COMMENTS: I request a public hearing for the proposed batch concrete plant by CEMEX. Our neighborhood is already surrounded by landfills, rock crushing plants etc. I am sick and tired of being sick and tired. We have our share of these type businesses. The air we breathe is bad enough. We request an opportunity to express our opposition to this plant.

COMMENTS: To all involved in the decision making for permit #123329 I am begging you not to allow this permit in our community. The damage that these types of facilities can do to a human being is inhumane. I am speaking because I have experienced what the silica in the sand can do if the lungs are exposed to it. If this type sand is used to make whatever will be in the products produced it can be deadly. I do not believe that there is a way to keep the dust from this facility from drifting into our community which is less than five miles of my

MW

home. If wind drifts can bring in matters from Mexico and other places what can you do to control the wind drifts of matters from this facility. My heart is bleeding right now as I just lost my husband to Silicia exposure two months and five days ago today. I do not know of any method to reverse the effects once a human being is exposed to SILICIA. I hope you realize we are human beings as TCEQ is so ready to allow these types of facilities in black and brown concentrated communities. I am requesting that TCEQ provide our community a hearing on said permit immediately as our community at this moment is surrounded by facilities that can and may affect our health and quality of life. The cancer rate in our community is at an alarming proportion at this time.

COMMENTS: Enormous strides in upgrading the appearance, value, environment and quality of life are being made within our community. This kind of business will contribute to unclean air circulated in our community and the heavy trucks will add to the destruction of our streets. My community is very important to me. Please consider a public hearing. Thanks.

COMMENTS: Enough is enough, We do not need anymore of these types of businesses that will have heavy trucks traveling down Holmes Road destroying the streets and sending more dust and other substances into our community. Such businesses will stifle other types of businesses that will locate along Holmes Road when its get an upgrade. The other day a friend told me there were at least five large truck emitting so much dust from

mm

the shoulder of the street that she could barely see. Dust travels into our homes and our lungs and I have a 5 and 8 year old I need to protect. Stop it!

COMMENTS: There's already a concrete batch plant on Holmes Road. There's dust in the air that blows miles when the wind blows. Holmes Road has pot holes, it's uneven from Hiram Clarke to Fannin due to those cement trucks. I'm asking for a public meeting to discuss these problem and more.

CM
