RE: Permit #WQ0004989000

Dear Chief Clerk,

This letter is to respectfully request a reconsideration of the Directors decision in regards to permit #WQ0004989000. This permit and request by Terra Renewal Services does not respect or comply with the 750' buffer zone requested by EPA40CFR PART 503.

The application of human sludge (Type B Bio-Solids) to tracts 10A and 10B will significantly impact the pending development of property we own adjacent to the proposed application.

We also ask that concerns about the loss of financial value of our properties be considered. The application of concentrated human feces, (Type B Bio -Solids), that contain active disease bearing material, will decrease interest in the purchase of our properties. Our opinion is that this application will reduce the current market value of our properties for sale.

Should the applicant, Terra Renewal Services withdraw and remove sites 10A and 10B from their application; we would not oppose the amended application.

We also respectfully request that we be informed of any additional Reconsideration Requests or Contested Case Hearing Requests concerning this application. Thank you for addressing our concerns.

Sincerely,

Jana Hayes

Dear Sirs:

We write to address our concerns involving permit application WQ0004989000. This application asks for permission to apply human sludge, [Type B biosolids] to property adjacent to land that we own, or have interest in.

We oppose the application as submitted. The proposed application areas labeled 10A & 10B [see site map] fall within the 750' buffer zone requested by EPA 40 CFR Part 503. Any application of of human sludge [Type B biosolids] would deny our rights as property owners to develop our properties as we choose, [I.E. building a home and habitation of same]. It also significantly impacts the value of our properties.

Should the applicant, Terra Renewal Services withdraw and remove sites 10A & 10B, which fall within 750' buffer zone, from its' site map and application, we would not oppose the amended application.

Thank you for addressing our concerns. Should you need to contact us please write.

Sincerely Yours,

Jana Hayes

RE: Proposed Permit No. WQ0004989000

Gentlemen,

I have been retained to represent Clay Jackson and Caleb Jackson who own properties No. 43313 and 43310, respectively which will be affected by the proposed permit. Their properties are contiguous with properties upon which a permit is sought for the deposit of wastewater treatment plant sludge.

My clients hereby request a contested case hearing and furnish the following information in connection with this request:

Names and Addresses: Clay Jackson, P.O. Box 117, Powell, Texas 75153
Caleb C. Jackson, 1715 Elmwood Ave., Corsicana, Texas 75110

Telephone Numbers: Clay Jackson, (903) 641-8705
Caleb Jackson, (903) 654-0996

Location and Distance to Proposed Facility: Contiguous/ Adjoining; tracts 43313 and 43310, described in permit application

Description of Adverse Effects: Clay Jackson and Caleb Jackson bought the subject properties within the past 10 years, specifically for the purpose of investment; and as a hedge against inflation. The properties are used only incidentally for agricultural properties. The use anticipated by owners would be sales for rural homesites on relative large acreage such as the sites which now exist on adjoining properties. Spreading of human waste in the form of treatment plant sludge would significantly devalue such prop-

ties with severe economic impact to the owners. Such owners have consulted with individuals having knowledge of such activities in other locations and have been made aware that such activities cannot be implemented without significant olfactory impact which can be mitigated but not eliminated. Additionally, commercial waste delivery vehicles traveling county roads in this area would cause an additional diminution of property values in this area, particularly in the circumstance of delivery of human waste to adjoining properties. Such activities would specifically affect Clay Jackson and Caleb Jackson who will suffer adverse economic impact related to the diminution of values of their properties.

Please keep me informed of all actions with respect to the subject application. A CONTESTED CASE HEARING IS SPECIFICALLY REQUESTED.

With regards,

John H. Jackson
