RE: Public hearing request

Dear Mr. Shankle:

I am requesting a public hearing as soon as possible regarding the Texas Commission on Environmental Quality (TCEQ) for issuance of an Air Quality Permit No. 76508 which would authorize construction of a Rock Crushing Facility at the Rhodes Pit Rock Quarry located at 6133 Highway 27, Center Point, Kerr County, Texas.

Also, I want to urge you to consider this matter to go before a contested case hearing. I believe, as my constituents do, that is a very important matter regarding the quality of life in Center Point.

Please coordinate with Isaac Albarado in my capitol office. You can reach him at 463-0536 or by email at isaac.albarado@house.state.tx.us.

Sincerely,

HARVEY HILDERBRAN
State Representative

Re: Air Quality Permit No. 76508

Dear Representative Hilderbran:

I'm writing in response to your letter requesting that the TCEQ hold a public meeting for the referenced permit application. Staff from our Office of Public Assistance will be in contact with your office to schedule a public meeting for this permit application that will be at a time and location convenient for you and your constituents.

Agency staff recently completed the technical review of the application, and a draft permit was issued for public comment. The public comment period will remain open until the date of the public meeting. Your letter will be included with the comments received on this permit application.

As for your request to grant a contested case hearing on this permit application, the Commissioners will consider hearing requests at one of their open meetings and determine whether to grant the request(s). A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on those issues raised during the public comment period and not withdrawn. A person who may be affected by emissions of air contaminants from the facility is entitled to request a hearing.

If we can be of further assistance on this matter, please contact me at (512) 239-3900, or Leonard Olson, Director of our Intergovernmental Relations Division, at (512) 239-3267.

Sincerely,

Glenn Shankle
Executive Director
