Re: Water Quality Permit WQ0013796001

Dear Ms. Bohac:

It has come to my attention that 8 Mile Park LP has submitted an application to amend its wastewater discharge permit (WQ0013796001).

A group of citizens in my legislative district have shared their concerns regarding this application given that it would reduce the wastewater monitoring of the treatment plant from five times per week to quarterly. In the interest of protecting the San Bernard River, and in recognition of the multiple violations committed by 8 Mile Park LP in the past, I feel strongly that the public should be granted the opportunity to express these concerns in an open forum.

It is my understanding that the application is currently under technical review by TCEQ staff with the potential to undergo changes. If and when it is deemed technically complete, I respectfully request that TCEQ conduct a public meeting to allow interested parties to share their concerns and opposition to this amendment.

Thank you for your consideration of this request. If you have an questions, please do not hesitate to contact me or my Chief of Staff, Shera Eichler, at 512-463-0564.

Sincerely,

Dennis Bonnen
