Re: Proposed TCEQ Water Quality Permit No WQ0015241001
To Serve Proposed McCrary Meadows Development
Fort Bend County, Texas

Dear Chief Clerk:

On October 27, 2014 you received a letter from me requesting a Contested Case Hearing regarding the Water Quality Permit No WQ0015241001 on McCrary Road, Fort Bend County. Since you have received that letter, I have discussed steps and improvements implemented by the developer of the community and applicant of the permit.

In light of the changes, I am sending this letter to withdraw my request for a Contested Case Hearing regarding this permit. Thank you for your attention to this matter.

Sincerely

David & Lisa Denton

Re: **Proposed Permit No.WQ0015241001, RN Number RN107199325**
Reference previous letter of July 16, 2014

Dear Chief Clerk,

I would like to request a Public Hearing be held concerning the installation of a sewer plant on McCrary Road in Fort Bend County.

The concerns are:

1. The extended drainage path of the effluent not being in the proper location; at a point closest to the waters of the US. (In fact the proposed location on the furthest Northwest Corner of the property is actually the furthest distance possible from the waters of the US on the developers property),
2. Pollution of the drainage water way resulting from the open lateral drainage of the effluent,

Our interest in requesting a Public Hearing is to address the adverse effects of the various pollutions, the degradation of property values, and the negative impact to the quality of life. The location of this plant should be moved to the North East side of the developer's property in order that it would comply with "...a point closest to the waters of the US..." on the developers property, and to minimize the impact of the pollution issues on existing homes and surrounding properties.

Sincerely,

David and Lisa Denton

Copy: Honorable Texas Representative Dr. John Zerwas, Fax 281-533-9049
Honorable Fort Bend County Commissioner Andy Myers, Fax 281-238-1401
