ATTN: PROPOSED PERMIT NO. WQ0014908002

Chief Clerk/Executive Director:

I, Shaun Phillip Lopez, request a CONTESTED CASE for the following proposed PERMIT NO. WQ0014908002, on the grounds of evasive conduct in which the APPLICANT and the TCEQ have displayed in accordance on notifying the public, but foremost for the ACTS OF POLLUTANTS both plan to exhibit/collaborate with the proposed permit.

Current address: 6626 Radley Dr. / Spring, TX 77379

Location from facility: less than three miles / FROM DISCHARGE ROUTE: 100 yards

I believe the verbiage " a specific description on how you would be adversely affected by the facility in a way not common to the general public" is much intended for the parties involved in the filing of the permit rather than those uninvolved. Therefore, I am 'adversely' affected by living within a football field of the discharge route, and the GENERAL PUBLIC as a whole for having wastewater deposited in ANY FORM OR FASHION in the first place. I, again, request a CONTESTED CASE despite the LEVEL OF INTEREST IN THE PUBLIC and despite the results of the TECHNICAL REVIEW. I also request a list of other PUBLIC INTEREST in this matter when the time comes.

Sincerely,

*Shaun Lopez*  
Shaun Phillip Lopez
