TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Subject: U.S. Ecology Texas, Inc. Permit/Compliance Plan Renewal and major amendment #50052, Section IIA: IX Operational Hours; and Section IIA: New Entrance; and Permit section I.D.; I.D. 9 (Table V.B. Uncovered Waste Storage).

Dear Sirs,

I oppose letting USET change their current hours of 7:00am to 8:00pm to a 24 hours a day, 7 days a week schedule. This facility has had several violations since the first permit was issued in 1973 and allowing them to operate 24 hours a day makes absolutely no sense when USET has had many incidents during normal business hours. 24 hour a day operations will increase the noise and smell around the site not to mention the probably of violations not being seen or reported. I repeat, USET does not have a good record in this regard!

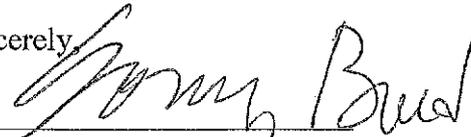

I oppose a permit for USET to have a new entrance on the western side of the facility because the new entrance would expose the local residents to additional truck traffic, noise, dust and odors.

I oppose a permit allowing USET to increase the capacity for uncovered waste storage because USET has been cited for not taking care of the containers outside the buildings.

With the prevailing South East wind in our area, the danger of toxins being blown offsite by the wind will create a hazard not only to the employees of USET but to all people and animals (wild and domestic) which are downwind of the facility. Not to mention, the farmland where crops are grown for human and animal consumption.

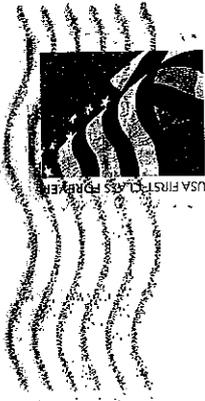

Why continue to issue permits that pollute the land, water and people that live anywhere near this facility. This not only affects the current residents but their children and grand children as the quality of life and the value of the land continues to decline.

Sincerely,

✓ 
Sonny Bond

August 28, 2011

SUBJECT: US Ecology Texas, Inc.
Permit/ Compliance Plan Renewal and Major Amendment, #50052
Section IIA; IX, Operational Hours; AND Section IIA: New Entrance;
AND Permit Section I.D;I.D.9 (Table V.B.) Uncovered Waste Storage

I OPPOSE allowing/ permitting USET to change the current 7:00AM to 8:00PM operating hours established in the 1999 permit (NOT up to 24 hours a day, 7 days a week) because:

- USET has had serious lapses in good operations management:
The facility has been cited for not using the Waste Analysis Plan.
There are citations for not implementing the Contingency Plan.
There are citations for not implementing the Inspection Plan.
These lapses have caused emissions, fires, and explosions.
Human health and the environment were endangered.
- Local residents would be deprived of overnight hours to rest, and therefore, have their health and well-being threatened.

I OPPOSE allowing/permitting USET to have a new entrance on the western side of the facility because:

- USET has already built a convenient private road and concrete bridge accessing the western portion of the facility.
- The proposed new entrance would create congested traffic in front of private residential homes and deprive the residents of safety, accessibility to their property, and the enjoyment of their property.

I OPPOSE permitting USET to increase capacity for Uncovered Waste Storage areas because:

- USET was cited for mismanagement of containers outside buildings.
- There is greater danger of toxins being blown off-site by high winds.

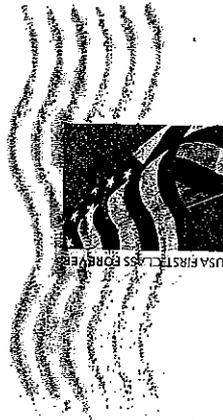

Please consider on-site inspection of the facility and a period of compliance before awarding a permit. Is USET actually exhibiting the commitments given in writing?

Sincerely,

The smells have been terrible at night,

Permit/ Compliance Plan Renewal and Major Amendment, #50052
Section IIA; IX: Operational Hours; AND Section IIA: New Entrance;
AND Permit Section I.D;I.D.9 (Table V.B.): Uncovered Waste Storage**

I OPPOSE allowing/ permitting USET to change the current 7:00AM to 8:00PM operating hours established in the 1999 permit (NOT 24 hours a day) because:

- I live nearby to the south; the winds blow frequently from the north during the late fall and winter and early spring toward my area.
- USET has had serious lapses in good operations management:
The facility has been cited for not using the Waste Analysis Plan, for not implementing the Contingency Plan, and for not implementing the Inspection Plan.

These lapses have sent emissions off-site; caused fires and explosions.

Human health and the environment were endangered.

- Residents would be deprived of overnight rest and their health threatened.

I OPPOSE allowing/permitting USET to have a new entrance on the western side of the facility because:

- USET has already built a convenient private road and concrete bridge accessing the western portion of the facility.
- The proposed new entrance would create congested traffic in front of private residential homes and deprive the residents of safety, accessibility to their property, and the enjoyment of their property.

I OPPOSE the increase capacity for Uncovered Waste Storage areas because:

- USET was cited for mismanagement of containers outside buildings.
- There is greater danger of toxins being blown off-site by high winds.
- My residence is effected when the wind blows from the north.

Please consider on-site inspection of the facility by qualified personnel and a period of monitored compliance before awarding a renewed permit and major amendment.

