. In addition, please send me a detailed reasoning of why and how the choice was made for the presently scheduled location now in Plano.

Thank you,

Linda

I am Maitri Smithhisler, the current chair of the Neighborhood Protection Alliance of Richardson which includes four homeowner associations (owens Park, Duck Creek, University Estates North, and Highland Terrace representing over 4000 homes (4056), as well as other concerned citizens. I am making this statement on behalf of NPAR regarding the permit application on the proposed of expansion Lookout Trash Transfer Station.

Two years ago, NPAR as well as other neighborhoods, sympathetic organizations and concerned citizens reached an agreement with the NTMWD, brokered by the city. This became a 16 point Memorandum of Understanding which all the parties signed including the water district. It was specifically created to protect our neighborhood, and the surrounding environment from this expansion. Again I reiterate that this was an agreement that came out of years of negotiation and was signed by the NTMWD, Mr. Jim Parks, executive director as well the city, surrounding neighborhoods and other organizations.

Unfortunately the NTMWD has not integrated key elements of the MoU in their permit application. This is of great concern to us. While we acknowledge that some of the MoU elements such as odor control and aspects of noise mitigation as well as storm and waste water management are included in the permit, we would like to see ALL elements of which NTMWD is obligated through the MoU, to be formally incorporated into the permit application appropriately. This gives the City of Richardson and specifically the neighborhoods most directly impacted the ultimate protection by law. While we are grateful for the City's continued reassurance that they will enforce the MoU, having these protections spelled out within the permit gives all of the citizens of Richardson an insurance policy should the NTMWD attempt for whatever reason, to circumvent the City's best intentions.

Here is what we are asking for specifically; NTMWD shall incorporate the following *before the permit is finalized* and approved by the TCEQ: (submit pages)

(Reference:https://docs.google.com/file/d/0B27Msk6m7DkqWDh3WE5fSXBpTXM/edit)

Section One: Thorough put

The application currently requests that the TCEQ allow an annual average of 750 tons per day averaged over 365 days per year and maximum throughput of 1500 tons per day of waste. The application shall be altered as described below.

mu

Through put limits shall be:

Jan 1 of year	Annual average (365 Days)	Max daily
Immediately	500 tons per day	1,125 tons
2015	500 tons per day	1325 tons
2016	575 tons per day	1425tons
2017	600 tons per day	1475tons
2018 and beyond	625 tons per day	1500tons

RECEIVED
OCT 09 2012
AT PUBLIC MEETING

Section 14 Soundwall
The NTMWD will provide a wall or walls in the vicinity of the northwest side of the permitted area to absorb, dampen and/or defect sound form the operation. .....(see doc)

Once these are incorporated in to the permit, we will be ready to move forward with the expansion with no further objections. None of the parties that signed the MoU expected that to be the final agreement; everyone involved had the expectation that the MoU would be finalized via a separate contract. This contract between the neighborhoods, NPAR and NTMWD will now be necessary. We ask that NTMWD meet with NPAR representatives now to review our requests and determine the best way to ensure that all parties are protected. This is the best way to avoid any delay or opposition moving forward. For instance, one element that could be included in the contract is that NTMWD will wait until after the deadline for Contested Case Hearing requests has passed before making the changes to its permit application, provided that no residents seek a Contested Case Hearing.

We are very pleased that NTMWD and the City of Richardson have agreed to essential protections to preserve our quality of life and communities. However, the MoU alone may not be sufficient to accomplish this goal. Since we all share this goal, we need NTMWD to meet with neighborhood representatives as soon as possible.

Thank you
Maitri Smithhisler
NPAR Chair

Lookout Dr. Transfer Station
16 Issues Summary/MOU

This agreement between the signed parties of the North Texas Municipal Water District (NTMWD), City of Richardson (COR), and Neighborhood Protection Alliance of Richardson (NPAR)/Neighborhood Leadership assumes an on-going relationship between the said parties in every aspect of the following 16 points through planning, design, construction and the operational lifespan of the Lookout Trash Transfer Station in order to ensure that best management practices and quality of life for the citizens of Richardson is upheld to the highest standards for the surrounding impacted areas.

1. Through-put

The Application will request that the TCEQ allow an annual average of 750 tons per day averaged over 365 days per year and a maximum throughput of 1,500 tons per day of waste. Within 60 days of the permit becoming final and non-appealable the permit will be modified as described below.

The throughput limits shall be:

January 1 of Year	Annual Average (365 Days)	Maximum Daily
Immediately	500 tons per day	1,125 tons
2015	550 tons per day	1,325 tons
2016	575 tons per day	1,425 tons
2017	600 tons per day	1,475 tons
2018 and beyond	625 tons per day	1,500 tons

Projected

2. Parkway Utilization

The Parkway Transfer Station was part of the NTMWD's overall Transfer Station Evaluation Study, 2002. This study recommended modifications to the NTMWD's transfer stations (Custer, Lookout, and Parkway). The NTMWD will conduct a study to develop recommendations regarding the Plano Parkway Transfer Station. The City of Richardson will ensure the NTMWD places a program priority on keeping the Plano Parkway Transfer Station operational during future site improvements to Parkway. The study to be conducted by NTMWD will include a determination of the feasibility of the Parkway Transfer Station remaining operational during future improvements. Additionally the City of Richardson will continue diverting logical routes to maximize the usage of the Plano Parkway Transfer Station.

RECEIVED
OCT 09 2012
AT PUBLIC MEETING

Lookout Dr. Transfer Station
16 Issues Summary/MOU

3. Waste Diversion Initiatives

The City of Richardson commits to enhancing its recycling programs and waste diversion initiatives. City of Richardson staff will conduct a Solid Waste Program Evaluation during the 2010-2011 fiscal year, and within 180 days of completion, work with the Richardson Environmental Advisory Committee (EAC) as directed by the City Council to evaluate and recommend the possible implementation of recycling programs and waste diversion initiatives.

