Dear Ms. Bohac:

I am a property owner that would be affected by the application submitted by Chappell Hill Service Co LLC, Application # WQ0015031001 and therefore am opposed to this application.

This water would be going through a creek that is on the backside of my property and I have great concerns for contamination and it could be harmful to humans as well as to my cattle, not to mention the possible odor and pollution.

I feel strongly this would bring down the value of my property. If flooding were to occur this water would go over a hay meadow where I harvest hay for my cattle, I do not see this as being safe.

Should you require additional information you may contact me at 979/836-0080.

Sincerely,

Alvin P. Malinowski

Dear Ms. Bohac:

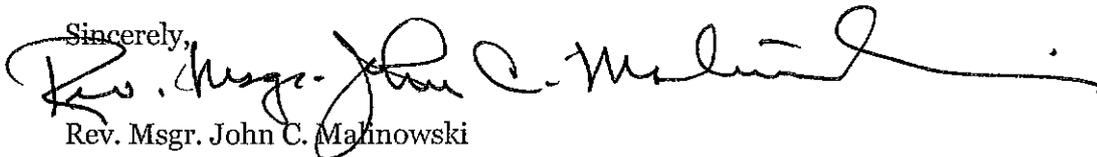

My property would be affected by the application submitted by Chappell Hill Service Co LLC, Application #WQ0015031001 and therefore I am opposed to this application

This water would be going through a creek that encircles my property on the backside. I don't feel this small creek is adequate to hold the amount of water they are proposing to release and with added rain will cause a flooding problem onto my hay meadow and surrounding pasture. I see this as contamination to my property as I know there will be chemical residue and have concern for the odor and other health issues it may present.

Of greater concern is that it will devalue my property considerably as well as the adjoining properties.

Should you require additional information you may contact me at 979-775-5165.

1 What are Chappell Hill's greatest strengths?

- 1 Talents of residents, unused, unsolicited!
- 2 Diversity of People
- 3 Nearby churches
- 4 Lower taxes
- 5 Wildflowers
- 6 Festivals
- 7 Unincorporated

2 What are Chappell Hill's greatest weaknesses?

- 1 "None, leave it alone "=Death!
- 2 Lack of sewer for in town residents
- 3 We can drive to jobs.
- 4 Drainage
- 5 Bicyclists
- 6 More eating places
- 7 Lack of high speed internet outside 4 mile radius
- 8 Lack of widely available broadband, cable or DSL internet.
- 9 Public Services
- 10 Too much friction in the community.
- 11 People do not get along.
- 12 More independent owned restaurants and coffee shops
- 13 Divisive group who savagely and unethically opposed incorporation.

Online Comments

- 1 Faith-based community support for neighbors.
- 2 A community people with faith in God, and the divinity of Christ. A people that believes in the foundations that our great country was built upon. That still believes "In God we Trust" is at the very root of our strength.
- 3 Festivals; Bevers:
- 1 a sense of community that transcends race & heritage.
- 2 the fighting & back stabbing that occurs amongst the current leadership. It turns off people that may want to become involved in the community but don't because they don't want to get caught in the middle where they have friends on both sides and may be forced to choose one friend over another. IT IS VERY SAD TO WATCH.
- 3 The mere words "governing body" gives me the shakes. There probably is a need for young leaders, but I think it would be prudent to avoid nepotism as many of the conflicts in CH carry a scent of long-time feuds. The younger leaders must be properly vetted and will no doubt have more radical idea. We are after all, in large part, a retirement community and many of us moved here to escape the urbanization. Once Pandora's Box is opened, it is near impossible close it.
- 4 misplaced Houstonians who think they know 'better'
- 5 The lack of unity and humility in the leadership. I believe we all would like to preserve the quality of life we have here, but it seems as if there is a power struggle for control. I think we are all after the same thing and probably believe the same steps are necessary for that preservation. There needs to a spirit of cooperation promoted as opposed to a spirit of fear if we want to achieve our goals.
- 6 Lack of a long range plan that can be carried out through
- 7 More restaurants and businesses

- 6 Leave it the way it was 20 years ago.
- 7 Tourism shopping.
- 8 Look at Round Top's solution at some control of residential & commercial construction.
- 9 Lets hope there is no growth mode.
- 10 We came to the country to get away from growth!
- 11 None of this matters without incorporation.

6 Currently, there are plans being developed by the Gulf Coast rail District to bring commuter rail from Houston to Hempstead and on to Hearne.
 What is your opinion of the impacts to your lifestyle if these plans are realized?

- 1 No, don't even want to discuss
- 2 It would be fun!
- 3 Don't know
- 4 Has to go through Chappell Hill to actually increase festival/business impact
- 5 It won't happen in our lifetime & I don't care.
- 6 It will never happen.
- 7 It would encourage low income housing/apt not wanted.
- 8 Mixed emotions, Houston is coming whether we like it or not.
- 9 Rails impacts can be mitigated if handled properly.

7 The question I wanted you to ask but you did not ask is...

- 1 Is all this presentation a prelude to encourage incorp?
- 2 How would you like higher taxes (and a bunch of greedy people) I better not write this down
- 3 How do you feel about incorporation?
- 4 Future Trends Committee - Who is this?
- 5 What's the rumor of billing a household for water coming out of their own well?

- 1 don't know enough about this to comment... but can't rail station be just as scary as a bus station?
- 2 I don't commute, but many do. This issue, in my view, must be carefully weighed against the inherent consequences of a rail. While it might ease the tireless commute of some, it will also advance easy access and easy escape for those of criminal intent. I have personally witnessed this in other municipalities. The convenience for some comes with drawbacks. Must be further discussed.
- 3 what community values? flying the confederate fl ag? celebrating confederate heros day, instead of MLK? What century are we living in?
- 4 All possibilities good or bad will be determined on how we embrace the growth that is inevitable.
- 5 Make me want to go downtown Houston by rail.

- 1 What about increased law support? It is my opinion we need more protection as many of us are alone on our property alot of the time. How about a Buddy System or some form of Neighborhood Watch? Also I believe there should be regular classes given locally in CPR and First Responder Trauma Relief.
- 2 What about Brenham moving east, what is Chappell Hill's plans on that topic?
- 3 What about the horrible red sign at Rattlers? has anyone talked to Lois Colquist about it?
- 4 Is a more reasonable approach to considering incorporation possible, in view of past acrimony?
- 5 Thank you to all, for your service and commitment to our town!
