**COMMENTS:** Lake Granbury is already devastated. First it was Comanche Peak wanting more water now it is Cleburne power plants wanting water. Also read the City of Mineral Well will be seeking water from the Brazos. Where do they think all this water is coming from?????????????. My property and all others on Lake Granbury has lost thousands of dollars in value and the resale market is just about dead. Realtors done want to list or even show lake side properties anymore. This is very serious business which requires an open public

*Or*

hearing, not some hidden notice in an obscure paper like the Hood County News. Do the honorable thing and hold a public hearing so the Public can be heard!!!!!!!!!!
