Michael French
17 Wimbledon Ct
Heath, Tx 75032

To the attention of LaDonna Castanuela,

Please let it be known that the trucks for Hiram Waste are parked at the property where Blue Bear Tree Farm is ran. Hiram Waste has nothing to do with that property at all. All of the composte on that site has to do with the tree farm. We have mulch and produce mulch for flower beds. The Code Enforcement for the City of Terrell has been out and seen what has been done and have told us that everything was fine. The Code Enforcement for Kaufman County has been out and also said that everything that we were doing to improve our soil and producing mulch for our company was fine. If the TCEQ has a problem with it we want a jury trial and a court appointed lawyer to handle the matter. Also it is state law that you have to tell me what has to be done and also that 30 days are to be given to clean it up. That is in Vernon's Laws.

Sincerely,

Michael French