Sincerely, *Gino Elizondo*

I feel the expansion could end will put my family and neighbors at risk of health problems

CHIEF CLERKS OFFICE

September 20, 2011

SUBJECT: US Ecology Texas, Inc. (TECO): Permit Renewal #50052; Amendment Section IIA; IX, Operational Hours; AND Section IIA: New Entrance; Permit Section I.D;I.D.9 (Table V.B.) Uncovered Waste Storage

I OPPOSE allowing/ permitting USET to change the current 7:00AM to 8:00PM operating hours established in the 1999 permit (NOT 24 hours a day) because:

- My employees and I frequently operate farm equipment near the _____ and SE sides of the USET facility; we are close to the new cell 50 dumping site as well as the storage buildings plus processing and treatment buildings. The odors and noise are terrible.
- USET has had serious lapses in good operations management:
The facility has been cited for not using the Waste Analysis Plan, not implementing the Contingency Plan, and not implementing the Inspection Plan; emissions, fires, and explosions have resulted. Human health and the environment were negatively effected.
- Local residents would be deprived of night hours to rest, and therefore, have their health and well-being threatened.
- My employees and I would have increased exposure to the results of any activities on the USET property.

I OPPOSE allowing/permitting USET to have a new entrance on the western side of the facility because:

- USET has already built a convenient private road and concrete bridge accessing the western portion of the facility.
- The proposed new entrance would create congested traffic in front of private residential homes and deprive the residents of safety, accessibility to their property, and the enjoyment of their property.
- How would it effect my farming operation?

I OPPOSE the increase capacity for Uncovered Waste Storage areas because:

- USET was cited for mismanagement of containers outside buildings.
- There is greater danger of toxins being blown off-site by high winds.
- The farmland acres where my employees and I work are located to the South East from the uncovered storage area; we don't know the toxicity of the of stored materials that may blow off-site.

Please conduct on-site inspections of the facility with qualified TCEQ personnel and allow a monitored time of compliance before granting any permit; deny expansion.

Sincerely,

Elwood Knutty

Permit/ Compliance Plan Renewal and Major Amendment, #50052

Section IIA; IX: Operational Hours; AND Section IIA: New Entrance;

AND Permit Section I.D.; I.D.9 (Table V.B.): Uncovered Waste Storage

BY [Signature]

I OPPOSE allowing/ permitting USET to change the current 7:00AM to 8:00PM operating hours established in the 1999 permit (NOT 24 hours a day) because:

- I live nearby to the south; the winds blow frequently from the north during the late fall and winter and early spring toward my area.
- USET has had serious lapses in good operations management:
The facility has been cited for not using the Waste Analysis Plan, for not implementing the Contingency Plan; and for not implementing the Inspection Plan.

These lapses have sent emissions off-site; caused fires and explosions.

Human health and the environment were endangered.

- Residents would be deprived of overnight rest and their health threatened.

I OPPOSE allowing/permitting USET to have a new entrance on the western side of the facility because:

- USET has already built a convenient private road and concrete bridge accessing the western portion of the facility.
- The proposed new entrance would create congested traffic in front of private residential homes and deprive the residents of safety, accessibility to their property, and the enjoyment of their property.

I OPPOSE the increase capacity for Uncovered Waste Storage areas because:

- USET was cited for mismanagement of containers outside buildings.
- There is greater danger of toxins being blown off-site by high winds.
- My residence is effected when the wind blows from the north.

Please consider on-site inspection of the facility by qualified personnel and a period of monitored compliance before awarding a renewed permit and major amendment.

Sincerely,

[Signature]

My wife's throat has been irritated;
I am concerned about my three children.

September 06, 2011

SUBJECT: US Ecology Texas, Inc.
Permit/ Compliance Plan Renewal and Major Amendment, #50052
Section IIA: IX, Operational Hours; Section IIA: New Entrance; and Permit Section I.D.;I.D.9
(Table V.B.) Uncovered Waste Storage

I OPPOSE letting USET change their current hours of 7:00AM to 8:00PM to 24 hours a day, 7 days a week.

This facility has had several violations since the first permit was issued in 1973.

Why let them operate 24 hours a day when USET has had many incidents during their regular hours? The noise and smell would be around the clock.

I OPPOSE a permit for USET to have a new entrance on the western side of the facility because the new entrance would expose the local residents to additional truck traffic, noise, dust and odors.

I OPPOSE a permit allowing USET to increase the capacity for uncovered waste storage because USET has been cited for not taking care of the containers outside the buildings.

With the continued prevailing southeast wind, the danger of toxins being blown off-site by the wind will create a hazard not only to the employees but to all people and animals down wind---not to mention the damage to the farmland where crops are grown for human consumption.

Why continue to issue permits that pollute the land, water, and people that surround this facility? This not only affects the current residents but their children and grand children as the quality of life and value of the land continues to decline.

In closing, while you are eating lunch today, have you given any thought to the food that you are eating? Was it grown next to a toxic waste dump? What about the groundwater that may be used to water the crops--- is it polluted?

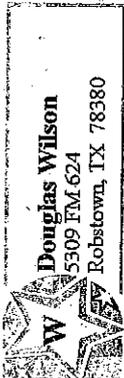

Thank for your time,

Doug Wilson
