COMMENTS: I live directly across the street from this proposed site at 3122 River Road in Cedar Creek on the Bastrop/Travis county line. I oppose of this location so close to the Colorado River. I request a **contested case hearing**. I do not agree with this permit. I would like to be added to any mailing lists regarding this permit. Thank you.

RE: Request for a Public Hearing for Permit No. WQ0004941000

Dear Chief Clerk,

We received a Notice of Receipt of Application and Intent to obtain a Beneficial Land Use Permit regarding an application of wastewater treatment plant sludge. According to the notice, TCEQ received this application from Synagro of Texas-CDR, Inc. (CN601307630) on September 10, 2010, and the first date of application of sludge is scheduled for September 1, 2011. Why are we just now being notified? It seems to me that TCEQ has made a decision without consulting the surrounding neighborhoods. I have checked with some of my neighbors and they have not received this notice. We live in the Colorado River Ranchettes which butts up to the Mellenbruch Ranch (RN105999718) where Synagro of Texas-CDR, Inc. plans to put this treatment plant sludge. Just because this neighborhood is mainly made of poor to middle-class families, that TCEQ would not think that we would not be concerned with wastewater treatment plant sludge in our back yard.

Not only would the smell be so strong that we could not enjoy sitting out doors, but it would devaluate our property, bring in insects, pollute the land and the Colorado River, ruin businesses, and make life unbearable. Not all of our residents are on Aqua Water, which gets it water from the Colorado River, but on water wells. Sludge produces toxins that would be released in the air for humans, animals, and birds, to breathe.

Another question, where is this sludge coming from? Is it human or hazardous?

Please notify us, when a public hearing is set.

Regards,

Charles & Kay Prather

REQUEST FOR A CONTESTED HEARING

BY BP

CHIEF CLERK
JUL 26 2011
TEXAS
COMMISSION ON ENVIRONMENTAL
QUALITY

TO THE EXECUTIVE DIRECTOR OF THE TEXAS
COMMISSION OF ENVIRONMENTAL QUALITY:

I, Aide A. Sustuta
19301 Barb Rd
Cellar Creek, TX 78612
(512) 247-4447
(512) 415-8727

HEREBY REQUEST A CONTESTED CASE
HEARING ON THE NOTICE OF APPLICATION AND
PRELIMANERY DECISION FOR LAND
APPLICATION PERMIT OF SEWAGE SLUDGE
PROPOSED PERMIT #WQ0004941000 BY
SYNAGRO OF TEXAS-CDR, INC
1002 VILLAGE SQUARE DRIVE, SUITE C
TOMBALL, TEXAS 77375

MW

FOR THE FOLLOWING REASON(S) THAT THE PROPOSED PERMIT OF SEWAGE SLUDGE WILL ADVERSLY AFFECT MY PROPERTY AND OR ACTIVITIES DUE TO:

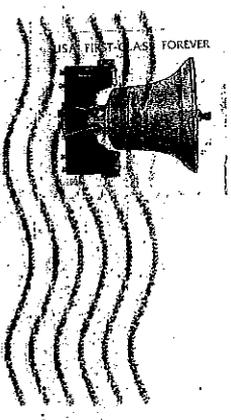

① The distance from the Emprenado Dr. property is very close to my neighborhood. In most cases less than 800 feet. In the event that there would be "RUN OFF" from this sludge it could affect my property.

② The stench would affect my health and I would not be able to comfortably be outdoors.

③ Having a sludge dumpsite next door will make my property value worthless.

RESPECTFULLY YOURS,

Alice A. Sustein

REQUEST FOR A PUBLIC MEETING

TEXAS
COMMISSION
ON ENVIRONMENTAL
QUALITY

2011 MAR -4 PM 2:46

CHIEF CLERKS OFFICE

PM OPA

MAR 07 2011

BY RY

TO THE EXECUTIVE DIRECTOR OF THE TEXAS COMMISSION ON ENVIRONMENTAL QUALITY:

I, AIDE A. SUSTAITA hereby request that a public meeting be held on the NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN A BENEFICIAL LAND USE PERMIT (PERMIT #WQ0004941000) by Synagro of Texas-CDR, Inc.

I have many questions and concerns on the impact that will be placed on our environment and living conditions if you authorize the land application for the use of wastewater treatment plant sludge on the adjacent 635.06 acres to the neighboring Colorado River Ranchette residents like me and our Colorado River.

The proposed site is within less than a mile to several feet from some of our residents' backyards. Some residents are still using water wells. There is concern of the hazardous sludge materials that may runoff during heavy rains. There is also concern for the quality of the air we will breathe due to the stench of the waste which would greatly affect those that are elderly and or ill.