4. Wind-blown Litter

Every operating day, NTMWD personnel (including temporary labor) will police the facility, including fences, access roads, entrance gates, and any storm water discharge points that discharge stormwater from Improved Lookout, to pick up and return windblown material and litter to the facility and perform such other litter control measures, as necessary. On days when the facility is in operation, NTMWD will be responsible for at least once per day cleanup of waste materials spilled along and within the right-of-way of public access roads used for the delivery of waste to the facility for a distance of two (2) miles in either direction from the entrance of the facility. On days when the facility is in operation, the City of Richardson will monitor wind-blown litter between the facility and Spring Creek (top of creek bank), in Lookout Park and within the right-of-way of public access roads serving the facility for a distance of two (2) miles in either direction from the entrance used for the delivery of waste to Lookout and Improved Lookout, and will notify NTMWD when conditions warrant clean-up efforts. The City of Richardson will be responsible for cleanup of litter in Spring Creek after significant rain events.

5. Re-route Trash Truck Traffic

In an effort to minimize vehicular noise and promote safety (solid waste vehicle lane usage), the City of Richardson will address with its Solid Waste drivers a higher level of awareness and sensitivity when entering/exiting the Lookout Dr. Transfer Station. Additionally this topic will be discussed among the NTMWD Solid Waste Member Steering Committee in an effort to expand a higher level of awareness and sensitivity among all Solid Waste Member Cities as they utilize the Lookout Dr. Transfer Station.

6. Walking/Bike Trail

The City of Richardson commits to maintaining, planning, designing, and constructing its trails, nature preserves, and parks in accordance with the City's Parks Department's Master Plan. Included in the Parks Department's Master Plan is a future trail along Lookout Drive between Plano Rd. and Lookout Park. Additionally a potential trail along Spring Creek, north of the Lookout Transfer Station connecting with Foxboro Park, will be studied and evaluated. Trail development will take into account and accept input from nearby neighborhoods as well as ensuring any desired Lookout Dr. crossing is made at the signalized Plano Rd. intersection.

RECEIVED
OCT 09 2012
AT PUBLIC MEETING

Lookout Dr. Transfer Station
16 Issues Summary/MOU

7. Oversight Committee

The City will designate an ombudsman (Assistant Director of Public Services) for all Lookout Transfer Station related issues and inquiries. The ombudsman or the ombudsman's representative will attend meetings with NTMWD and/or NPAR/neighborhood leadership when requested by either NTMWD or NPAR/ neighborhood leadership during the current operation of the Lookout Dr. Transfer Station, and throughout the design, permitting, construction, and operation of Improved Lookout. Design documents at the 30% 60% and 90% completion stages will be provided to the NPAR/neighborhood leadership. Staff will develop a "communication plan" to inform on construction related events (noise, detour routes, etc...). NPAR/neighborhood leadership attendees will be comprised of designated individuals as determined by the NPAR/neighborhood leadership. Unresolved issues will be forwarded to the City Manager for further review, evaluation, and appropriate action.

Additionally, within 30 days of MOU execution, the City of Richardson will include the Lookout Dr. Transfer Station on the City's call center (972-744-4111). Once notified by the NTMWD, the City of Richardson will within 10 business days notify the NPAR/neighborhood leadership in writing of any proposed operation/permit change.

Lastly, on a monthly basis the City of Richardson will provide the NPAR/neighborhood leadership the latest NTMWD Regional Solid Waste System Monthly Report and the NTMWD Daily Weight Ticket file for Richardson within 10 business days of receipt from the NTMWD.

8. 23-acre Property

The appraised value of the 23-acre property (southeast corner of Lookout Dr & Plano Rd.) is 4.8 million dollars and is zoned Industrial. City will be mindful of land development sensitivities and work toward a final development that is in the best interest of the City of Richardson, NPAR/neighborhood leadership, and the property owner. "Best interests" is defined through the collaborative dialog among all the affected parties with the final determination as to the future zoning/development of the 23-acre property resting with the decision of the City Council.

9. Storm Water BMP

When required the NTMWD will obtain authorization under the Texas Pollution Discharge Elimination System ("TPDES") prior to commencing construction and operations at the Improved Lookout. Examples of stormwater management practices during construction include: sediment control practices used to divert flows away from exposed soils, to limit the contact of runoff with disturbed areas, or to lessen the offsite transport of eroded soils. Examples of erosion controls include hay bales, silt fences, swales, mulch filter berms, rock berms, and vegetative filter strips. City staff will monitor water quality at Spring

RECEIVED
OCT 09 2012
AT PUBLIC MEETING

Creek monthly during improved Lookout construction and every six months thereafter. The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of water quality and erosion control during the design/prior to the building permit approval and subsequent phases as applicable for the new Lookout Dr. Transfer Station The City will share all final reports* with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.
*final reports are defined as all reports and information given to COR/NTMWD by the third party consulting firm *before* any final decision/action is made.

10. Lookout Drive Repairs

With the 2010 Bond Election passing Lookout Drive will be reconstructed in accordance to the City of Richardson's standards and specifications accommodating the necessary traffic types and volumes without any additional design requirements for servicing the Lookout Dr. Transfer Station or the adjacent properties.

