RE: Withdrawal of Contested Case Hearing Request Regarding the Renewal of Texas Air Quality Permit No. 933 for Luminant Generating Company LLC's Martin Lake Steam Electric Station

Dear Ms. Bohac:

Please be advised that Environmental Integrity Project and Sierra Club WITHDRAW their contested case hearing request dated April 14, 2014, with respect to the above-referenced air permit application to the Texas Commission on Environmental Quality.

The Executive Director contends that state law prohibits the Commission from granting a contested case hearing request on this renewal application. Therefore, parties need not request a contested case hearing to exhaust their administrative remedies and preserve their right to judicial review of this permit. Please note that Environmental Integrity Project and Sierra Club do not withdraw our comments; we are only withdrawing our request for a contested case hearing.

Respectfully,
