Dear Sirs:

Since hexavalent chromium has been recently discovered in the Ogallala aquifer on property immediately adjacent to Pantex, I think it necessary to convene a public meeting to discuss the issue of allowing the United States Department of Energy/BWTX Pantex, L.L.C. to remove their effluent limitations for various and sundry substances into a playa lake (Outfall 001) that sits above a perched aquifer, said aquifer obviously connected to the Ogallala aquifer below the perched aquifer.

Yours truly,

Addis Charless, Jr.

Dear Sir:

We are writing this letter to request a public meeting regarding the application of the U.S. Department of Energy and BWXT Pantex for a modification of their permit for industrial wastewater, Permit No. WQ0002296000.

We live adjacent to Pantex and know of the groundwater contamination issues, which are already prevalent, not only on site, but also off site. We are landowners and have been farming this property for 45 years. Prior to our time on the farm, it was farmed by my parents and grandparents, who lost land when the Department of the Army condemned this fine farmland in 1942 to build the Pantex Plant.

We are dependent on the Ogallala Aquifer for all our water needs, residential and agriculturally. To further contaminate this large expanse of groundwater by depositing more water into Playa one is unpardonable. Playa one, or outfall 001, poses one of the greatest threats to the Ogallala Aquifer at the present time, why would anyone want to compound the clean-up issues by putting more water into this playa?

The proposed permit will allow increased discharges of contaminated water with increased levels of contamination into this playa. This is inexcusable and a ridiculous idea. Spending our taxpayer dollars in this way is not acceptable.

We therefore request that your agency have a public meeting in our area for all the concerned landowners and citizens. You owe this to us. You need to hear the concerns and the issues that we, the neighbors, know and see daily coming from Pantex.

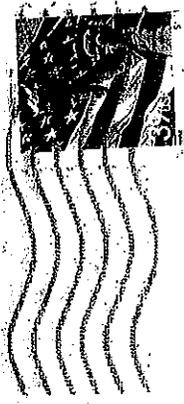

Thank you for your consideration.

Sincerely,

[Handwritten signature: Doris and Phillip Smith]
