Dear Sir:

I am a land owner living across the road from the Pantex Plant. I am requesting a public hearing in regards to the application of the DOE and BWXT Pantex for the modification of their permit for industrial wastewater, WQ0002296000.

My home and farm is located over the Ogallala Aquifer and we use that water for residential and agricultural Purposes.

Pantex acknowledged that discharges to ditches and playas have caused contamination of the Ogallala and the perched aquifer. The proposed permit will increase discharges of contamination that will get into ground water.

This contamination increases risks to my health and the value of my property. I believe these issues should be discussed in an open public forum.

Thank you for your consideration.

Sincerely

Jeri Osborne