11. Odor Control

The NTMWD will not accumulate solid waste in quantities that cannot be processed within such time as will preclude the creation of odors, insect breeding, or harborage of other vectors. NTMWD will not store waste in the Improved Lookout building overnight except for extenuating emergency circumstances such as weather or mechanical break down. NTMWD will wash the Improved Lookout building floors at least twice per week, and more often if required by site conditions. Wash waters will not be allowed to accumulate on-site without proper treatment to prevent the creation of odors or the attraction of vectors. Floor washing areas are required to be discharged into the sanitary sewer system. Improved Lookout will be designed and operated to provide ventilation for odor control and employee safety. If NTMWD becomes aware of or receives complaints regarding nuisance odors outside the facility permit boundaries, NTMWD will cause an investigation to be conducted, with follow-up contact with the complainant. The NTMWD will install an odor neutralizer system inside the Improved Lookout building for odor control. The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of odor control during the design/prior to the building permit approval and subsequent phases as applicable for the Improved Lookout. The City will share all final reports with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.

12. Pest Control

The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of pest control during the design/prior to the building permit approval and subsequent phases as applicable for the new Lookout Dr. Transfer Station. The City will share all final reports with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.

RECEIVED
OCT 09 2012
AT PUBLIC MEETING

13. Garbage Storage & Floor Washing

NTMWD will not store waste in the Improved Lookout building overnight except for extenuating emergency circumstances such as weather or mechanical break down. NTMWD will wash the Improved Lookout building floors at least twice per week, and more often if required by site conditions. Floor washing areas are required to be discharged into the sanitary sewer system.

14. Sound Wall

The NTMWD will provide a wall or walls in the vicinity of the northwest side of the permitted area to absorb, dampen and/or deflect sound from the operation. Additionally, the NTMWD will work with the City and its third party consultant to determine the need for wall(s) in the vicinity of the remaining sides (i.e., all but northwest) of the permitted area to absorb, dampen and/or deflect sound from the operation. City will pay for the costs associated with evaluation, design and construction of any additional walls beyond the northwest wall.

As part of the design and development of the COR property, the City of Richardson will construct a vegetative screening/sound buffer along the southern property line better screening Lookout Park. The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of noise control during the design/prior to the building permit approval and subsequent phases as applicable for the new Lookout Dr. Transfer Station. The City will share all final reports with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.

The City will arrange for the NPAR/neighborhood leadership to meet with the City's third party consultant to understand the noise abatement needs due to noise emitting from the current and new facility, and understand how this will be evaluated. Back up alarms will not be excluded from the 3rd party's noise evaluation.

Should there be noise nuisances following the construction of Improved Lookout that do not comply with the City's standards (specifically Article XXII-B Performance Standards, Section B, Table 3 of City's Comprehensive Zoning Ordinance) then the City of Richardson will engage with the NTMWD to determine an appropriate plan of action. Vehicle back-up alarms will not be excluded from any noise evaluation.

15. Vegetation

NTMWD will landscape Improved Lookout in accordance with the Landscape Plan granted administrative approval by the City of Richardson on March 17, 2009. The City will work with NPAR/neighborhood leadership to determine need for vegetative screening/sound buffer in the remaining areas as suggested by NPAR/Neighborhood Leadership (i.e. southern property line – fill gap south of Transfer Station along existing

RECEIVED

AT PUBLIC MEETING

bike trail). Additionally the City will evaluate the four locations (listed below) as part of, but not limited to, the "Tree the Town" initiative.

- Add to north side of Spring Creek in the Owens Boulevard right-of-way
- Extend between Transfer Station and Owens Farm
- Extend between Lookout Park parking lot and 23-acre vacant lot
- Fill gap north of 1600 block of Woodoak Drive

16. Vehicle Back up Alarms

"White-noise" back up alarms have been installed on all NTMWD on-site equipment at the Lookout Dr. Transfer Station. Back-up alarms on all equipment the City sends over public roadways meet the requirements established by the Occupational Safety and Health Administration ("OSHA") or other applicable laws or regulations. Within 12 months of MoU execution, the City of Richardson will install dual systems (A/B switch) for over the public road and off road utilization, enabling and requiring "white-noise" back up alarms to be utilized while on the LOTS premises. Within 18 months of MOU execution, the NTMWD will request that other member cities and their private haulers evaluate "white-noise" back-up alarms for possible installation on vehicles that utilize the Improved Lookout.

RE: Permit #53A NTMWD Amendment Application

As a neighbor living within the shadow the Lookout Trash Station. The expansion of the trash facility deeply impacts me and my family. I have studied this issue and know that the NTMWD has not included many of the important elements of the agreement (MoU) that they made between the city of Richardson and its citizens. We need to have that guarantee as part of the permit application. Please do not grant a permit for this expansion until the permit has been properly amended to reflect the NTMWD agreement with the city of Richardson specifically on the issue of capacity and noise reduction.

I live only a couple of blocks away from this facility. It is next to the park where our family plays and picnics. This expansion will greatly affect our quality of life both in noise, air quality and traffic safety. We ask that TCEQ does not grant this application until the protections outlined in the MoU are guaranteed through the permit application.

Please respond to my comments in writing.

COMMENTS: As one of the five member cities (Allen, Frisco, McKinney, Plano & Richardson) of the North Texas Municipal Waste District's Regional Solid Waste System, Plano is in complete support of Permit No. 53A to replace the aging existing Look-out Transfer Station with the newly designed transfer station. The Look-out Transfer Station is one of three critical transfer stations needed to support the five (5) member cities solid waste disposal needs today and into the future (estimated for 40 years). In addition, this new transfer station supports meeting the long-term goals of our Regional Solid Waste System, in addition to the existing Comprehensive North Central Texas Council of Governments Solid Waste Master Plan.

RE: North Texas Mun. Water District Permit Amendment Application (Permit NO: 53A)

As a resident living mere blocks from The Lookout Transfer Station, in one of The neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. It is not only an eyesore, it smells bad when the wind blows and I'm very concerned about my property value.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living 1.5 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed.

