COMMENTS: This permit should be denied! Lake Granbury is at record level lows (9 feet below normal) and does not have the water necessary to send to squaw creek to honor this request.

COMMENTS: I believe this permit should be rejected UNTIL Lake Granbury is at a FULL level and stays within within 0' - 3' below full stage, permanently. Incidentally, this fiasco with Lk Granbury has lost me \$75,000.00 in home evaluation and a dry canal to which I pay waterfront taxes on! Also, where was the TEQC when the millions of fish and shell-fish died? we still don't know the full impact on the birds yet.
