## **REQUIREMENTS FOR WATER RIGHTS HEARING REQUESTS**

Commission Rules in 30 TAC Section 55.251 (b) and (c) require a hearing request to:

- (1) be in writing and be filed with the Office of the Chief Clerk during the public comment period;
- (2) give the name, address, and daytime telephone number of the person who files the request;
- (3) identify the person's personal justiciable interest affected by the application including a brief, but specific, written statement explaining in plain language the requestor's location and distance relative to the activity that is the subject of the application and how and why the requestor believes he or she will be affected by the activity in a manner not common to members of the general public; and (4) request a contested case hearing.

A hearing request must comply with requirement (1) above and "substantially comply" with requirements (2) through (4). In addition, a group or association may request a contested case hearing only if the group or association meets all of the following requirements:

- (1) one or more members of the group or association would otherwise have standing to request a hearing in their own right,
- (2) the interests the group or association seeks to protect are germane to the organization's purpose,
- (3) neither the claim asserted nor the relief requested requires the participation of the individual members in the case.

A request for a contested case hearing must be granted if the request is made by an affected person and the request: (A) complies with the requirements of 30 TAC Section 55.251; (B) is timely filed; and (C) is pursuant to a right to hearing authorized by law.

An affected person is one who has a personal justiciable interest related to a legal right, duty, privilege, power, or economic interest affected by the application. An interest common to the general public does not constitute a justiciable interest. To determine whether a person is an affected person, all relevant factors must be considered, including but not limited to:

- (1) whether the interest claimed is one protected by the law under which the application will be considered;
- (2) distance restrictions or other limitations imposed by law on the affected interest;
- (3) whether a reasonable relationship exists between the interest claimed and the activity regulated;
- (4) the likely impact of the regulated activity on the health, safety, and use of property of the person; and
- (5) the likely impact of the regulated activity on the use of the impacted natural resource by the person.
- (6) 30 TAC Section 55.256(c).
