RE: Grason Volente Investments, Ltd.
Proposed Permit No. WQ 0014563001

Dear Chief Clerk:

I am a Landowner whose property is located within one mile downstream of of the wastewater treatment facility and disposal site (irrigation field) proposed in the attached Amended Notice of Receipt of Application and Intent to Obtain a Water Quality Permit, received January 8, 2005.

As an Affected Landowner, I am gravely concerned about the location of the proposed disposal site (irrigation field) for this project. This irrigation field overlays certain springs that feed one of our coves of Lake Travis. This irrigation field is approximately 800' from Lake Travis.

It is my understanding that your Agency is charged with protecting the environmental quality of not only Lake Travis, but also its surrounding flora and fauna. It is my understanding that your Agency is also charged with protecting the property of Affected Landowners for this proposed wastewater treatment facility and disposal site (irrigation field).

Please know that there are many more Affected Landowners than what appears on your Agency's current List of Affected Landowners for this project, and we seek your careful, thorough and accountable review of this Application.

This letter also serves as my request to TCEQ to be placed on your mailing list to receive future public notices mailed by the Office of the Chief Clerk. Specifically, please add me to: (1) the mailing list for this specific application, WQ 0014563001; and (2) the permanent mailing list for the applicant, Grason Volente Investments, Ltd.

I am writing also to request a public meeting about this Application. It is critical that the public have the opportunity to submit comments and/or to ask questions about this Application. I request that a public meeting be scheduled on this Application within a reasonable time period and certainly after the completed Application has been made available for viewing and/or copying by the public.

Thank you very much for your attention to these concerns.

Sincerely,

RE: Grason Volente Investments, Ltd., Proposed Permit No. WQ 0014563001

To Whom It May Concern:

I am a very concerned landowner/homeowner who lives within one mile of the proposed waste water irrigation field very near the Lake Travis Cove with the name of Gun Hollow. This cove is in line with the flow of the irrigation field. I depend on water from this cove for my household and also for recreation use. I and the other residents of this area expect this cove and Lake Travis to remain clean and clear.

The springs that feed this cove would be directly affected by the waste water irrigation field. This cove is lined with homes, sailboat marinas and a large water park all within a mile of the proposed site. Also, I do not believe all the landowners affected by this plant have been informed about the project. I only recently learned of the proposed site. I would like to request a public meeting for the community to have an opportunity to ask questions and become fully informed about the wastewater treatment plant, the irrigation field, and the long-term effect on the cove and the springs before approval is granted.

I am also requesting that TCEQ place me on their mailing list to receive any future public notices mailed by TCEQ or Grayson Volente Investments regarding their Volente development activities specifically regarding the application WQ 0014563001.

I appreciate your attention to the above matter and to my request.

RE: Grason Volente Investments, Ltd.
Proposed Permit No. WQ 0014563001

Dear Chief Clerk:

I am a Landowner whose property is located within one mile downstream of of> the wastewater treatment facility and disposal site (irrigation field) proposed in the attached Amended Notice of Receipt of Application and Intent to Obtain a Water Quality Permit, received January 8, 2005.

As an Affected Landowner, I am gravely concerned about the location of the proposed disposal site (irrigation field) for this project. This irrigation field overlays certain springs that feed one of our coves of Lake Travis. This irrigation field is approximately 800' from Lake Travis.

It is my understanding that your Agency is charged with protecting the environmental quality of not only Lake Travis, but also its surrounding flora and fauna. It is my understanding that your Agency is also charged with protecting the property of Affected Landowners for this proposed wastewater treatment facility and disposal site (irrigation field).

Please know that there are many more Affected Landowners than what appears on your Agency's current List of Affected Landowners for this project, and we seek your careful, thorough and accountable review of this Application.

This letter also serves as my request to TCEQ to be placed on your mailing list to receive future public notices mailed by the Office of the Chief Clerk. Specifically, please add me to: (1) the mailing list for this specific application, WQ 0014563001; and (2) the permanent mailing list for the applicant, Grason Volente Investments, Ltd.

