Ms. Jaycelyn Montalvo
Texas Commission on Environmental Quality
Applications Review and Processing Team (MC148)
Water Quality Division
P.O. Box 13087
Austin, Texas 78711-3087

Re: Proposed Permit No. WQ0014911002 (EPA I.D. No TX0135402);
Letter Requesting Public Meeting with a reservation to request a contested case hearing;
Landowner: Vic McNallie/ More or Less 430 Acres for agriculture use is surrounded on three sides by 3 B&J MUD.

Dear Ms. Montalvo,

My client, Vic McNallie, has authorized me to contact you. My client received the Notice of Receipt regarding the Receipt of Application and Intent on August 25, 2014, as well as the Notice of Receipt regarding the TPDES Permit Application, on August 29, 2014.

As you know, Steger Bizzell is the engineer responsible for the application and Steger Bizzell did not identify my client's property on their adjacent landowner map. Please see the attached.

Subsequent to Georgetown Public Library not being able to reproduce the documents and Aaron Laughlin at Steger Bizzell refusing to provide the application documents, my client finally received the documents from Robert Macias with the Texas Commission on Environmental Quality.

The purpose of this letter is to request a public meeting. My client is requesting 120 days to gather public comments from the affected parties and to research the validity of the application.

Furthermore, my client is requesting the following information from TCEQ:

1. Any updated contact information relative to adjacent landowners including names, addresses, phone number and e-mail addresses.

RECEIVED
SEP 09 2014
Water Quality Division
Application Team

2. Survey Data for the unnamed tributary to the North San Gabriel River. (The Application for Permit indicates that up to 950,000 gallons per day of sewage effluent can be released into an unnamed tributary to the North San Gabriel River).

3. Contact information for the affected parties along the unnamed tributary to the North San Gabriel River, including names, addresses, phone number and e-mail addresses.

4. Contact information for the affected parties along the North San Gabriel River to Lake Georgetown, including names, addresses, phone number and e-mail addresses.

5. Contact information for the landowners who surround Lake Georgetown, including names, addresses, phone number and e-mail addresses.

6. City of Georgetown officials and/or Brazos River Authority officials who are responsible for the drinking water quality in Lake Georgetown.

If items requested in 2 and 3 can be provided within thirty (30) days, Mr. McNallie can work within the 120 day requested timeframe. If they cannot, then Mr. McNallie would need 180 days to prepare for a public meeting.

Very truly yours,

Forest D. Cook