As an avid runner and cyclist I run/bike through Lookout Park and the Golf Course frequently. I believe that an increase in size for the Lookout station would result in more traffic, which would create a greater hazard for all of us that use the park as part of our daily exercise routines. In addition to having to dodge more traffic it will also add to the already borderline oppressive odor that we have to breathe as we run/bike/play in our park. We all need green space and an expansion without the proper neighborhood protections could result in the loss of Lookout Park, Sherrill Park Golf Course, Foxboro Park, Galatyn Woodland Preserve, and the Spring Creek Nature Area as suitable places for us enjoy the outdoors. I hope that you will take my concerns into consideration when making your decision.

The Application does not yet contain many of the neighborhood protections agreed to by the City Of Richardson, and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

I would appreciate a response to my concerns in writing.

Sincerely,

Andrew Soderberg

Re: North Texas Municipal Water District Permit
Amendment Application (Permit No. 53A)

As a Resident living within a block of the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally Request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of the last eight years, the Lookout facility has inhibited my ability to use and enjoy my property due to the noise and smell associated with the facility. The creek is full of trash that washes down stream.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding neighborhoods. Please grant the public meeting as requested. Please Respond to my comments in writing

Note: All 16 issues negotiated and later agreed upon by all parties are now included in the legal MOU. The unanimous agreement was reached through signatures from each of the respective representatives.

Lookout Dr. Transfer Station
16 Issues Summary/MOU

This agreement between the signed parties of the North Texas Municipal Water District (NTMWD), City of Richardson (COR), and Neighborhood Protection Alliance of Richardson (NPAR)/Neighborhood Leadership assumes an on-going relationship between the said parties in every aspect of the following 16 points through planning, design, construction and the operational lifespan of the Lookout Trash Transfer Station in order to ensure that best management practices and quality of life for the citizens of Richardson is upheld to the highest standards for the surrounding impacted areas.

1. Through-put

The Application will request that the TCEQ allow an annual average of 750 tons per day averaged over 365 days per year and a maximum throughput of 1,500 tons per day of waste. Within 60 days of the permit becoming final and non-appealable the permit will be modified as described below.

The throughput limits shall be:

January 1 of Year	Annual Average (365 Days)	Maximum Daily
Immediately	500 tons per day	1,125 tons
2015	550 tons per day	1,325 tons
2016	575 tons per day	1,425 tons
2017	600 tons per day	1,475 tons
2018 and beyond	625 tons per day	1,500 tons

2. Parkway Utilization

The Parkway Transfer Station was part of the NTMWD's overall Transfer Station Evaluation Study, 2002. This study recommended modifications to the NTMWD's transfer stations (Custer, Lookout, and Parkway). The NTMWD will conduct a study to develop recommendations regarding the Plano Parkway Transfer Station. The City of Richardson will ensure the NTMWD places a program priority on keeping the Plano Parkway Transfer Station operational during future site improvements to Parkway. The study to be conducted by NTMWD will include a determination of the feasibility of the Parkway Transfer Station remaining operational during future improvements. Additionally the City of Richardson will continue diverting logical routes to maximize the usage of the Plano Parkway Transfer Station.

Lookout Dr. Transfer Station
16 Issues Summary/MOU

3. Waste Diversion Initiatives

The City of Richardson commits to enhancing its recycling programs and waste diversion initiatives. City of Richardson staff will conduct a Solid Waste Program Evaluation during the 2010-2011 fiscal year, and within 180 days of completion, work with the Richardson Environmental Advisory Committee (EAC) as directed by the City Council to evaluate and recommend the possible implementation of recycling programs and waste diversion initiatives.

4. Wind-blown Litter

Every operating day, NTMWD personnel (including temporary labor) will police the facility, including fences, access roads, entrance gates, and any storm water discharge points that discharge stormwater from Improved Lookout, to pick up and return windblown material and litter to the facility and perform such other litter control measures, as necessary. On days when the facility is in operation, NTMWD will be responsible for at least once per day cleanup of waste materials spilled along and within the right-of-way of public access roads used for the delivery of waste to the facility for a distance of two (2) miles in either direction from the entrance of the facility. On days when the facility is in operation, the City of Richardson will monitor wind-blown litter between the facility and Spring Creek (top of creek bank), in Lookout Park and within the right-of-way of public access roads serving the facility for a distance of two (2) miles in either direction from the entrance used for the delivery of waste to Lookout and Improved Lookout, and will notify NTMWD when conditions warrant clean-up efforts. The City of Richardson will be responsible for cleanup of litter in Spring Creek after significant rain events.

5. Re-route Trash Truck Traffic

In an effort to minimize vehicular noise and promote safety (solid waste vehicle lane usage), the City of Richardson will address with its Solid Waste drivers a higher level of awareness and sensitivity when entering/exiting the Lookout Dr. Transfer Station. Additionally this topic will be discussed among the NTMWD Solid Waste Member Steering Committee in an effort to expand a higher level of awareness and sensitivity among all Solid Waste Member Cities as they utilize the Lookout Dr. Transfer Station.

6. Walking/Bike Trail

The City of Richardson commits to maintaining, planning, designing, and constructing its trails, nature preserves, and parks in accordance with the City's Parks Department's Master Plan. Included in the Parks Department's Master Plan is a future trail along Lookout Drive between Plano Rd. and Lookout Park. Additionally a potential trail along Spring Creek, north of the Lookout Transfer Station connecting with Foxboro Park, will be studied and evaluated. Trail development will take into account and accept input from nearby neighborhoods as well as ensuring any desired Lookout Dr. crossing is made at the signalized Plano Rd. intersection.