I am writing also to request a public meeting about this Application. It is critical that the public have the opportunity to submit comments and/or to ask questions about this Application. I request that a public meeting be scheduled on this Application within a reasonable time period and certainly after the completed Application has been made available for viewing and/or copying by the public.

Thank you very much for your attention to these concerns.

Sincerely,

Sam W. Love

Dear Executive Director:

We are writing to request a public meeting about the application for a wastewater treatment facility referenced above (see attached Amended Notice).

We are landowners in Volente, Texas. Our property is located within one mile downstream of this proposed wastewater treatment facility's irrigation field. We are extremely concerned about this proposed facility and potential hazards to our property and the ecology of the nearby lake. This facility is only 800 feet from Lake Travis.

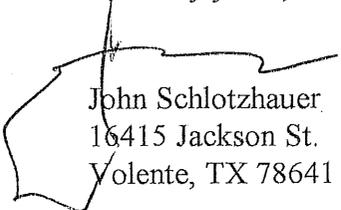

We understand that landowners directly adjacent to this site were notified, but others were not. Everyone who is in the area will be affected. We drink the water and swim in Gun Hollow Cove which is fed by a creek running under this proposed facility. For over 30 years we have used the Dodd Street Docks Marina at the entrance of this cove and we are certain the impact on their business will be a concern that will require their involvement.

As a member of the Nature Conservancy, we will inquire about this facility and its affect on the Balcones Canyonlands. We are surprised that LCRA would allow such a treatment facility and intend to discuss this with them. We have been in areas where this type of wastewater treatment is used and the odor can be offensive (especially for the potential homeowners in this new development building downwind of the prevailing southerly summer winds).

We understand that your charge is to protect environmental quality of this Lake and adjacent land. Is your charge also to educate and inform the public about matters of health and environmental concerns? Then you must have a public meeting in the public interest.

Please place our names on the mailing list for this specific application and other future applications from Grason Volente Investments, Ltd. Thank you for your attention.

Sincerely yours,

RE: Grason Volente Investments, Ltd., Proposed Permit No. WQ 0014563001

To Whom It May Concern:

My home is in Volente on the Lake Travis cove commonly called Gun Hollow. My family and I live on this cove and depend upon the water to remain clear and safe. I have heard that there is a proposed waste water irrigation field to be built directly uphill from our residence. This raises concerns for me and my neighbors since we use the water for drinking and recreational swimming.

I understand that a review process is underway by TCEQ to consider the placement and operation of the waste water facility. I respectfully ask that you share your findings with the immediate community that may ultimately be affected by such a facility. I also request a public meeting for the community to have the opportunity to ask questions, discuss and become fully informed in this matter before any approval is granted.

Could you please place my name on your mailing list to receive any future public notices mailed by TCEQ or Grayson Volente Investments regarding their Volente development activities and specifically regarding the application, WQ 0014563001.

I appreciate your kind attention to my request.

Sincerely,

ON ENVIRONMENTAL
QUALITY

Dear Chief Clerk:

I am one of the twenty identified Affected Landowners who received a Notice of Receipt of Application and Intent to Obtain a Water Quality Permit regarding the subject proposed wastewater disposal permit. (Please see attached Amended Notice of Receipt of Application and Intent to Obtain a Water Quality Permit, received January 8, 2005. Please also see attached Volente Peak WWTP Affected Landowners Map and Volente Peak WWTP Affected Landowners List.)

My first request is that you correct your records and all subsequent communications to reflect my name accurately as Allison Thrash, NOT Allison Gadbois. The affected property is owned by me in my legal name, Allison Thrash.

Secondly, this letter also serves as my request to TCEQ to be placed on your mailing list to receive future public notices mailed by the Office of the Chief Clerk. Specifically, please add me to: (1) the mailing list for this specific application, WQ 0014563001; (2) the permanent mailing list for the applicant, Grason Volente Investments, Ltd., and (3) the permanent mailing list for Travis and Williamson Counties.

