TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Dear Sirs:

The Wise Service Company - Water in Decatur, Texas has applied for a new permit to discharge domestic wastewater into a tributary that is in the watershed of Site No. 35 of the Big Sandy Creek Watershed Project located above Eagle Mountain Lake. This flood control reservoir is one of 37 planned floodwater retarding structures in Wise County, Texas.

The Wise Soil and Water Conservation District, Tarrant Regional Water District, Wise County Water Control and Improvement District and Wise County Commissioners are all sponsors of this Watershed Project which began in the 1950's.

We are concerned that the water quality, fish and wildlife habitat and other environmental features will be adversely affected by wastewater effluent.

Several adjoining landowners have expressed their concerns about the location and long-range effect that a sewer treatment plant would have on this pristine area.

The application submitted by Wise Service Company describes Site No. 35 as an unnamed reservoir. This statement is incorrect.

We suggest further investigation into this permit request.

Most sincerely,

Cody Gillispie
