Re: Request for a Public Meeting Regarding the Proposed Madison Bell Energy Power Plant

Dear Mr. Shankle:

I received a letter from the Texas Commission on Environmental Quality (TCEQ) informing me that the Madison Bell Energy Partners LP has filed an air permit application for a natural gas power plant in my district (TCEQ Permit Number 83378 and PSDTX1105).

This is a significant project and I would like to ensure that my constituents are well informed about the proposal as soon in the process as is possible.

Please consider this letter as a formal request for a public meeting on this application at the earliest possible opportunity. This project is important to my constituents. It is important to me that the TCEQ hear this perspective and that the folks that live in the area around the proposed facility are given an opportunity to ask questions of the agency as soon as possible. May I suggest that such a Public Meeting be held at the Kimbrough Center in Madisonville, which is the closest and most adequate facility to the plant.

In closing thank you for your attention to this matter and if you have any additional questions, please do not hesitate to contact my office at 254/ 753-8546.

Sincerely,

Rep. Jim Dunnam
