

Vendors of PERC Detectors

Components must be inspected—while in operation—for vapor leaks monthly. Area sources must inspect them using a halogenated hydrocarbon detector or PCE gas analyzer according to the manufacturer's instructions. Major sources must inspect them using a PCE gas analyzer according to EPA Method 21.

This list was compiled as a courtesy to provide information on sources for detectors. However, **it does not constitute an endorsement or approval** by the TCEQ.

Halogenated Hydrocarbon Detectors Must detect ≥ 25 ppm Tetrachloroethylene. Price range is \$115 - \$600				
Manufacturer	Model	Type	Sensitivity	Distributor
Snap-On	ACT 730 Leak Detector	Halogen Selective	< 0.25 oz/yr	Snap-On Inc Phone: 1-800-225-5786 Web Site: www.snapon.com (distributors all over Texas)
Inficon Inc.	Tek-Mate	Halogen Selective Heated Diodide	< 0.4 oz/yr	Inficon USA, Texas Phone: 512-448-0488 Web Site: www.inficon.com/download/en/TEK-Mate_brochure.pdf
Aeroqual Semiconductor	Aeroqual 200	Solvent Specific	0-200 ppm	Kanomax USA, Inc Phone: 1-800-247-8887 http://kanomax-usa.com/aeroqual-series-200.html
TIF	H10A Halogen Leak Detector	Halogen Selective	< 0.1 oz/yr	Grainger Industrial Supplies Web Site: www.grainger.com (stores all over Texas)
TIF	RX-1A Series (3 models)	Halogen Selective	< 0.1 – 0.4 oz/yr	Grainger Industrial Supplies Web Site: www.grainger.com (stores all over Texas)