Third, please be informed that as of this writing, this application is NOT available for viewing and copying at the Travis County Courthouse, County Clerk's Office, 1000 Guadalupe Street, Austin, Texas, as the Notice states, nor has it been available prior to this writing. Nor can it be found at the Travis County Clerk Recording Division on 5501 Airport Boulevard.

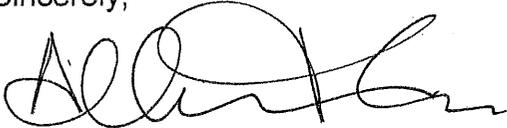

A complete physical address of a publicly owned building in Travis County where the public has access to the application and where there exists copying facilities available for public use has NOT yet been provided the public. In an effort to provide the public the opportunity to review/copy the complete application in a timely manner, I respectfully seek your agency's reconsideration of the administrative completeness of this proposed permit application.

Finally, I am writing to request a public meeting about this application. The critical need for the public to have the opportunity to submit comments and/or to ask questions about the application is even more heightened by the lack of availability to date of the complete application to the public. For the public's interest as well as my own, I request that a public meeting be scheduled on this application within a reasonable time period and certainly after the completed application has been made available for viewing and/or copying by the public.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

AMENDED NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN A WATER QUALITY PERMIT

PROPOSED PERMIT NO. WQ0014563001

APPLICATION. Grason Volente Investments Ltd., 7171 Highway 6 North, Suite 100, Houston, Texas 77095, has applied to the Texas Commission on Environmental Quality (TCEQ) for proposed wastewater disposal Permit No. WQ0014563001 to authorize the disposal of treated wastewater at a volume not to exceed a daily average flow of 175,000 gallons per day via irrigation on 40 acres. The proposed domestic wastewater treatment facility and disposal site are located 6 miles west of the intersection of Ranch Road 620 and Farm-to-Market Road 2769 and 1.5 miles north of Farm-to-Market Road 2769 (Volente Road) in Travis County, Texas. This application was submitted to the TCEQ on September 27, 2004. The permit application is available for viewing and copying at the Travis County Courthouse, County Clerk's Office, 1000 Guadalupe Street, Austin, Texas.

The TCEQ executive director has determined the application is administratively complete and will conduct a technical review of the application. After completion of the technical review, the TCEQ will issue a Notice of Application and Preliminary Decision.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. The TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

Written public comments or requests for public meeting must be submitted to the Office of the Chief Clerk, MC 105, TCEQ, P.O. Box 13087, Austin, TX 78711-3087.

ADDITIONAL NOTICE. After technical review of the application is complete, the executive director may prepare a draft permit and will issue a preliminary decision on the application. Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list or the mailing list for this application. That notice will contain the final deadline for submitting public comments.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for public comments, the executive director will consider the comments and prepare a response to all relevant and material, or significant public comments. **The response to comments, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments or who requested to be on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the executive director's decision and for requesting a contested case hearing.** A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on issues that were raised during the public comment period and not withdrawn.

MAILING LIST. In addition to submitting public comments, you may ask to be placed on a mailing list to receive future public notices mailed by the Office of the Chief Clerk. You may request to be added to: (1) the mailing list for this specific application; (2) the permanent mailing list for a specific applicant name and permit number; and/or (3) the permanent mailing list for a specific county. Clearly specify which mailing list(s) to which you wish to be added and send your request to the TCEQ Office of the Chief Clerk at the address above. Unless you otherwise specify, you will be included only on the mailing list for this specific application.

INFORMATION. If you need more information about this permit application or the permitting process, please call the TCEQ Office of Public Assistance, Toll Free, at 1-800-687-4040. General information about the TCEQ can be found at our web site at www.tceq.state.tx.us.

