**GENERAL PERMIT**

Item 5      [\*\*Docket No. 2011-0010-RUL.\*\*](#)

Consideration of the adoption of amendment with renewal of the Multi-Sector General Permit, TXR050000. The adoption would amend and renew Texas Pollutant Discharge Elimination System (TPDES) Multi Sector General Permit No. TXR050000, which authorizes, on a state-wide basis, the discharge of storm water and allowable non-storm water into surface water in the state from certain types of industrial activities. The general permit specifies which facilities must obtain permit coverage, which are eligible for a conditional exclusion based on no exposure of industrial activity to storm water, which are designated as eligible for coverage without submitting a notice of intent, and which must obtain individual permit coverage. Public notice of the proposed general permit began on March 2, 2011 and lasted through April 12, 2011. Notice was published in the March 11, 2011 issue of the *Texas Register* (36 TexReg 1716). **RULE MATTERS**

Item 109 [\*\*Docket No. 2010-0878-RUL.\*\*](#)

Consideration of the adoption of amendments to 30 Texas Administrative Code

(TAC) Chapter 114, Control of Air Pollution from Motor Vehicles, Subchapter J, Operational Controls for Motor Vehicles, Division 2, Locally Enforced Motor Vehicle Idling Limitations, Sections 114.512 and 114.517, and corresponding revisions to the state implementation plan. The adoption would allow enforcement of heavy-duty vehicle idling year-round; remove the expired prohibition for drivers using sleeper berths to idle in residential areas, school zones, and near hospitals; and remove expiration dates that are no longer applicable. Additionally, the adopted rulemaking would remove the duplicative exemption for a motor vehicle that has a gross vehicle weight rating of 14,000 pounds or less and replace it with a new exemption for armored vehicles; and retain the exemption for a motor vehicle when idling for heating or air conditioning while a driver is using the vehicle's sleeper berth for a government-mandated rest period and not within two miles of a facility offering external heating or air conditioning, which expired on September 1, 2009. The proposed rules were published in the February 11, 2011, issue of the *Texas Register* (36 TexReg 707). (Nina Castillo, Ross Henderson) (Rule Project No. 2009-054-114-EN)

Item 110     **Docket No. 2010-2013-RUL.**

Consideration of the adoption of amended Section 101.27 of 30 TAC Chapter 101, General Air Quality Rules. The adoption would remove the carbon monoxide fraction from the fee equation, establish a base rate of \$25 per ton in the emissions fee calculation for Fiscal Year (FY) 2012, and allow annual adjustments of the base rate, as required for adequate fee revenue up to a predetermined cap of \$45. The adoption is anticipated to collect an additional \$9 million in fees for FY 2012. The commission collects annual fees from sources that are subject to the Titles IV and V (hereafter referred to as Title V) permitting requirements of the 1990 Federal Clean Air Act (FCAA) amendments, as required by Texas Health and Safety Code (THSC), Texas Clean Air Act, Section 382.0621, Operating Permit Fee. THSC, Section 382.0621 states the Commission shall collect an annual fee based on emissions for each source that is subject to FCAA, Title V. As part of an approved federal operating permit program, the Commission is required to demonstrate that the fees collected from Title V sources are sufficient to support the Title V program. The proposed rule was published in the March 11, 2011, issue of the *Texas Register* (36 TexReg 1641). (Kathy Pendleton, John Minter) (Rule Project No. 2011-006-101-EN)

Item 111     **Docket No. 2011-0755-RUL.**

Consideration for publication of, and hearing on, proposed amendments to 30 TAC Chapter 336, Radioactive Substance Rules, Sections 336.1, 336.2, 336.103, 336.105, 336.210, 336.305, 336.309, 336.331, 336.359, and 336.405; and proposed new Sections 336.351 and 336.357. The proposed rulemaking would revise the Commission's radiation control rules to ensure compatibility with regulations promulgated by the United States Nuclear Regulatory Commission (NRC). The state must adopt compatible rules to maintain the status of Texas

as an Agreement State authorized to administer a portion of the radiation control program under the Atomic Energy Act. The proposed rulemaking would also amend the fees charged for facilities regulated under Subchapter L of Chapter 336 (Licensing of Source Material Recovery and By-Product Material Disposal Facilities). The proposed fee shall recover for the state the actual expenses arising from the regulatory activities associated with the license. The proposed rulemaking would also clarify the requirements for license fees to fund the Radiation and Perpetual Care Account. (Devane Clarke, Don Redmond) (Rule Project No. 2011-011-336-PR)
