QUALITY  
2008 DEC - 8 PM 3: 16  
CHIEF CLERKS OFFICE

**REGISTRATION NO. 86593**

NOTE: The company is located in the city of Prairie View, Texas; it is not located in Hempstead, Texas.

3. " We request a contested Case Hearing."

4. The citizens of this community have suffered from the inconvenience of living in homes covered with cement dust, both inside and outside. The trees, streets, and cars are also covered with cement dust. Bright lights and noise from the plant often occur all night, depriving residents of sleep.

Burning of unknown materials at night is producing dark smoke with suspended particles which cause sore throat, inflamed eyes, and a hacking cough the next morning. There is a strong smell of chemicals is in the air.

Large trucks driving over cement waste on the roadway emit Diesel exhaust fumes mixed with cement dust, causing **air contamination**.

5. My home and other homes in this sub-division are permanent residence within 200 to 430 yards of the proposed plant.

6. In this community, there a children's park, a home for senior citizens, and a child care home school. All outside activity is affected by the cement dust contaminants.

Some health and related conditions include: respiration problems, asthma, allergies, nasal and sinus infections, skin irritations, and mental stress.

*Marshall V. Brown*

**Registration Number 86593**

**NOTE:** This company is located in **Prairie View, Texas ( not Hempstead, Texas).**

3. **"I request a Contested Case Hearing."**

4. A Specific description of how you will be adversely affected by the plant and air emissions from the facility in a way not common to the general public.

My wife and I have to breathe the air emissions from the plant daily. My wife had a Heart Transplant in 1997 after which she had lung surgery for fungus on the lungs. Having to continuously breathe the plant and air emissions from this facility does not help her situation. Presently, she is also using Oxygen to aid her breathing process. I am continuously affected by the air emissions from this facility while cutting and grooming my lawn. I worry about the long term effect that the cement dust and other emissions will have causing concern.

5. The location and distance of your property relative to the facility.

We reside in a permanent residence in a sub-division within 440 yards of the proposed plant.

6. A description of how you use the property which may be impacted by the facility.

The property which may be impacted by the facility is our HOME.

2. Applicant:  
East Texas Precast CO. Ltd.  
44855 Old Houston Highway  
Hempstead, Texas - Waller County

**This company is not located in Hempstead, Texas; it is in Prairie View, Texas.**

3. " I request a Contested Case Hearing."

4. I am a senior citizen and I have lived at 412 Prospect Ave. Prairie View, Texas for the past 30 years. Since the plant has been located in Prairie View, I have had the following health problems; nose, throat and eye irritation (regularly), dust throughout my house, and a cough that lasts for months. In order to stay outside for a reasonable length of time, I must ware a mask. Outdoor furniture and cars must be covered.

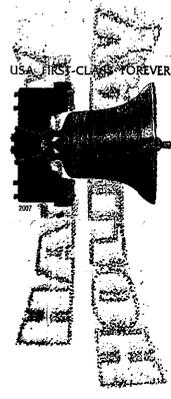

5. My home is approximately 200 yards from the East Texas Precast Plant.

6. Our property is used for gardening, family activities, and beautification. The dust coming from the plant keeps flowers, trees, houses, cars, and everything outside covered with dust.

**COMMENTS:**I wish to contest the application of East Tex Pre-Cast Company and would like a public hearing. The company is located in the City of Prairie View and not Hempstead which is 5 miles away. The company runs 24hrs and gives off serious amounts of concrete dust. It is presenting a very serious health hazzard to the residents.

COMMENTS: East Texas Pre-Cast is located south of the sub-division where my home is located and is in the City of Prairie View and not Hempstead as is indicated on its application. The concrete dust from this plant site at times is so thick that it gives the impression that it is smoke from a fire. The dust is in the trees and covers the roadways. The dust is in our home and creates an additional expense by causing us to change out our air filters more frequently. The cancer rate in this small city is very abnormal. This is an official request that I wish to contest this application for East Texas Pre-Cast. Sincerely, Frank D. Jackson

air condition unit and roof vents on top of the building. My office is approximately 300+ yards from East Texas PreCast CO. Ltd. and is used for various community & youth group meetings, elections site, and our National Alumni Board Meeting.

If these emission continue, not only will it affect the lungs of those doing business and working at our location, but at night emits a cloud of dust that combined with fog will reduce visibility nearly zero yards. These are the same type conditions that caused the 2<sup>nd</sup> worst accident in the country and the worst accident in the State of Texas. A farmer about a mile off Hwy 290W was burning trash on his land about 5:00 am. It was very foggy that morning and visibility was approximately 100 yards. The fog when combined with the smokey conditions created by the farmer, reduced visibility to 5 – 20 yards. An accident occurred in the area on Hwy 290W and travelers could not see ahead until they ran upon the vehicle in front of them. To make matters worse, several eighteen (18) wheelers could not see the accident ahead nor did they know that one had occurred. Unfortunately, as a result, they plowed into the wreckage, over the tops of stopped vehicles, causing several injuries and miraculously only one death.

Cleophus Sharp
