COMMENTS: In addressing the TCEQ letter dated June 8, 2015 to Bridget Bohac, Chief Clerk and authored by Daniel Ingersoll, Staff Attorney. It is stated on page 11 that my property is not impacted due to its physical location. However, in the map "Attachment A" it is clearly incorrect and the location as designated is in the wrong place by afar. Therefore, I respectfully disagree that my property will not be affected. In addition to the

comments addressed within the letter, the lack of oxygen in the effluent will also produce foul odors which will travel via the constant prevailing south east winds that we have here in our outdoor backyard that we utilize frequently during the summer. I have inquired to the director of utilities at the Clear Lake City Water Authority about the odors and the response was that if we get enough complaints, we will treat it to a further degree. Thank you, Steven W. Baxter
