COMMENTS:Being a life long resident of Chambers County, living and fishing on the shores of Lake Anahuac and fishing in the waters of Turtle Bayou, I am completely opposed to the development of a wastewater treatment facility that will drain into their waters. The water of Lake Anahuac is the sole source of drinking water for all of central Chambers County. While I am sure the water released from such a facility is safe when everything is operating properly, unfortunately everything does not always operate properly. There is an existing facility that with moderate expansion would easily handle the needs of the proposed development without the danger of pollutants being discharged into our delicate water source. I would like to go on record strongly objecting to granting this permit #WQ0014928001. Thank you.

COMMENTS: I am very concerned that this permit even be considered for possible approval. After vast amounts of effort and expenditure have been made to prevent the very thing this proposal intends; that being discharge of sewer effluent into Lake Anahuac, part of our drinking water source. This permit must be denied. The developer must tie into the existing TBCD operated sewer system and avoid any possibility of catastrophic events. Common sense must prevail. I matters not that your review contends the water quality would not be impaired. This assumption is made with set parameters that the real world, human error and greed, surely will defy. Bottom Line: I don't want anyone's filtered feces in my glass of water.

COMMENTS:This project should not take place. I fish in the Turtle Bayou and love the atmosphere around there. Putting a Sewer Plant next to this is ridiculos! Why ruin what nature has given us? They should tie into the existing line and put the money toward making the other sewer plant more efficent.....Or better yet, put the subdivision somewhere else (out of Chambers County).

Re: Notice of Application and Preliminary Decision for TPDES Permit for Municipal Wastewater (New) Proposed Permit No. WQ0014928001 (the "Permit") Carter-CC, Ltd., 1209 Decker Drive, Suite 100, Baytown, Texas 77520 (the "Applicant")

Dear Chief Clerk:

The Chambers County Commissioners Court is charged with insuring the health and safety of the residents of Chambers County. The court is deeply concerned about the location of the proposed wastewater treatment plant which would place the discharge into Lake Anahuac which is the drinking water supply for central Chambers County. The court joins with Trinity Bay Conservation District and the Chambers-Liberty Counties Navigation District in objecting to issuing the permit for the proposed wastewater treatment facility.

Sincerely,

Jimmy Sylvia
County Judge,
Chambers County, Texas

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR TPDES PERMIT FOR MUNICIPAL WASTEWATER NEW

PROPOSED PERMIT NO. WQ0014928001

APPLICATION AND PRELIMINARY DECISION. Carter-CC, Ltd., 1209 Decker Drive, Suite 100, Baytown, Texas 77520, has applied to the Texas Commission on Environmental Quality (TCEQ) for a new permit, proposed Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0014928001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 250,000 gallons per day. TCEQ received this application on September 24, 2008.

The facility will be located 550 feet south of Farm-to-Market Road 563 approximately 1.8 miles southeast from the intersection of Farm-to-Market Road 563 and Interstate Highway 10 in Chambers County, Texas. The treated effluent will be discharged to Turtle Bayou; thence to Anahuac Lake; thence to Trinity River Tidal in Segment No. 0801 of the Trinity River Basin. The unclassified receiving water uses are high aquatic life use for Turtle Bayou and for Lake Anahuac. The designated uses for Segment No. 0801 are high aquatic life use and contact recreation. In accordance with §307.5 and the TCEQ implementation procedures (January 2003) for the Texas Surface Water Quality Standards, an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in Turtle Bayou or Lake Anahuac, which have been identified as having high aquatic life uses. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received.

The TCEQ Executive Director has reviewed this action for consistency with the Texas Coastal Management Program goals and policies in accordance with the regulations of the Coastal Coordination Council, and has determined that the action is consistent with the applicable CMP goals and policies.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at the Chambers County Library, 202 Cummings Street, Anahuac, Texas.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the

mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name; address, phone; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are germane to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission will only grant a contested case hearing on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on issues that were raised in timely filed comments that were not subsequently withdrawn.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

All written public comments and public meeting requests must be submitted to the Office of the Chief Clerk, MC 105, TCEQ, P.O. Box 13087, Austin, TX 78711-3087 or electronically at www.tceq.state.tx.us/about/comments.html within 30 days from the date of newspaper publication of this notice.

AGENCY CONTACTS AND INFORMATION. If you need more information about this permit application or the permitting process, please call the TCEQ Office of Public Assistance, Toll Free, at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040. General information about the TCEQ can be found at our web site at www.TCEQ.state.tx.us.

Further information may also be obtained from Carter-CC, Ltd. at the address stated above or by calling Mr. James P. Hutchinson, Hutchinson & Associates at 281-422-8213.