Lookout Dr. Transfer Station
16 Issues Summary/MOU

7. Oversight Committee

The City will designate an ombudsman (Assistant Director of Public Services) for all Lookout Transfer Station related issues and inquiries. The ombudsman or the ombudsman's representative will attend meetings with NTMWD and/or NPAR/neighborhood leadership when requested by either NTMWD or NPAR/ neighborhood leadership during the current operation of the Lookout Dr. Transfer Station, and throughout the design, permitting, construction, and operation of Improved Lookout. Design documents at the 30% 60% and 90% completion stages will be provided to the NPAR/neighborhood leadership. Staff will develop a "communication plan" to inform on construction related events (noise, detour routes, etc...). NPAR/neighborhood leadership attendees will be comprised of designated individuals as determined by the NPAR/neighborhood leadership. Unresolved issues will be forwarded to the City Manager for further review, evaluation, and appropriate action.

Additionally, within 30 days of MOU execution, the City of Richardson will include the Lookout Dr. Transfer Station on the City's call center (972-744-4111). Once notified by the NTMWD, the City of Richardson will within 10 business days notify the NPAR/neighborhood leadership in writing of any proposed operation/permit change.

Lastly, on a monthly basis the City of Richardson will provide the NPAR/neighborhood leadership the latest NTMWD Regional Solid Waste System Monthly Report and the NTMWD Daily Weight Ticket file for Richardson within 10 business days of receipt from the NTMWD.

8. 23-acre Property

The appraised value of the 23-acre property (southeast corner of Lookout Dr & Plano Rd.) is 4.8 million dollars and is zoned Industrial. City will be mindful of land development sensitivities and work toward a final development that is in the best interest of the City of Richardson, NPAR/neighborhood leadership, and the property owner. "Best interests" is defined through the collaborative dialog among all the affected parties with the final determination as to the future zoning/development of the 23-acre property resting with the decision of the City Council.

9. Storm Water BMP

When required the NTMWD will obtain authorization under the Texas Pollution Discharge Elimination System ("TPDES") prior to commencing construction and operations at the Improved Lookout. Examples of stormwater management practices during construction include: sediment control practices used to divert flows away from exposed soils, to limit the contact of runoff with disturbed areas, or to lessen the offsite transport of eroded soils. Examples of erosion controls include hay bales, silt fences, swales, mulch filter berms, rock berms, and vegetative filter strips. City staff will monitor water quality at Spring

Creek monthly during improved Lookout construction and every six months thereafter. The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of water quality and erosion control during the design/prior to the building permit approval and subsequent phases as applicable for the new Lookout Dr. Transfer Station The City will share all final reports* with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.
*final reports are defined as all reports and information given to COR/NTMWD by the third party consulting firm *before* any final decision/action is made.

10. Lookout Drive Repairs

With the 2010 Bond Election passing Lookout Drive will be reconstructed in accordance to the City of Richardson's standards and specifications accommodating the necessary traffic types and volumes without any additional design requirements for servicing the Lookout Dr. Transfer Station or the adjacent properties.

11. Odor Control

The NTMWD will not accumulate solid waste in quantities that cannot be processed within such time as will preclude the creation of odors, insect breeding, or harborage of other vectors. NTMWD will not store waste in the Improved Lookout building overnight except for extenuating emergency circumstances such as weather or mechanical break down. NTMWD will wash the Improved Lookout building floors at least twice per week, and more often if required by site conditions. Wash waters will not be allowed to accumulate on-site without proper treatment to prevent the creation of odors or the attraction of vectors. Floor washing areas are required to be discharged into the sanitary sewer system. Improved Lookout will be designed and operated to provide ventilation for odor control and employee safety. If NTMWD becomes aware of or receives complaints regarding nuisance odors outside the facility permit boundaries, NTMWD will cause an investigation to be conducted, with follow-up contact with the complainant. The NTMWD will install an odor neutralizer system inside the Improved Lookout building for odor control. The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of odor control during the design/prior to the building permit approval and subsequent phases as applicable for the Improved Lookout. The City will share all final reports with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.

12. Pest Control

The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of pest control during the design/prior to the building permit approval and subsequent phases as applicable for the new Lookout Dr. Transfer Station. The City will share all final reports with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.

Lookout Dr. Transfer Station
16 Issues Summary/MOU

13. Garbage Storage & Floor Washing

NTMWD will not store waste in the Improved Lookout building overnight except for extenuating emergency circumstances such as weather or mechanical break down. NTMWD will wash the Improved Lookout building floors at least twice per week, and more often if required by site conditions. Floor washing areas are required to be discharged into the sanitary sewer system.

14. Sound Wall

The NTMWD will provide a wall or walls in the vicinity of the northwest side of the permitted area to absorb, dampen and/or deflect sound from the operation. Additionally, the NTMWD will work with the City and its third party consultant to determine the need for wall(s) in the vicinity of the remaining sides (i.e., all but northwest) of the permitted area to absorb, dampen and/or deflect sound from the operation. City will pay for the costs associated with evaluation, design and construction of any additional walls beyond the northwest wall.

As part of the design and development of the COR property, the City of Richardson will construct a vegetative screening/sound buffer along the southern property line better screening Lookout Park. The City will engage with appropriate consultant(s) (3rd party review) regarding independent analysis of noise control during the design/prior to the building permit approval and subsequent phases as applicable for the new Lookout Dr. Transfer Station. The City will share all final reports with the NPAR/neighborhood leadership providing ten (10) calendar days for their review and comment.

The City will arrange for the NPAR/neighborhood leadership to meet with the City's third party consultant to understand the noise abatement needs due to noise emitting from the current and new facility, and understand how this will be evaluated. Back up alarms will not be excluded from the 3rd party's noise evaluation.

