I Carla Chambliss am requesting a public meeting regarding the proposed sewer treatment plant permit # WQ 001478001 for applicant Farmersville Investors LP.  
14778000

My home is very close to the treatment plant property, and I have several concerns listed below. I have 3 blood disorders &

- Decline of property value due to proximity to the treatment plant
- Odor from plant
- Lake Lawton has already 23 discharges
- Area roads congested with only 2 lanes at here
- Grandson has asthma & allergies bad & this would cause him breathing issues with his others this concerns me.

Please advise as soon as possible when and where the meeting will be held.

Sincerely,

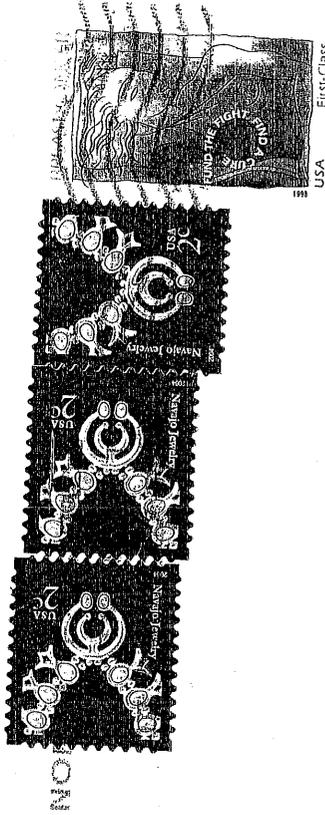

Carla J. Chambliss

at my back door!

I Michael Chambliss am requesting a public meeting regarding the proposed sewer treatment plant permit # WQ 001478001 for applicant Farmersville Investors LP.

My home is very close to the treatment plant property, and I have several concerns listed below.

- Decline of Property Value due to being at my back property
- Odor from plant
- Lake Olanon already has 23 Permitted discharges
- Area Roads are already too congested
- Grandson has asthma & allergies bad & this would just add more breathing problems for him.

Please advise as soon as possible when and where the meeting will be held.

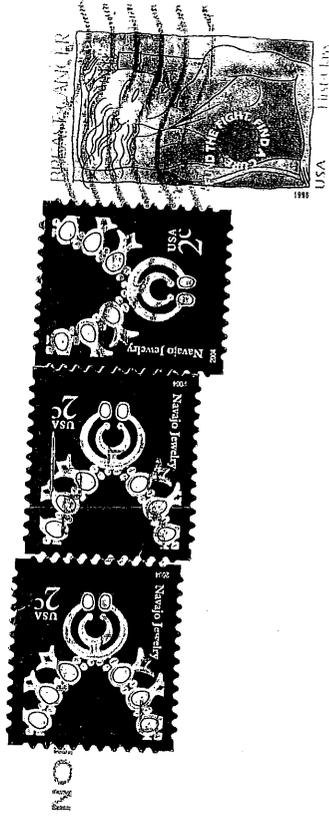

Sincerely,

Michael D. Chambliss

6 May 2007

I John E. Lehan am requesting a public meeting regarding the proposed sewer treatment plant, permit # ~~WQ 001478001~~ for applicant Farmersville Investors LP.

**WQ0014778001**

My home is within 400 feet of the proposed treatment plant property, and the treatment plant will back up to my property. Placement of the treatment plant in this location raises the following concerns:

MWD  
37347

1. My property value will decline because of the close proximity of this treatment plant to my home.
2. Odor from the plant
3. My wife has been diagnosed with emphysema and breathing issues associated with a sewage treatment plant could severely impact her quality of life. We moved to the country 10 years ago for the fresh air, not the odor of a sewage treatment plant.
4. My brother-in-law, renting the property right next door at 3775 County Road 1014, also has emphysema and this proposed sewage treatment plant will also affect his quality of life.
5. Future residential development in the local area will be severely impacted, due to the location of this treatment plant in an existing residential area.

Please advise as soon as possible when a meeting can be held and my issues, as well as the issues of my neighbors, be addressed.

