TCEQ Internal Control Number: 08262009-D01

Roman Forest Consolidated MUD

I request a contested case hearing. I will be affected by an annual uniform operation and maintenance standby fee of \$216 per equivalent single family connection for a period of at least 3 years since I currently own land within the district. I will be affected since I will not be using the connections and don't plan to within 3 years. I have no need for these connections. My land will remain as unimproved within these next 3 years therefore I will not use the connections. Property Description: Roman Forest 02, Block 18 Lot 5. My proposed adjustment is \$40.00

Thank You,

Francisco Mora Jr.