Should there be noise nuisances following the construction of Improved Lookout that do not comply with the City's standards (specifically Article XXII-B Performance Standards, Section B, Table 3 of City's Comprehensive Zoning Ordinance) then the City of Richardson will engage with the NTMWD to determine an appropriate plan of action. Vehicle back-up alarms will not be excluded from any noise evaluation.

15. Vegetation

NTMWD will landscape Improved Lookout in accordance with the Landscape Plan granted administrative approval by the City of Richardson on March 17, 2009. The City will work with NPAR/neighborhood leadership to determine need for vegetative screening/sound buffer in the remaining areas as suggested by NPAR/Neighborhood Leadership (i.e. southern property line – fill gap south of Transfer Station along existing

bike trail). Additionally the City will evaluate the four locations (listed below) as part of, but not limited to, the "Tree the Town" initiative.

- Add to north side of Spring Creek in the Owens Boulevard right-of-way
- Extend between Transfer Station and Owens Farm
- Extend between Lookout Park parking lot and 23-acre vacant lot
- Fill gap north of 1600 block of Woodoak Drive

16. Vehicle Back up Alarms

"White-noise" back up alarms have been installed on all NTMWD on-site equipment at the Lookout Dr. Transfer Station. Back-up alarms on all equipment the City sends over public roadways meet the requirements established by the Occupational Safety and Health Administration ("OSHA") or other applicable laws or regulations. Within 12 months of MoU execution, the City of Richardson will install dual systems (A/B switch) for over the public road and off road utilization, enabling and requiring "white-noise" back up alarms to be utilized while on the LOTS premises. Within 18 months of MOU execution, the NTMWD will request that other member cities and their private haulers evaluate "white-noise" back-up alarms for possible installation on vehicles that utilize the Improved Lookout.

COMMENTS: Texas Commission on Environmental Quality, The City of Frisco, as one of the five member cities utilizing the North Texas Municipal Water District's landfill system, stands in support of the application for construction of the new transfer station located at 1601 E. Lookout Drive in Richardson Texas. This station will be a part of the master plan for waste management and will help cohesion of the existing waste removal existing within the five city area and the unincorporated areas of Collin County. The Lookout Transfer Station will help to promote a productive and conducive system of waste disposal for the entirety of the system including residents of Richardson.

REVIEWED

OCT 0 9 2012

By

MSW 79923

As a resident of Fairways of Sherrill Park, less than a mile from the current Lookout Transfer Station, I am concerned about the expansion as it is currently proposed. After reviewing the 2010 Memorandum of Understanding, the 2002 Transfer Evaluation Study, and the 2011 permit amendment request, I feel I must address a few issues. Most importantly, the amendment suggests a daily average tonnage processed of 750 tons with a maximum of 1,500 tons per day for at least the next five years, while the MOU request a limit of 500 tons per day and a maximum 1,125 per day. In the 2002 evaluation, it is mentioned that Richardson is the only one of the then five member cities that is serviced twice a week, which results in uneven daily processing distribution. Though this is not an issue discussed in the MOU, I find this curious and frankly don't know why this is true. I admit an incomplete understanding of the issue, but it seemed clear that twice a week pickups placed unneeded stress on the system. Both the MOU and the 2002 study suggest the evaluation of the Parkway site to take the more of the workload, though I did not notice reference to this in the amendment request. Again, I have an incomplete understanding, but from what I understood, this hasn't happened to full satisfaction. Finally, I am not aware of any changes that have resulted in less disruptive back up alarms for trucks as all I've heard in my neighborhood and driving on Plano Road near Lookout is the loud beeping. And so to my understanding, the application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until us nearby residents are guaranteed, it is my opinion that TCEQ should not grant the expansion.

Please respond to my comments in writing. Thank you for your time.

RE: North Texas Municipal Water District permit Amendment Application
(Permit no. 53A)

As a resident living within half a mile of the Lookout Transfer station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. The site, as is stands, would be fine for the residents of Richardson for many years. Instead, we are limited to 2 vitis a month..... Because so many other towns are using our facility. Rather than expand this one, I think there should be a new one to serve the towns that have none. Even Plano uses ours and they certainly have the population to support their own... The amount of heavy traffic on Plano road certainly affects the road itself and the traffic is also excessive. At this point, smell has not become an issue..... But smoke from the fire Training facility used to be... and that is being expended as well. We have Owens Farm, with many outside activities, a couple of children's playground parks, soccer fields, a walking trail park, creek.... all nearby. I think these things should be protected. My mother has also just purchased a home in the area. I would hate to see this expansion affect the value of both of our homes.

The application does not yet contain many of the neighborhood protections agreed to by the city of Richardson and the North Texas Municipal Water district. Until nearby residents are guaranteed these protections, They should not grant this expansion.

Please respond to my comments in writing.

Sincerely,

Mrs. G. B. Stevens

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53 A)

As a resident living ¼ mile from the Lookout Transfer Station, in the Owens Park Neighborhood which is most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A) . I am grateful that Lookout Park is between the transfer station and my home, but when I take my daily walk on the trail between Lookout Park and the transfer station I do experience the odor of the garbage and the noise of the trucks and the machinery moving the trash within the building and outside it.

We residents deserve an opportunity to ask how the North Texas Municiapal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeing as requested. Please respond to my comments in writing.

Sincerely,

Arva Tatman

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53 A)

Dear Sir:

As a home owner living only ¼ mile from the Lookout Transfer Station, in the Owens Park Neighborhood which is most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A) . Although I am grateful that Lookout Park is between the transfer station and my home, my children and grandchildren are exposed to noise and odor from the transfer station when playing in the park. Additionally the increased traffic from the trucks going in and out of the transfer station along the bike and hike lane on Lookout Drive also puts my family at risk.