Sincerely,

John E. Lehan

2007 MAY -4 AM 10:24

Dear Sirs,

I am writing concerning the proposed TPDES Permit # WQ0014778001  
Which is funded by the Farmersville Investors group.

I live less than a block from the proposed land which would have the Sewer Treatment Plant very close to my street, CR 550.

We object strongly to this proposed use of this land for several reasons and request an opportunity to have it discussed in a public meeting which would notify all those within a mile radius of said plant.

I teach nutrition and health and talk extensively concerning the danger of direct discharge sewage into major water supplies. I am aware more than the average citizen of the potential and very real health threats Lake Lavon poses to young and old alike. The addition of a MUD the size proposed for the land bordering CR 550 on the south would be an insane and criminal act considering the close proximity to the once-body of water and quantity of effluent pouring into a beach head where cattle graze, which was once a very shallow slew of the lake.

That, as well as the odor and chemical air from an STP so close to homes makes this of grave concern for those of us who have invested in this rural part of Collin County. Our custom home is less than two years old. This would destroy our property value and force some hard choices for those of us who retired on purpose in a rural setting.

There are other concerns as well that need not be discussed at this time.

Please know of our interest and disgust at so-called 'investors' who would not themselves choose to live in close proximity to an STP yet would not hesitate to dump it on us.

Please keep me posted about the dates and times of public meetings.

Thank you,

*Paul & Bettye Petree*

Re: Proposed Permit (WQ0014778001)

As a follow-up to our conversation on April 12th, I am sending this letter to point out the errors in the property owner map drawn up for Farmersville Investors for the Water Treatment Plant Project at Hwy 78 and CR 550. Additionally, I would like to express my concern with the lack of communication effort made to advise residents in the area of this project.

Please review the enclosed property map as I have annotated the correct property owners on the map. The correct resident for lot #18 is a Mrs. Betty Pryor who has not received notification of the proposed water treatment project abutting her property. This is the case for a most of the people on County Road 1014. To date, they were not aware of nor have they received any type of notification advising of the project intent..

I (Al VanderVelde) own the one acre property labled as lot A on the property map. This is a four acre plot at the corner of CR 1014 and CR 550 and was parsed out into one 2 acre plot listed listed as C on the map and at which the Fuller's reside. Lot B is a one acre single home dwelling which is currently for sale. This parse was made at least 5 years ago (see tax records).

Collin County population is approximately 800,000 and 1.6 Million get their drinking water from Lake Lavon. It is my belief that all of these people should have the opportunity to know what is in their drinking water as well as have the right to express their opinions in a public format.

Notification of this project was run in a media (Farmersville Newspaper) that only reaches out to 2500 residents which is a very small percentage of the general population that this project may impact. The project notification needs to be placed in a larger media element like the Dallas Morning news to allow for a larger sector of the population to be alerted of this activity.

A petition for a public meeting format is being circulated at this time and results will be forthcoming. Thank-you for your time and attention to this matter.

CHIEF CLERKS OFFICE

I Albert W VanderVelde am requesting a public meeting regarding the proposed sewer treatment plant permit # WQ 001478001 for applicant Farmersville Investors LP.

My home is about 500 feet from the treatment plant property, and I have several concerns listed below.

- Decline of property value because of the proximity to the treatment plant.
- Odor from the plant.
- The area roads are very congested and only 2 lanes adding additional 2000 to 3000 cars is not feasible.
- Lake Lavon water shed currently has 23 permitted discharges, and 2 pending.
- 8 foot pipeline from Lake Tawakoni ( Kauffman ) + proposed new plant with 500,000 gallon discharge per day, both less than one mile apart in the shallowest part of Lake Lavon. ( How can this be possible)
- Neighbors and my wife have both been diagnosed with breathing issues and this is a major concern for all of us.
- Why is it necessary to back this proposed plant up to an existing residential area?

Please advise as soon as possible when and where the meeting will be held.

Sincerely,

Albert W VanderVelde
