Dear TCEQ:

This letter is in regard to:

Permit #87730L001 Falls County
Connors Construction/Greg Tate Portable Crusher

As a retired citizen of Falls County living on FM 2413, this proposed enterprise is a matter of great concern to me. Living in close proximity to this very disruptive operation will cause health problems for me due to my dust allergies and respiratory problems. Also of great concern is the affect this will have on our entire community of mostly older citizens with health issues.

An operation of this magnitude will have a very negative affect on the air quality of this entire area with as yet many other unknown problems to the environment.

Please add my name to the list of greatly concerned citizens who want more information on this proposed disruption to the Blue Ridge Community and the permanent degradation of the quality of the environment in this area. This is also a request for public meeting and public hearings, as necessary, to put and end to this proposed project.

Sincerely,

Evelyn L. Bostick

JUN 16 2009

Dear TCEQ:

BY *EB*

This letter is in regard to:

**Permit #87730L001 Falls County
Connors Construction/Greg Tate Portable Crusher**

Two years ago, after retiring, I became a citizen of Falls County living on FM 2413. Because of the close proximity of my home to this proposed operation, I am most concerned regarding problems of air quality due to this rock crushing plant. This will no doubt cause health problems for me and our entire community of mostly older citizens with health issues.

Such an operation of this magnitude will have a very negative affect on the air quality of this entire area with as yet many other unknown problems to the environment. The historic Blue Ridge Baptist church, which my wife and I attend, is very near to the proposed gravel pit. The affect of the blasting done there will certainly have an adverse affect on this 100 year old land mark.

Please add my name to the list of greatly concerned citizens who want more information on this proposed disruption to the Blue Ridge Community and the permanent degradation of the quality of the environment in this area. This is also a request for public meeting and public hearings, as necessary, to put and end to this proposed project.

Sincerely,

Paul H. Bostick

COMMENTS:My husband and I both suffer from allergies and other health problems. We are retired and had moved here from the Houston area to enjoy the country and the fresh air. The proposed rock crushers would definitely be a hazard to our health. We also have elderly neighbors who suffer from lung problems. We would request a public hearing.

COMMENTS:my home is on cr246 it is a gravel road. the tate property is within 1/4 mile of my home. i have water collection system that supplys water for our home. the dust that comes for a rock crusher will collect on my roof and when it rains all that dust & grime will get in my tank and stop up my system. this is the only source of water that i have. i am haveing my water tested now to show the qualiy of my water now. also i want to request a public hearing on this app.i also have livestock that will have to eat dusty grass which is unhealty for them.the dust will also affect me and my wifes health. a rock crusher this close to my property and home will greatly decrease the value.

CHIEF OFFICE

TO WHOM IT MAY CONCERN

AS RESIDENTS OF THE BLUE RIDGE COMMUNITY WE ARE VERY CONCERNED ABOUT THE AIR QUALITY THAT WILL SURELY CHANGE DUE TO THE ROCK CRUSHERS MOVING INTO OUR AREA.

NUMEROUS ELDERLY RESIDENTS HAVE COPD AND OTHER RELATED BREATHING PROBLEMS. ONE OF THESE HAS ONLY ONE LUNG. THIS IS A MAJOR CONCERN FOR THIS PERSON.

WE ARE ALSO CONCERNED ABOUT THE HISTORICAL CHURCH, CEMETARY AND HISTORICAL HOUSES IN THE COMMUNITY THAT CAN BE AFFECTED BY THE EMISSIONS FROM THE CRUSHERS.

PLEASE TAKE INTO CONSIDERATION ALL OF THE CONCERNS FOR OUR RESIDENTS AND HISTORICAL PROPERTIES.

COMMENTS: As a likely affected party to reduced air quality from rock blasting, crushing, and transporting in the vicinity and the subsequent reduction in the quality of life in the community, I would like to see definitive proof that rock crushing activities will adequately prevent deterioration of air quality beyond the borders of the initiating property. As a good neighbor, I support the right of landowners to profit from the resources they have. In return, I expect good neighbors to restrict their activities to their property or business so that the surrounding community is not harmed or continually inconvenienced by emissions from those activities extending beyond their borders. I respectfully request that this air permit application be further reviewed and take into account the concerns of those citizens in the affected region. I further request that a public hearing be held to air those concerns and to provide descriptions of all available control technology for dust suppression throughout the process (not BACT only). Dispersion modeling should be done and based on data from existing plants in the area. Health effects of PM10 from sedimentary rock should be known and mitigation technology should be

MW

described and defined. If visible dust suppression is all that is required by water sprays, does it adequately suppress PM10 and what is the dispersion of PM10. Furthermore, what are the regulations in place that govern these issues, who monitors them, how often are they monitored, and what recourse do those affected have when violations occur?

COMMENTS:I request a hearing for Permit 877301001. I wish to know specifics of the location of the rock-crushing operation, the truck routes for hauling the crushed rock, and the proposed proximity to property lines. Although I live in California, I do share my residency with Texas at 403 FM 246, Marlin, TX 76661. Our address apparently adjoins the property for which the permit application is made. I am very concerned about air borne particles that may impact the health of my elderly mother as well as that of my brother who resides at 4715 FM 413. Thank you for your consideration.

COMMENTS:This is a "re-send" from my Yahoo address. The comments I sent you using my "return email AOL address" was returned "undelivered" to me. I request a hearing for Permit 877301001. I wish to know specifics of the location of the rock-crushing operation, the truck routes for hauling the crushed rock, and the proposed proximity to property lines. Although I live in California, I do share my residency with Texas at 403 FM 246, Marlin, TX 76661. Our address apparently adjoins the property for which the permit application is made. I am very concerned about air borne particles that may impact the health of my elderly mother as well as that of my brother who resides at 4715 FM 413. Thank you for your consideration.

Re: Permit #87730L001 Falls County
Connors Construction/Greg Tate Portable Crusher

Those of us who live and have invested in this rural area urge you to work to protect the threatened environmental quality in the Stranger and Blue Ridge Communities of Falls County. These historic areas with their quaint little churches and peaceful ranch lifestyle are being targeted by rock crushers and gravel (limestone) pits. The poor air quality, noise and heavy truck traffic have infiltrated our lives, causing breathing disorders, allergies, interrupted sleep patterns, and travel hazards. Our property has lost value due to the proximity of these industrial quarries.

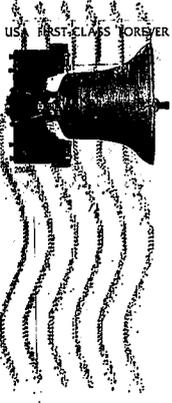

Two more of these pits are proposed in the Blue Ridge area. We respectfully request public meetings and hearings in which we can air our concerns before they become a reality.

Sincerely,

Jim & Kay Woliver
