CHIEF CLERKS OFFICE

SUBJECT: Application and Intent to Obtain Water Quality Permit Renewal

REFERENCE: Permit No. WQ0010470002

MWD  
89983

The purpose of this letter is to request a public hearing on the application for renewal of Permit No. WQ0010470002. The notice of said application receipt appeared in the Temple Daily Telegram on November 26, 2013.

This renewal request has raised questions and concern among many of the citizens who live on or near or own land on or near the "unnamed tributary, Little Elm Creek, Big Elm Creek, and the Little River". It is our understanding that the domestic wastewater treatment facility located at 2515 East Avenue H, Temple, in Bell County, Texas 76501 was going to cease discharging treated water into the "unnamed tributary" and that all water was to be diverted to the new Panda Electric Generating plant. While many persons along the waterways that received the treated water were not pleased with this announcement, there was not much action they could take.

In the May 11, 2013 Temple Daily Telegram there was a notice that the City of Temple experienced "significant" wastewater overflows at four locations. Citizens were urged to exercise caution in and around these affected areas (Doshier Farm Wastewater Treatment Plant at 2515 E. Avenue H was one of the overflow plants listed.) including nearby drainage ditches and small streams. The article also stated that Public Works crews were on-site performing cleanup and disinfection of these areas.

In the November 1, 2013 Temple Daily Telegram another notice of "significant" wastewater overflows was reported by Deborah McKeon, a Telegram Staff Writer. Once again the Doshier Farm Wastewater Treatment Plant at 2515 E. Avenue H was listed.

The timing of this application has many citizens concerned about the actions of the City of Temple regarding the discharge of wastewater from the Doshier Farm Wastewater Treatment Plant when there should be no need for the application if the treated wastewater is going to be piped to the Panda Electric Generating plant.

A public meeting would allow these concerned citizens the opportunity to ask questions and get answers to those questions.

Yours truly,

### City of Temple Wastewater Overflows

TEMPLE, TX, - May 9, 2013 - As a result of storm related damage, electrical power outages, and rainfall received yesterday afternoon, the City of Temple's wastewater system has experienced significant wastewater overflows at the following locations:

- 2515 E. Avenue H (Doshier Farm Wastewater Treatment Plant) - 400,000 gallons
- 4611 Chestnut (Hickory Lift Station) - 46,000 gallons
- 119 N. 50th Street (Williamson Creek Lift Station) - 23,000 gallons
- 404 Friars Creek - 9,000 gallons

Citizens are urged to exercise caution in and around these affected areas, including nearby drainage ditches and small streams. Public Works crews are on-site performing cleanup and disinfection of these areas. These events in no way harm the City of Temple's water supply. City of Temple residents should not experience any interruption of water services.

TEMPLE, TX, - May 9, 2013 - As a result of storm related damage, electrical power outages, and rainfall received yesterday afternoon, the City of Temple's wastewater system has experienced significant wastewater overflows at the following locations:

- 2515 E. Avenue H (Doshier Farm Wastewater Treatment Plant) - 400,000 gallons
- 4611 Chestnut (Hickory Lift Station) - 46,000 gallons
- 119 N. 50th Street (Williamson Creek Lift Station) - 23,000 gallons
- 404 Friars Creek - 9,000 gallons

Citizens are urged to exercise caution in and around these affected areas, including nearby drainage ditches and small streams. Public Works crews are on-site performing cleanup and disinfection of these areas. These events in no way harm the City of Temple's water supply. City of Temple residents should not experience any interruption of water services.

## 11-1-13 Heavy rains, flooding sweep across Central Texas

BY DEBORAH McKEON  
TELEGRAM STAFF WRITER

Heavy rainfall Wednesday night and early Thursday morning led to road closures and fast-water rescues in Bell County and surrounding areas.

Some areas of Temple received more than 6 inches, while others had around 2 inches, according to the National Weather Service. Little River-Academy had 4.53 inches, while the Stillhouse Hollow Lake and Lake Belton areas each received about 1.5 inches. Cameron registered 1.10 inches.

The city of Temple announced late Thursday afternoon that storm-related damage, rainfall and electrical surges caused significant wastewater overflows at several locations:

- 2515 E. Avenue H (Doshier Farm Wastewater Treatment Plant) — 300,000 gallons.
- 4320 Lions Park — 60,000 gallons.
- 2402 S. 61st St. — 25,000

## NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN WATER QUALITY PERMIT RENEWAL

PERMIT NO. WQ0010470002

**APPLICATION.** City of Temple, 3210 East Avenue H, Building A, Temple, Texas 76501, has applied to the Texas Commission on Environmental Quality (TCEQ) to renew Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0010470002 (EPA I.D. No. TX00047651) to authorize the discharge of treated wastewater at a volume not to exceed an annual average flow of 7,500,000 gallons per day. The domestic wastewater treatment facility is located at 2515 East Avenue H, Temple, in Bell County, Texas 76501. The discharge route is from the plant site to an unnamed tributary; thence to Little Elm Creek; thence to Big Elm Creek; thence to the Little River. TCEQ received this application on November 5, 2013. The permit application is available for viewing and copying at Department of Public Works, 3210 East Avenue H, Building A, Temple, Texas. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=31.077222&lng=-97.318055&zoom=13&type=>

**ADDITIONAL NOTICE.** TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.

**PUBLIC COMMENT / PUBLIC MEETING.** You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

**OPPORTUNITY FOR A CONTESTED CASE HEARING.** After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in state district court.

**TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST:** your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; and, the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission will only grant a contested case hearing on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on issues that were raised in timely filed comments that were not subsequently withdrawn. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.

**MAILING LIST.** If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

**AGENCY CONTACTS AND INFORMATION.** All written public comments and requests must be submitted to the Office of the Chief Clerk, MC 105, TCEQ, P.O. Box 13087, Austin, TX 78711-3087 or electronically at [www.tceq.texas.gov/about/comments.html](http://www.tceq.texas.gov/about/comments.html). If you need more information about this permit application or the permitting process, please call TCEQ Public Education Program, Toll Free, at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040. General information about TCEQ can be found at our web site at [www.tceq.texas.gov](http://www.tceq.texas.gov).

Further information may also be obtained from City of Temple at the address stated above or by calling, Ms. Nicole Torralva, Public Works Director, at (254) 298-5621.

## NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN WATER QUALITY PERMIT RENEWAL

PERMIT NO. WQ0010470002

**APPLICATION.** City of Temple, 3210 East Avenue H, Building A, Temple, Texas 76501, has applied to the Texas Commission on Environmental Quality (TCEQ) to renew Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0010470002 (EPA I.D. No. TX0047651) to authorize the discharge of treated wastewater at a volume not to exceed an annual average flow of 7,500,000 gallons per day. The domestic wastewater treatment facility is located at 2515 East Avenue H, Temple, in Bell County, Texas 76501. The discharge route is from the plant site to an unnamed tributary; thence to Little Elm Creek; thence to Big Elm Creek; thence to the Little River. TCEQ received this application on November 5, 2013. The permit application is available for viewing and copying at Department of Public Works, 3210 East Avenue H, Building A, Temple, Texas. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/tb610/index.html?lat=31.07722&lng=-97.318055&zoom=13&type=r>

**ADDITIONAL NOTICE.** TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.

**PUBLIC COMMENT / PUBLIC MEETING.** You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

**OPPORTUNITY FOR A CONTESTED CASE HEARING.** After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in state district court.

**TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST:** your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; and, the statement "I/we request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission will only grant a contested case hearing on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on issues that were raised in timely filed comments that were not subsequently withdrawn. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.

**MAILING LIST.** If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.

**PUBLIC COMMENT / PUBLIC MEETING.** You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

**OPPORTUNITY FOR A CONTESTED CASE HEARING.** After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in state district court.

**TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST:** your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; and, the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission will only grant a contested case hearing on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on issues that were raised in timely filed comments that were not subsequently withdrawn. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.

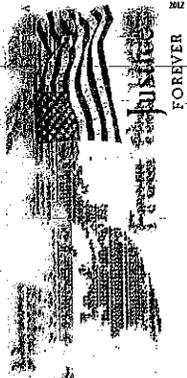

**MAILING LIST.** If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

**AGENCY CONTACTS AND INFORMATION.** All written public comments and requests must be submitted to the Office of the Chief Clerk, MC 105, TCEQ, P.O. Box 13087, Austin, TX 78711-3087 or electronically at [www.tceq.texas.gov/about/comments.html](http://www.tceq.texas.gov/about/comments.html). If you need more information about this permit application or the permitting process, please call TCEQ Public Education Program, Toll Free, at 1-800-687-4040. Si desea información en Español, puede llamar al 1-800-687-4040. General information about TCEQ can be found at our web site at [www.tceq.texas.gov](http://www.tceq.texas.gov).

Further information may also be obtained from City of Temple at the address stated above or by calling, Ms. Nicole Torralva, Public Works Director, at (254) 298-5621.

SUBJECT: Application and Intent to Obtain Water Quality Permit Renewal

REFERENCE: Permit No. WQ0010470002

The purpose of this letter is to request a public hearing on the application for renewal of Permit No. WQ0010470002. The notice of said application receipt appeared in the Temple Daily Telegram on November 26, 2013.

This renewal request has raised questions and concern among many of the citizens who live on or near or own land on or near the "unnamed tributary, Little Elm Creek, Big Elm Creek, and the Little River". It is our understanding that the domestic wastewater treatment facility located at 2515 East Avenue H, Temple, in Bell County, Texas 76501 was going to cease discharging treated water into the "unnamed tributary" and that all water was to be diverted to the new Panda Electric Generating plant. While many persons along the waterways that received the treated water were not pleased with this announcement, there was not much action they could take.

