RE: TPDES Permit No. WQ0001481000

Dear Mr. Hyde:

A number of our constituents residing in Hood County have expressed concerns and questions regarding the pending renewal application for TPDES Permit No. WQ0001481000, related to the continued discharge up to approximately 1 billion gallons of once-through cooling water and previously monitored effluent per day into Lake Granbury.

Members of the public and local elected officials are seeking information related to this permit, and we would respectfully request that TCEQ staff host a public meeting in Granbury to answer questions about the application and to provide the opportunity to submit comments related to the application before the application is eligible for decision by the Commission.

Thank you for your consideration of our request. We look forward to working with you on addressing the concerns of the citizens of Granbury and Hood County.

Sincerely,

Brian Birdwell