RE: Grason Volente Investments, Ltd.
Proposed Permit No. WQ 0014563001

Dear Chief Clerk:

My wife and I are two of the twenty identified Affected Landowners who received a Notice of Receipt of Application and Intent to Obtain a Water Quality Permit regarding the referenced wastewater disposal permit. (Please see attached Amended Notice of Receipt of Application and Intent to Obtain a Water Quality Permit, received January 8, 2005. Please also see attached Volente Peak WWTP Affected Landowners Map and Volente Peak WWTP Affected Landowners List.)

First, this letter serves as our request to TCEQ to be placed on your mailing list to receive future public notices mailed by the Office of the Chief Clerk. Specifically, please add us to: (1) the mailing list for this specific application, WQ 0014563001; and (2) the permanent mailing list for the applicant, Grason Volente Investments, Ltd.

Second, we must respectfully question the determination by your Executive Director that this application is administratively complete. As of this writing, this application is NOT available for viewing and copying at the Travis County Courthouse, County Clerk's Office, 1000 Guadalupe Street, Austin, Texas, as the Notice states, nor has it been available prior to this writing. Nor can it be found at the Travis County Clerk Recording Division on 5501 Airport Boulevard.

In a copy of a December 6, 2004, fax transmission from your agency's Kellie Crouch-Elliott, Registration, Review & Reporting Division, to the applicant's representative, Fred Ramirez, she states, "Your attention to the following items is requested before we can declare the application administratively complete." Ms. Crouch-Elliott then references Item 2 of a Notice of Deficiency Letter sent to the applicant on October 12, 2004, wherein she seeks confirmation of the availability of the application to the public for viewing and copying. Ms. Crouch-Elliott writes, "You have indicated that the application will be available for viewing and copying at the Travis County Courthouse. Please verify if the application will be available at the County Clerk's Office, or if the application will be kept at some other location within the courthouse."

10

Office of the Chief Clerk
January 11, 2005
Page Two

There is record of a Telephone Memo to the <TCEQ> File, dated December 10, 2004, wherein the applicant's representative, Mr. Ramirez, asserts that the complete application will "...be available at the County Clerk's Office, and this would be 1000 Guadalupe Street." However, as of this writing, the application is not available for public viewing/copying at 1000 Guadalupe Street, nor has it been available at that location in the past.

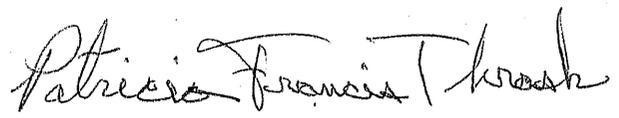

Your agency requires that a copy of the complete application be placed in a publicly owned building where the public can review the application. A publicly owned building is one built and maintained with public funds. A complete physical address of a publicly owned building in Travis County where the public has access to the application and where there exists copying facilities available for public use has NOT yet been provided the public. Therefore, we respectfully submit to your agency that this proposed permit application has yet to be administratively complete and we seek your immediate rectification to this deficiency so that the public can review the complete application in a timely fashion.

Finally, we are writing to request a public meeting about this application. The critical need for the public to have the opportunity to submit comments and/or to ask questions about the application is even more greatly demonstrated by the lack of availability to date of the complete application to the public. For the public's interest as well as ours, we request that a public meeting be scheduled on this application within a reasonable time period subsequent to the completed application being made available for viewing/copying to the public.

We are grateful for the agency's consideration of this letter.

Best regards,

John C. Thrash, Jr.

Patricia Francis Thrash

PROPOSED PERMIT NO. WQ0014563001

APPLICATION. Grason Volente Investments Ltd., 7171 Highway 6 North, Suite 100, Houston, Texas 77095, has applied to the Texas Commission on Environmental Quality (TCEQ) for proposed wastewater disposal Permit No. WQ0014563001 to authorize the disposal of treated wastewater at a volume not to exceed a daily average flow of 175,000 gallons per day via irrigation on 40 acres. The proposed domestic wastewater treatment facility and disposal site are located 6 miles west of the intersection of Ranch Road 620 and Farm-to-Market Road 2769 and 1.5 miles north of Farm-to-Market Road 2769 (Volente Road) in Travis County, Texas. This application was submitted to the TCEQ on September 27, 2004. The permit application is available for viewing and copying at the Travis County Courthouse, County Clerk's Office, 1000 Guadalupe Street, Austin, Texas.