As residents we deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested and respond to my comments in writing.

Sincerely,

George F. Tatman
1700 Woodoak Dr.

I request a public meeting to be he in Richardson, Tx about the Lookout Transfer Station permit #53A behind my home. The station has eminated a bad odor and has spread trash for a long time.

I don't want to see it expanded, and I don't want to see other cities use the station. This is for city residents and other cities using it will cause the odor to be worse as it will handle a lot more than it does now.

I want the North Texas Water District to fulfill it's commitment to the surounding communities.

Please grant grsnt the public meeting as requested and please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

Sincerely,

Judy Taylor

COMMENTS: TCEQ, Reference PERMIT #53A To whom it may concern: I understand the final hearing for the Lookout Transfer Station permit is 10/9/12. As a citizen of the city of Richardson, the construction of the new transfer station concerns me. I have followed the Neighborhood Protective Alliance of Richardson's (NPAR) activities and the permit. I feel that the permit does not accurately reflect the 16 point protections that the North Texas Municipal Water District, the City, and the neighbors agreed upon in the 2010 Memo of Understanding (MoU). See the Signed MoU attachment for the complete document. Please do not approve the permit until all the applicable points that both sides agreed to earlier, be guaranteed within the body of the permit. Thank You, Jenny THomason, 1903 Marquette, Richardson Texas, 75081

RE: North Texas Municipal Water District Permit
Amendment Application (Permit No, 53A)

I live in North Spring Park addition, just a few blocks away from the Lookout Transfer station and our neighbor hood is directly impacted by the above Application. I have noticed unpleasant odors and an increase in traffic, not to mention the wind-blown litter.

This application does not yet contain many of the protections agreed to by the City of Richardson and the NTMWD, Until nearby residents are guaranteed these agreed upon protections, TECQ should not grant this expansion

Please respond to my concern in writing

Thank you for your understanding !

Re: NTMWD Permit Application No. 53A
FAX: 512-239-3311*

I formally request a public meeting to be held in the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station. I am elderly and unable to travel to Austin to attend the permit hearing.

I live approximately 1300 feet from the existing Solid Waste Transfer Station and have endured the noise and smells from the station for the last 25 years. The proposed site for the new transfer station is less than 1000 feet from my home and offers the potential for increased odor and noise impacts to our home.

The neighborhood has partnered with the City of Richardson and the North Texas Municipal Water District to form up a Memorandum of Understanding which proposes certain design/construction requirements to reduce both noise and odors emanating from the operation of the transfer station. Holding the public hearing here will allow the affected neighbors to present their cases in favor of or opposition to the terms of the proposed permit application and ensure the terms of the MoNU are addressed in the approved permit.

I am trusting that the agency will be sensitive to the concerns of the neighborhood near this facility. The operator has been less than responsive to our concerns in the past and may need some specific guidance from your agency concerning the proposed application.

Yours respectfully,

COMMENTS: Dear Sir/Madam, This is in reference to Reference Permit No. 53A. I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station. I'd like to express my personal experience with really bad odor while taking a walk on Plano Rd starting from the corner of Plano Rd and Renner to the playground at Braeburn and Plano Rd. The strong and extremely unpleasant odor can also be smelled while I am in Spring Creek trails. Sincerely, Nam Tran

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living on a few short streets away from the Lookout Transfer Station, and because the neighborhood where I live is THE most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit application for the Lookout Drive Transfer Station (Permit No. 53A). Increasingly over the course of the last 3 years, the Lookout facility has inhibited my ability to use and enjoy my property, especially due to the noise and odor pollution caused by it's close proximity. I am also concerned about the safety of my children, and as a result I can no longer allow my children to play freely at our local neighborhood park, without concern about strange individuals loitering about as a result of their use of the station. It defeats the whole purpose for which we purchased property in this neighborhood to begin with, destroying the ideal "suburban" life.

Residents here deserve an opportunity to ask how North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested- I would greatly appreciate a written response to my request.

Thank you

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living in one of the neighborhoods most impacted by this application, just 1.0 miles from the Lookout Transfer Station, I am concerned about the expansion as it is currently proposed. There is currently debris in the air and grounds, odors, noisy back-up truck signals, and heavy truck traffic from the current transfer station which all contributes to an undesirable situation in the middle of city neighborhoods.

Until nearby residents are guaranteed the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, TCEQ should not grant this expansion as the application does not yet contain many of the protections.

A response to my comments would be appreciated.

To the TCEQ - Re: North Tx Municipal Water District
Permit Amendment Application (Permit #53A)

As a resident living less than 1/4 mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit #53A) over the last few years I have noticed increased trash in my yard on windy days. I am disabled and it is not easy for me to bend over & pick up this trash. I also, frequently am almost run over by large trucks as I leave my neighborhood on Plano Rd. Also, as trucks are leaving the Lookout Station & turning onto Plano Rd, the drivers often run the red light. This intersection is a very dangerous area due to this truck traffic - but one I must drive to come & go from my home.

Residents deserve the opportunity to ask how the NTx Municipal Water District intends to honor its commitment to the surrounding neighborhoods.

Respectfully submitted,

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living 1 to 2 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, **I formally request a public meeting to be held within the City of Richardson** on the currently pending amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of 6 months, the Lookout facility has inhibited my ability to use and enjoy my property due to the noise and truck traffic created by the facility.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Sincerely,

Angela Vanhoose

RE: Lookout Transfer Station located in Richardson, TX
MSW 53A

To Whom It May Concern:

The City of Allen is one of the five solid waste member cities in the North Texas Municipal Water District (NTMWD) who utilize the NTMWD transfer stations for municipal solid waste disposal. The NTMWD system has seen a substantial increase in waste quantities over the years due to the expanding metroplex population. The City of Allen fully supports the application for a new transfer station building to replace the old structure. Upgrading the site will assure the safe, affordable and convenient disposal of the region's solid waste.