In the May 11, 2013 Temple Daily Telegram there was a notice that the City of Temple experienced "significant" wastewater overflows at four locations. Citizens were urged to exercise caution in and around these affected areas (Doshier Farm Wastewater Treatment Plant at 2515 E. Avenue H was one of the overflow plants listed.) including nearby drainage ditches and small streams. The article also stated that Public Works crews were on-site performing cleanup and disinfection of these areas.

In the November 1, 2013 Temple Daily Telegram another notice of "significant" wastewater overflows was reported by Deborah McKeon, a Telegram Staff Writer. Once again the Doshier Farm Wastewater Treatment Plant at 2515 E. Avenue H was listed.

The timing of this application has many citizens concerned about the actions of the City of Temple regarding the discharge of wastewater from the Doshier Farm Wastewater Treatment Plant when there should be no need for the application if the treated wastewater is going to be piped to the Panda Electric Generating plant.

A public meeting would allow these concerned citizens the opportunity to ask questions and get answers to those questions.

Yours truly,

CHIEF CLERK'S OFFICE

### City of Temple Wastewater Overflows

TEMPLE, TX, - May 9, 2013 - As a result of storm related damage, electrical power outages, and rainfall received yesterday afternoon, the City of Temple's wastewater system has experienced significant wastewater overflows at the following locations:

- 2515 E. Avenue H (Doshier Farm Wastewater Treatment Plant) - 400,000 gallons
- 4611 Chestnut (Hickory Lift Station) - 46,000 gallons
- 119 N. 50th Street (Williamson Creek Lift Station) - 23,000 gallons
- 404 Friars Creek - 9,000 gallons

Citizens are urged to exercise caution in and around these affected areas, including nearby drainage ditches and small streams. Public Works crews are on-site performing cleanup and disinfection of these areas. These events in no way harm the City of Temple's water supply. City of Temple residents should not experience any interruption of water services.

### City of Temple Wastewater Overflows

TEMPLE, TX, - May 9, 2013 - As a result of storm related damage, electrical power outages, and rainfall received yesterday afternoon, the City of Temple's wastewater system has experienced significant wastewater overflows at the following locations:

- 2515 E. Avenue H (Doshier Farm Wastewater Treatment Plant) - 400,000 gallons
- 4611 Chestnut (Hickory Lift Station) - 46,000 gallons
- 119 N. 50th Street (Williamson Creek Lift Station) - 23,000 gallons
- 404 Friars Creek - 9,000 gallons

Citizens are urged to exercise caution in and around these affected areas, including nearby drainage ditches and small streams. Public Works crews are on-site performing cleanup and disinfection of these areas. These events in no way harm the City of Temple's water supply. City of Temple residents should not experience any interruption of water services.

## 11-1-13 Heavy rains, flooding sweep across Central Texas

BY DEBORAH McKEON  
TELEGRAM STAFF WRITER

Heavy rainfall Wednesday night and early Thursday morning led to road closures and fast-water rescues in Bell County and surrounding areas.

Some areas of Temple received more than 6 inches, while others had around 2 inches, according to the National Weather Service. Little River-Academy had 4.53 inches, while the Stillhouse Hollow Lake and Lake Belton areas each received about 1.5 inches. Cameron registered 1.10 inches.

The city of Temple announced late Thursday afternoon that storm-related damage, rainfall and electrical surges caused significant wastewater overflows at several locations:

- 2515 E. Avenue H (Doshier Farm Wastewater Treatment Plant) — 300,000 gallons.
- 4320 Lions Park — 60,000 gallons.
- 2407 S. 61st St. — 25,000

NOV 26 PAPER  
2013

## NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN WATER QUALITY PERMIT RENEWAL

PERMIT NO. WQ0010470002

**APPLICATION.** City of Temple, 3210 East Avenue H, Building A, Temple, Texas 76501, has applied to the Texas Commission on Environmental Quality (TCEQ) to renew Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0010470002 (EPA I.D. No. TX0047651) to authorize the discharge of treated wastewater at a volume not to exceed an annual average flow of 7,500,000 gallons per day. The domestic wastewater treatment facility is located at 2515 East Avenue H, Temple, in Bell County, Texas 76501. The discharge route is from the plant site to an unnamed tributary; thence to Little Elm Creek; thence to Big Elm Creek; thence to the Little River. TCEQ received this application on November 5, 2013. The permit application is available for viewing and copying at Department of Public Works, 3210 East Avenue H, Building A, Temple, Texas. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assess/public/nb610/index.html?lat=31.077222&lng=-97.318055&zoom=13&type=>

**ADDITIONAL NOTICE.** TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.

**PUBLIC COMMENT / PUBLIC MEETING.** You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

**OPPORTUNITY FOR A CONTESTED CASE HEARING.** After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in state district court.

**TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST:** your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; and, the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

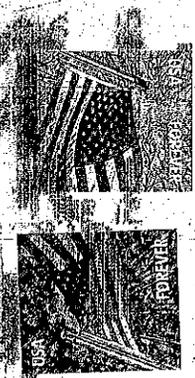

The Commission will only grant a contested case hearing on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on issues that were raised in timely filed comments that were not subsequently withdrawn. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.

**MAILING LIST.** If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk.