The TCEQ executive director has determined the application is administratively complete and will conduct a technical review of the application. After completion of the technical review, the TCEQ will issue a Notice of Application and Preliminary Decision.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. The TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

Written public comments or requests for public meeting must be submitted to the Office of the Chief Clerk, MC 105, TCEQ, P.O. Box 13087, Austin, TX 78711-3087.

ADDITIONAL NOTICE. After technical review of the application is complete, the executive director may prepare a draft permit and will issue a preliminary decision on the application. Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list or the mailing list for this application. That notice will contain the final deadline for submitting public comments.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for public comments, the executive director will consider the comments and prepare a response to all relevant and material, or significant public comments. The response to comments, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments or who requested to be on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the executive director's decision and for requesting a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

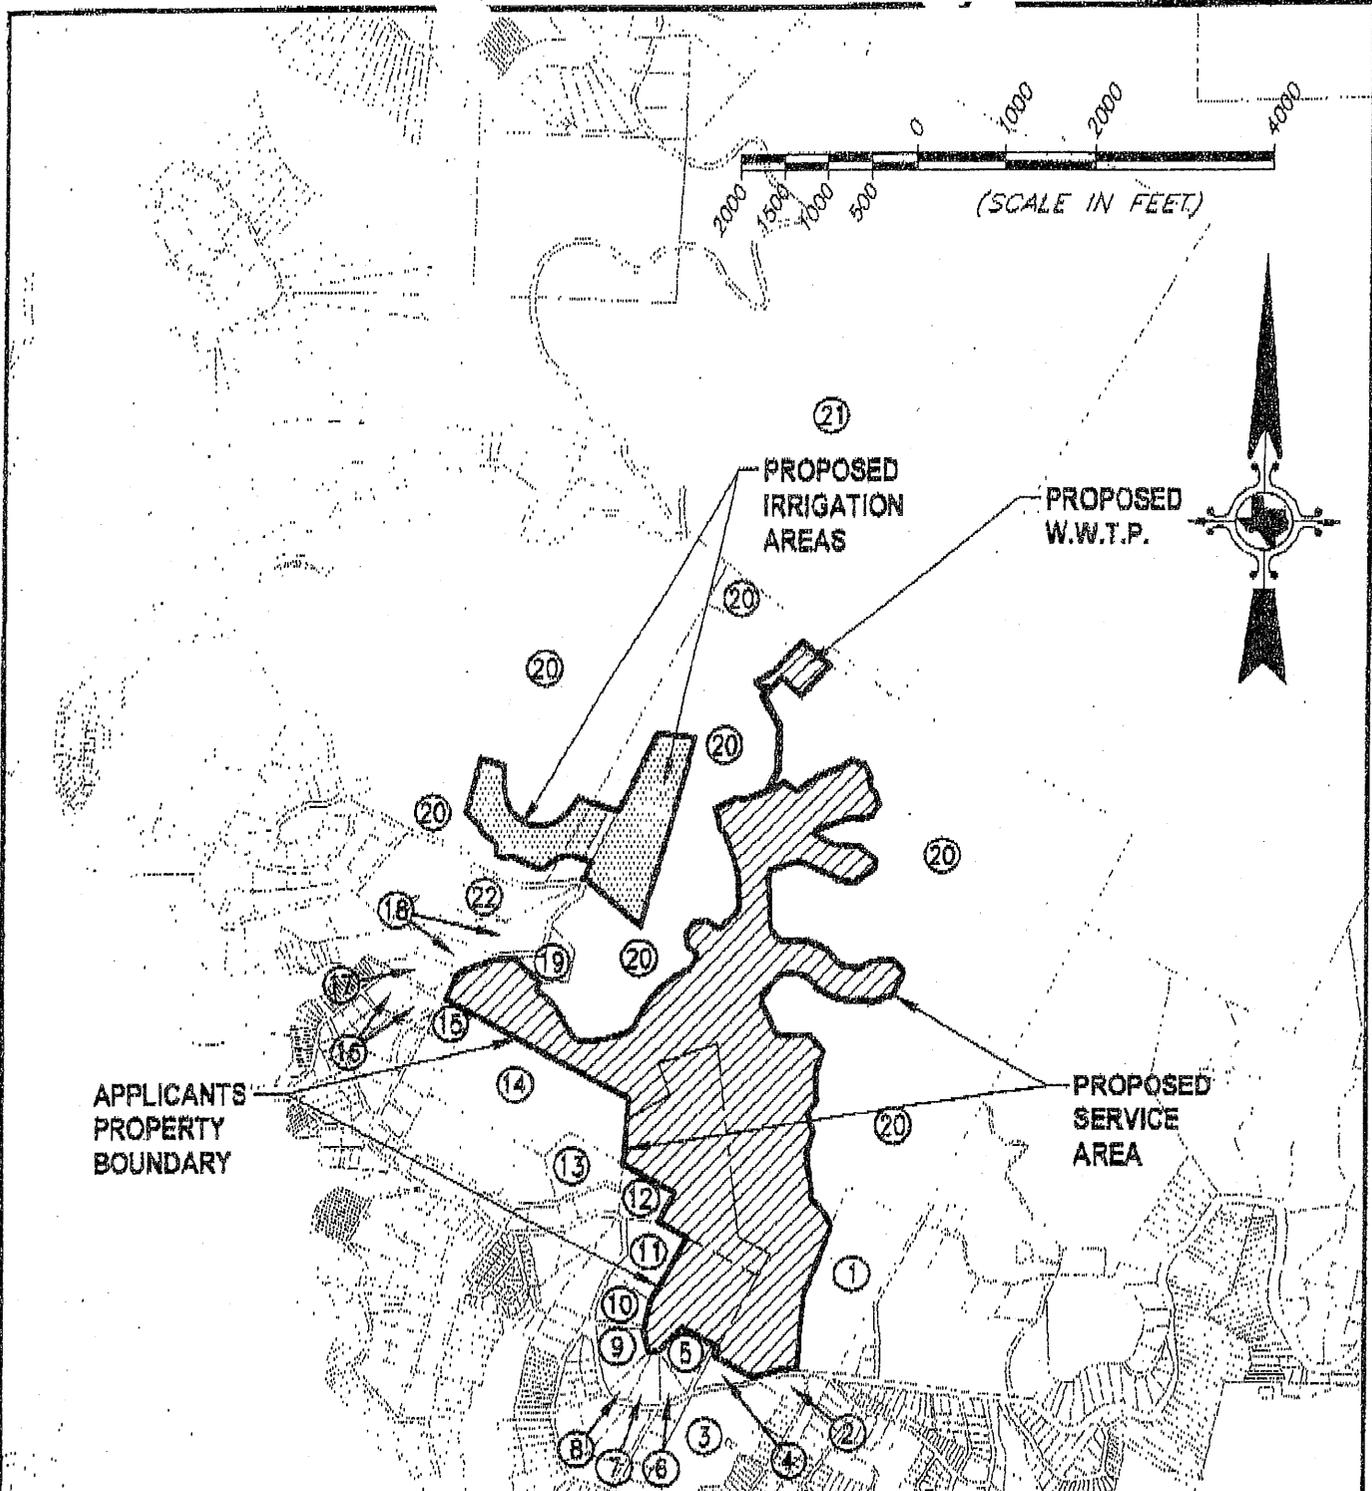

A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on issues that were raised during the public comment period and not withdrawn.

