Comments:

I protest granting this permit!
I strongly am against having our
community + neighborhood turn into an industrial
area. With big trucks tearing up our roads
and making it unsafe for our grandchildren
to play. I also feel it will reduce our
property values. Please Vote No!
Thank you.

COMMENTS:This is a residential neighborhood, with limited access via Midline Rd. The noise, dust, and heavy truck traffic would destroy our quality of life in the neighborhood. Heavy truck traffic will also cause traffic problems and safety concerns. Any accident on Midline can block access to the entire neighborhood. Property values in the entire neighborhood would be reduced if this plant is constructed.

Comments:

We live exactly .01 miles - the dust is not good for us.

I have grandchildren that live directly across the road. they play outside. I feel it would be unsafe for them to play outside the noise of all the heavy trucks coming + going. I work 3rd shift therefore I sleep in the day time.

Also this is a subdivision of homes - this should count for something.

COMMENTS: The concrete plant that are already building on midline road is going to be horrible for our neighborhood. I've already been stopped twice for a dump truck to get in there. I am very upset, and do not approve of this. It will mess up our roads, just like the concrete/dirt plant on Sorters Road. I try to avoid that road because there are so many trucks pulling in and out. Plus there is a huge hole from where they have been pulling in and out. Unfortunately, I cannot avoid Midline because I live passed the 'plant' they are building. Our property values will go down, and it will make roads dirty, and will end up damaged. I would love for them to build somewhere that ISN'T IN A NEIGHBORHOOD! And not to mention our trucks will constantly be covered in dirt, and ROCK CHIPS!

COMMENTS:I would like to make the following public comment regarding the batch plant permit for Splendor Ready Mix, Inc. It is my obligation to voice my concerns regarding the air quality during the operation hours of this particular plant. It is located in close proximity to many family dwellings and has the potential to create very hazardous breathing issues for the citizens of this close knit neighborhood. I am concerned about the possibility of this concrete dust being released into our air without our knowledge and causing long term respiratory problems for the elderly and young living close by this plant. With the trucks coming in and out and watching clouds of dust billowing into the air, I know that this is not healthy living. The washing of the equipment, and watering down the property to keep the dust down will cause the toxins from this plant to be washed directly into the nearby Peach Creek, just down Midline Road. This creek feeds into the East Fork of the San Jacinto River. This could be a problem for air and water for our area. We have a Municipal water supply just a short distance away from this plant as well. The run off could be detrimental for thousands of households in the area. Thank you for allowing us to voice our concerns.

CN # CN603599176

First Name JOE Last Name SMITH

Company Name (if applicable) ---

Address: 11794 MIDWAY RD.

City: CLEVELAND ST TX Zip Code 77328

Comments:

I protest granting this permit. I do not feel that a plant of this nature should be allowed in a long existing residential area, period. Our home is located north- northwest of this proposed location. With prevailing winds from the south-southeast we will be directly in the path of "dust " plus air quality negatively affected by such a plant.

My wife of many years has severe asthma and other lung diseases (COPD). This can be verified by Doctor Flores of Montgomery County Lung Clinic in Conroe, TX. She already has to take three different breathing treatments twice daily for these illnesses. We certainly do not need any additional dust or poorer air quality caused by the many large trucks and all of the other equipment needed to operate such a proposed plant.

I request that the permit for this proposed plant be denied and/or repealed. Further consideration should be given to the many people that have been living for many years in this residential area. Thank you for the opportunity to express my grave concerns.

Sincerely Yours,
Joe H. Smith

Comments:

My concern are concrete trucking
ruining our roads. Getting our
windfields broke. It is not right
for a concrete company to be
put in a community. Our Community
has gone down hill from
people moving in & not taking
care of there property. It makes
me sick to come down my road &
see these lots. You might say, well
move. Dont have the funds.
Have to live with it.

Concern property owner.