Sincerely,

Peter H. Vargas

RE: North Texas Municipal Water District Permit Amendment Application (Permit NO. 53A)

As a resident living ¼ mile from the Lookout Transfer Station at 1603 Woodoak Dr. Richardson, TX 75082 in one of the neighborhoods most impacted by this application, I formally **request a public meeting** to be held within the **City of Richardson** on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of 10 years, the Lookout facility has inhibited my ability to use and enjoy my property due to:

Excessive odor, coming from the transfer station
Excessive noise constantly going on their
Windblown trash
Trucks used to go through the parking lot at Lookout Park, although this has ceased with the blocking off Owens at the parking lot. However, we still see the trash trucks over in the park area all the time and it is an uncomfortable distraction.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Thank you for giving us a chance to voice our opinions.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living ~3 miles from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. Specifically, the Transfer Station is located on a route I regularly take when picking up my daughter from school. I am concerned that the noise and odor from the station could have detrimental, long-term impacts on the neighborhoods around the station.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing. Thank you.

RE: North Texas Municipal Water District Permit
Amendment Application (Permit No, 53A

As a resident living 2 miles from the Lookout transfer station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I already have experienced noise pollution in the form of beeping noises, and large trucks moving thru the area.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living near the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. I have been affected by persistent odors, litter strewn about the park and the creek, piercing beeping noises and illegal dumping.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District, such as limiting the size of the expansion, stronger watershed protections, state-of-the-art odor mitigation systems, noise reduction technologies, landscaping improvements and diversion of truck traffic away from residences. Until nearby residents are guaranteed these protections, TCEQ should not grant this expansion.

Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

Dear Ms. Bohac:

As a resident living and playing in Richardson with the proposed Lookout Transfer Station rebuild, I formally **request a public meeting to be held within the City of Richardson** on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Persistent odors, litter strewn about the park and the creek, piercing beeping noises, clandestine illegal dumping and a virtually non-existent pollution prevention plan has not given me confidence that the new rebuild will be any better.

I am very concerned about the negative impact of the station and the seeming indifference NTMWD continues to demonstrate toward this sensitive area. Last year, Mayor Gary Slagel and the Richardson City Council assured families in this affected area and the City itself that an agreement was in place to protect our neighborhood and our community. However, the NTMWD permit application includes very little of this "Memorandum of Understanding"—which was signed by Mr. Jim Parks, NTMWD Executive Director, over a year ago. This agreement contained a set of essential "neighborhood protections" that would ensure protection of my property values, nearby parks and recreational areas as well as the surrounding environment. As proposed, the trash station will be partially sited in the 100-year flood plain, on a watershed creek, without significant grading and filling in an area directly adjacent to a now-defunct gun range (where, incidentally, lead contamination was discovered several years ago).

Again, I would like to formally **request** a **public meeting** in the City of Richardson on this permit amendment application (Permit No. 53A). The citizens who live and play in the communities nearest the Lookout Transfer Station—and who will be affected most by the proposed facility—must receive an opportunity to ask questions and hear in detail how this proposed amendment will affect our quality of life. Moreover, residents deserve an opportunity to ask whether or not the NTMWD intends to fulfill its prior commitment in spite of the fact that few components of the agreement are contained within the permit application. Please grant the public meeting as requested.

Thank you for your time and consideration in this matter. I look forward to your response and to the public meeting.

Sincerely,
Richard G. Wilder

RE: North Texas Municipal Water District Permit

Amendment Application (Permit No. 53A)

As a resident living about 1 mile from the Lookout Transfer Station, in one of the neighborhoods most impacted by this application, I am concerned about the expansion as it is currently proposed. The logistics to creeks, golf courses, parks and many homes and neighborhoods, deserves the same considerations protections and accountability as the original proposal ...actually more.

The application does not yet contain many of the neighborhood protections agreed to by the City of Richardson and the North Texas Municipal Water District. This is unacceptable. Until nearby residents are GUARANTEED these protections, TCEQ should NOT GRANT this expansion.

Please respond to my comments in writing.

RE: North Texas Municipal Water District Permit Amendment Application (Permit NO. 53A)

As a resident living ¼ mile from the Lookout Transfer Station at 1603 Woodoak Dr. Richardson, TX 75082 in one of the neighborhoods most impacted by this application, I formally **request a public meeting** to be held within the **City of Richardson** on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A). Over the course of 10 years, the Lookout facility has inhibited my ability to use and enjoy my property due to:

2011 DEC 27 PM 3:09
CHIEF CLERKS OFFICE
TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Excessive odor, coming from the transfer station
Excessive noise constantly going on their
Windblown trash
Trucks used to go through the parking lot at Lookout Park, although this has ceased with the blocking off Owens at the parking lot. However, we still see the trash trucks over in the park area all the time and it is an uncomfortable distraction.

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Thank you for giving us a chance to voice our opinions.

Re: North Texas Municipal Water District Permit Amendment Application (Permit No. 53A)

As a resident living a quarter mile from the Lookout Transfer Station, in one of the neighborhoods most affected by this application, I formally request a public meeting to be held within the City of Richardson on the currently pending permit amendment for the Lookout Drive Transfer Station (Permit No. 53A)

Residents deserve an opportunity to ask how the North Texas Municipal Water District intends to fulfill its commitment to protect the surrounding communities during the construction and operation of the proposed facility. Please grant the public meeting as requested. Please respond to my comments in writing.

Thank you,

Jamie Zellner