MAILING LIST. In addition to submitting public comments, you may ask to be placed on a mailing list to receive future public notices mailed by the Office of the Chief Clerk. You may request to be added to: (1) the mailing list for this specific application; (2) the permanent mailing list for a specific applicant name and permit number; and/or (3) the permanent mailing list for a specific county. Clearly specify which mailing list(s) to which you wish to be added and send your request to the TCEQ Office of the Chief Clerk at the address above. Unless you otherwise specify, you will be included only on the mailing list for this specific application.

INFORMATION. If you need more information about this permit application or the permitting process, please call the TCEQ Office of Public Assistance, Toll Free, at 1-800-687-4040. General information about the TCEQ can be found at our web site at www.tceq.state.tx.us.

RE: Grason Volante Investments, Ltd.
Proposed Permit No. WQ 0014583001

Dear Chief Clerk:

My wife and I are two of the twenty identified Affected Landowners who received a Notice of Receipt of Application and Intent to Obtain a Water Quality Permit regarding the referenced wastewater disposal permit. (Please see attached Amended Notice of Receipt of Application and Intent to Obtain a Water Quality Permit, received January 8, 2005. Please also see attached Volante Peak WWTP Affected Landowners Map and Volante Peak WWTP Affected Landowners List.)

First, this letter serves as our request to TCEQ to be placed on your mailing list to receive future public notices mailed by the Office of the Chief Clerk. Specifically, please add us to: (1) the mailing list for this specific application, WQ 0014583001; and (2) the permanent mailing list for the applicant, Grason Volante Investments, Ltd.

Second, we must respectfully question the determination by your Executive Director that this application is administratively complete. As of this writing, this application is NOT available for viewing and copying at the Travis County Courthouse, County Clerk's Office, 1000 Guadalupe Street, Austin, Texas, as the Notice states, nor has it been available prior to this writing. Nor can it be found at the Travis County Clerk Recording Division on 5801 Airport Boulevard.

In a copy of a December 8, 2004, fax transmission from your agency's Kellie Crouch-Elliott, Registration, Review & Reporting Division, to the applicant's representative, Fred Ramirez, she states, "Your attention to the following items is requested before we can declare the application administratively complete." Ms. Crouch-Elliott then references Item 2 of a Notice of Deficiency Letter sent to the applicant on October 12, 2004, wherein she seeks confirmation of the availability of the application to the public for viewing and copying. Ms. Crouch-Elliott writes, "You have indicated that the application will be available for viewing and copying at the Travis County Courthouse. Please verify if the application will be available at the County Clerk's Office, or if the application will be kept at some other location within the courthouse."

Office of the Chief Clerk
January 11, 2005
Page Two

There is record of a Telephone Memo to the <TCEQ> File, dated December 10, 2004, wherein the applicant's representative, Mr. Ramirez, asserts that the complete application will "...be available at the County Clerk's Office, and this would be 1000 Guadalupe Street." However, as of this writing, the application is not available for public viewing/copying at 1000 Guadalupe Street, nor has it been available at that location in the past.

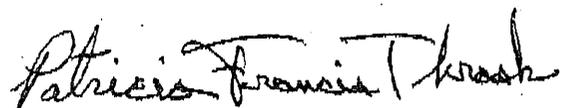

Your agency requires that a copy of the complete application be placed in a publicly owned building where the public can review the application. A publicly owned building is one built and maintained with public funds. A complete physical address of a publicly owned building in Travis County where the public has access to the application and where there exists copying facilities available for public use has NOT yet been provided the public. Therefore, we respectfully submit to your agency that this proposed permit application has yet to be administratively complete and we seek your immediate rectification to this deficiency so that the public can review the complete application in a timely fashion.

Finally, we are writing to request a public meeting about this application. The critical need for the public to have the opportunity to submit comments and/or to ask questions about the application is even more greatly demonstrated by the lack of availability to date of the complete application to the public. For the public's interest as well as ours, we request that a public meeting be scheduled on this application within a reasonable time period subsequent to the completed application being made available for viewing/copying to the public.

We are grateful for the agency's consideration of this letter.

Best regards,

John C. Thrash, Jr.
Attach.
