Agenda

Consideration for publication of, and hearing on, amended Sections 114.6, 114.312, and 114.314 - 114.319, repealed Section 114.313, and new Section 114.313 of 30 Texas Administrative Code, Chapter 114, Control of Air Pollution from Motor Vehicles, and corresponding revisions to the state implementation

plan. The proposed rulemaking would define biodiesel and biodiesel blends; require currently approved and new alternative diesel fuel formulations for biodiesel blends of up to 20% biodiesel by volume to comply with the active version of the American Society for Testing and Materials (ASTM) D7467 (Standard Specification for Diesel Fuel Oil, Biodiesel Blend (B6 to B20)); establish new designated alternative limits for Texas low emission diesel fuel properties; remove expired registration requirements and establish new registration requirements for identifying production and import facilities; revise approval procedures for alternative diesel fuel formulations; specify that all approved alternative diesel formulations are subject to revocation if emissions performance is not maintained; allow all alternative diesel formulations approved by the Texas Commission on Environmental Quality prior to September 1, 2011, to remain in effect; revise reporting requirements to include production and import facility data; require alternative emission reduction plans using the Unified Model to determine compliance each calendar quarter; remove expired early gasoline sulfur reduction credits provisions; and make other clarifying changes as needed for accuracy and consistency. (John Minter, Morris Brown) (Rule Project No. 2009-001-114-EN)
