Subject: Contested Case Hearing Request Withdrawal  
Halyard Energy Henderson, LLC  
Application for New Source Review Permit No. 122733

Chief Clerk:

With this letter I am withdrawing the contested case hearing request and comments that I submitted to the Texas Commission on Environmental Quality ("TCEQ") regarding Halyard Energy Henderson, LLC's application for New Source Review Permit No. 122733. I submitted the hearing request and comments by letter dated September 29, 2014, sent by U.S. mail (received by TCEQ on October 2, 2014).

I no longer request that a contested case hearing be held regarding that application.

If you have any questions about this withdrawal letter, please feel free to contact me.

Thank you for your assistance.

Sincerely,

**REQUEST FOR CONTESTED CASE HEARING REGARDING HALYARD ENERGY  
HENDERSON, LLC PROPOSED POWER PLANT IN LARUE, TX (Permit#122733)**

**I request a contested case hearing based on being personally adversely affected as follows:**

I will be personally affected by the permit decision and air emissions in ways not shared by the general public.

I suffer from life threatening COPD, I am oxygen dependent and am on several other medications in order to maintain my health concerns. The location of the proposed power plant from my location is only 2/10 of a mile and will most definitely interfere with the use and enjoyment of my property.

Any emissions could seriously impact my health and even cause me not to be able to live there.

I appreciate your careful consideration of my concerns.

Respectfully,

2014 OCT -1 AM 9:52  
CHIEF CLERKS OFFICE

**We Request a Contested Case Hearing Regarding Halyard Energy Henderson, LLC Proposed Power Plant in LaRue, Texas (Permit # 122733)**

**We request a contested case hearing based on being personally affected as follows:**

We consider ourselves and our property to be personally affected by the permit decision and that the permit would specifically affect our ways not shared by the public.

We have several concerns to the proximity of the electric plant.  
Health, proximity, noise, lights, livestock, crops and well  
Health related- My husband has asthma, since childhood and has been diagnosed with COPD  
Remember for the next two, sound travels farther in the country.  
Proximity- we have the natural gas generator/compressor, which is located approximately 250ft from our home located to the right of us. This will generate loud noise, and bright lights.  
The proposed electric plant- this plant will be in our backyard, approximately 300ft-350ft from our back porch.  
The plant, as a concern of ours, will produce emissions/pollutants that we will be breathing and the effects to the surroundings.  
This will also be a source of noise, from the plant itself, along with the cars and the workers, at our backyard.  
Due to the light that will surround the plant will make it like daylight in our yard and in our home.  
To the left of us, on our property, are the transmission lines, which were there when we purchased the property. They were ok by themselves.  
We also have livestock, crops, well and a rescue dog that was abused and is scared of any loud noise. She will have a hard time going outside.

If the plant goes in, it will not only affect my husband's health, which is a great concern, but it will affect way of life. We will no longer be able to enjoy outdoors, due to the noise. This is our dream home.

People say that no one cares. I hope that someone still has a heart and will understand the affects that this plant will have. No one should have to live in a box with three sides of hazardous places. I know I would not wish this on anyone and I hope the people of HEH fill the same. Would they want to live like this?

I thank you for your careful consideration of our concerns  
Respectfully

Steve and Beckie Knox 10801 Cr 4520 Larue, Tx. 75770 903-724-0077

**I REQUEST A CONTESTED CASE HEARING REGARDING HALYARD ENERGY HENDERSON, LLC PROPOSED POWER PLANT IN LARUE, TEXAS (PERMIT #122733)**

*I request a contested case hearing based on being personally effected as follows:*

I consider myself and my property to be personally affected by the permit decision and that the permit would specifically effect my ways not shared by the public. I have several concerns to the proximity of the electric plant:

- Health
- Proximity
- Noise
- Lights
- Livestock
- Crops
- Water well

Health: I have asthma and have since I was a young child. I have extensive medical records to show the severity of my asthma condition.

Proximity: Keep in mind this is a rural area and ambient noise levels are at minimums.

1. There is a natural gas generator/compressor construction and soon operation that is approximately 350 yards from my house. This will produce bright lights and loud ambient noise not native to the area.

9/29/2014

*Handwritten initials/signature*

Drew Wilcox

2. The proposed electric plant; will be in close proximity to my back yard (400ft. to 450ft.) where myself, wife and young children enjoy the outdoors and rural living. The plant would produce the following.

- Increased loud noises. (the plant itself, workers, cars)
- Increased emission/pollutants (This will affect my asthma)
- Increased ambient light during nighttime hours (My close proximity increases the effect on my residents).
- Reduction in the natural wildlife and their habitats.

The world is full of companies and individuals that have the attitude; if it does not affect me directly why should I care? I invoke your better nature to consider this with all responsibility. Please do not allow this to succumb on deaf ears.

**IF THE PROPOSED POWER PLANT IS BUILT IT WILL AFFECT MY HEALTH AND MY FAMILIES WAY OF LIFE.**

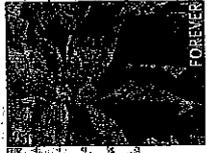

*Thank you for your careful deliberation of my concerns.*
