RE: Canyon Lake Ready Mix, Permit No. 78844

Dear Robin Nava:

Thank you for requesting a public meeting on the application for Air Quality Permit No. 78844. The Texas Clean Air Act, Texas Health & Safety Code § 382.056(k), directs the Executive Director to hold a public meeting on an application on the request of a member of the legislature who represents the general area in which the facility is located or proposed to be located, or if the Executive Director determines that there is substantial public interest in the proposed activity. The Executive Director has reviewed this application and concluded that neither of these criteria is applicable. Therefore, the Executive Director has determined not to hold a public meeting on this application. However, the application is scheduled to be considered by the Texas Commission on Environmental Quality at its regular Agenda meeting on October 10, 2007 at 9:30 a.m. in Room 201S of Building E, 12118 N. Interstate 35, Austin, Texas.

All comments received during the public comment period, which ended on August 18, 2006, have been addressed in the Executive Director's Response to Public Comments that was mailed May 25, 2007.

The TCEQ appreciates your interest in environmental issues. If you have any further questions, please feel free to contact the Office of Public Assistance at 1-800-687-4040 or me at (512) 239-1976.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Eubank".
