- Item 2. [**TCEQ Docket No. 2008-1616-WR; SOAH Docket No. 582-10-0293.**](#)
Consideration of the Administrative Law Judge's Proposal for Decision and Order regarding the application of **San Angelo Water Supply Corporation** to amend Certificate of Adjudication No.14-1318 to modify Special Condition 5.C. to change the elevation of the conduit through Twin Buttes Reservoir that allows free passage of flows downstream. San Angelo Water Supply Corporation requests that the elevation be changed from 1,883.5 feet above mean sea level to the actual built elevation of 1,885 feet above mean sea level. Certificate of Adjudication No. 14-1318 authorizes San Angelo Water Supply Corporation to divert and use not to exceed 25,000 acre-feet of water per year from Twin Buttes Reservoir on the Middle Concho River, Spring Creek, and the South Concho River, Colorado River Basin, **Tom Green County**, for

agricultural purposes to irrigate 15,000 acres of land within the boundaries of Tom Green County Water Control and Improvement District No. 1. Item 3.

[TCEQ Docket No. 2008-1617-WR; SOAH Docket No. 582-10-0294.](#)

Consideration of the Administrative Law Judge's Proposal for Decision and Order regarding the application of **San Angelo Water Supply Corporation** to amend Certificate of Adjudication No. 14-1318 to modify Special Condition 5.C. to change what flows must be passed downstream through a conduit constructed in the Twin Buttes Reservoir. Special Condition 5.C. of the Certificate currently states that a conduit shall be constructed in the aforesaid dam for the purpose of permitting the "free passage of the normal flow through the dam at all times and the passage of those waters" to which the Commission "may determine lower appropriators are entitled." The amended Certificate, if issued, will change this language so that it requires "free passage of inflows through Twin Buttes Reservoir via the conduit" and that the passage be "in such amounts as determined by the Watermaster or the Executive Director for downstream water right holders and domestic and livestock users." Certificate of Adjudication No. 14-1318 authorizes the Owner to divert and use not to exceed 25,000 acre-feet of water per year from Twin Buttes Reservoir on the Middle Concho River, Spring Creek, and the South Concho River, Colorado River Basin, **Tom Green County**, for agricultural purposes to irrigate 15,000 acres of land within the boundaries of Tom Green County Water Control and Improvement District No. 1. The Owner is also authorized to divert and use not to exceed 29,000 acre-feet of water per year from Twin Buttes Reservoir for municipal purposes. The Commission will also consider the application, related filings, exceptions and replies. (Craig Mikes, Robin Smith)

The City owns a portion of Certificate of Adjudication No. 14-1298 which authorizes diversion and use of not to exceed 252.1 acre-feet of water per year from three points on the South Concho River, tributary of the Concho River, tributary of the Colorado River, Colorado River Basin for agricultural and municipal purposes. There are multiple time priorities and diversion rates for the water. The Commission will also consider the application, related filings, exceptions and replies. (Ron Ellis, Robin Smith)

MISCELLANEOUS MATTER

Item 102. [**Docket No. 2010-2033-RUL.**](#)

Consideration of the issuance of the Air Quality Standard Permit for Pollution Control Projects, as authorized under Texas Health and Safety Code (THSC) Sections 382.05195 and 382.057, and **30 Texas Admin. Code (TAC) Chapter 116**, Subchapter F, Standard Permits. The new standard permit would be used to authorize pollution control projects undertaken voluntarily or as required by any federal or state statute or rule that reduce or maintain currently authorized air emission limits for facilities authorized by a New Source Review permit under Chapter 116, a standard permit adopted under Chapter 116, Subchapter F, or Permits by Rule adopted under 30 TAC Chapter 106. Notice of the proposed standard permit was published in the August 27, 2010, issue of the *Texas Register* (35 TexReg 7928) and in newspapers of general circulation in Austin, Dallas and Houston, Texas on August 27, 2010. The standard permit will be effective February 9, 2011. (Mandolin Shannon, Janis Hudson) (Rule Project No. 2010-057-OTH-NR)

RULE MATTERS

Item 103. [**Docket No. 2010-0625-RUL.**](#)

Consideration of the adoption of amendments to Sections 116.12, 116.115, 116.180, 116.182, 116.186, 116.188, 116.190, 116.192, 116.601, and 116.617; new Section 116.127; and the repeal of Section 116.121 of **30 TAC Chapter 116**, Control of Air Pollution by Permits for New Construction or Modification and corresponding revisions to the state implementation plan (SIP). The revisions to the SIP would also include the withdrawal from United States Environmental Protection Agency (EPA) consideration as revisions to the SIP of Sections 116.121, 116.400, 116.402, 116.404 and 116.406 as adopted by the Commission on January 11, 2006, effective on February 1, 2006. The adoption would address issues identified by the EPA in its September 15, 2010, final disapproval notice. Specifically, those concern definitions related to and other changes to the Plant-Wide Applicability Limit (PAL) rules to meet federal requirements, including the conditions for reopening PAL permits. The rulemaking would also amend the standard permit rule for Pollution Control Projects. The rulemaking would also include removing obsolete references and making non-substantive administrative changes. The proposed rules were published in the August 27, 2010, issue of the *Texas Register* (35 TexReg 7698). (Blake Stewart, Janis Hudson) (Rule Project No. 2010-008-116-PR)

Item 104. [**Docket No. 2008-1631-RUL.**](#)

Consideration of the adoption of amendments to Section 101.1 of **30 TAC Chapter 101**, General Air Quality Rules, and Section 116.12 and Section 116.150 of 30 TAC Chapter 116, Control of Air Pollution by Permits for New Construction or Modification, and corresponding revisions to the state implementation plan. The adoption would amend definitions in Chapter 101 to remove language regarding specific maintenance and nonattainment areas. Additionally, the adopted rulemaking would amend Chapter 116 to remove language indicating that the one-hour thresholds and offsets are not effective unless the United States Environmental Protection Agency (EPA) promulgates rules. The adopted rulemaking would also amend Chapter 116 to add a

requirement for continued applicability of nonattainment New Source Review until the EPA approves its removal for areas attaining the ozone national ambient air quality standard. In addition, the adopted rules address issues identified by the EPA in its September 15, 2010, final disapproval notice. The proposed rules were published in the August 27, 2010, issue of the *Texas Register* (35 TexReg 7676). (Blake Stewart, Terry Salem, Janis Hudson) (Rule Project No. 2008-030-116-PR)
