RULE/STATE IMPLEMENTATION PLAN MATTERS

Item 99

[Docket No. 2011-0065-SIP.](#)

Consideration of the adoption of the Lead Transport State Implementation Plan (SIP) Revision for the 2008 Lead National Ambient Air Quality Standard (NAAQS). The adopted SIP revision would meet the requirements of the Federal Clean Air Act (FCAA), §110(a)(2)(D)(i), relating to the interstate transport of lead under the 2008 Lead NAAQS. These revisions reference existing control strategies to reduce the concentration of lead in Collin County, as well as dispersion modeling of major lead sources in Texas. Additionally, the revision verifies that the Prevention of Significant Deterioration and Nonattainment New Source Review permitting programs are being implemented in Texas, and that lead is not considered a visibility-impairing pollutant. This revision, once adopted, would fulfill Texas' obligation regarding interstate transport of lead under §110(a)(2)(D)(i) of the FCAA. (Amy Browning, Shelley Naik,) (Non-Rule Project No. 2011-005-SIP-NR)

Item 100

[Docket No. 2011-0893-RUL.](#)

Consideration for publication of, and hearing on, an amendment to 30 Texas Admin. Code (TAC) Chapter 106, Permits by Rule, Subchapter O, Oil and Gas, Section 106.352, Oil and Gas Handling and Production Facilities; and the non-rule Air Quality Standard Permit for Oil and Gas Handling and Production Facilities. The proposed rulemaking would revise Section 106.352 to restore the requirement that any facility handling sour gas shall be located at least one-quarter mile from any recreational area or residence or other structure not occupied or used solely by the owner or operator of the facility or the owner of the property upon which the facility is located, as the requirement existed in Section 106.352 prior to the January 26, 2011 amendment. This requirement would be added in proposed Section 106.352(l)(3). The subsequent paragraphs of subsection (l) would be re-numbered. The proposed rulemaking would also correct typographical errors in Section 106.352 and the non-rule Air Quality Standard Permit for Oil and Gas Handling and Production Facilities. (Ben Rhem, Erin Selvera, Blake Stewart) (Rule Project No. 2011-014-106-PR)

Item 101

[Docket No. 2010-1862-RUL.](#)

The proposed rulemaking would amend Section 111.147(1)(E) to remove the requirement to pave alleys at the rate of 15 miles per year and replace it with the following requirements: 1) all new alleys shall be paved; 2) alleys may not be used for garbage and recycling collection; and 3) the use of reclaimed asphalt pavement may be used as an alternate means of

particulate matter control for alleys. The rulemaking would also amend Section 111.147(2) to change the street sweeping frequency requirement from four times per year to three times per year in the city limits, and from six times per week to four times per week in the central business district. (Erin Selvera, Peter A. Ogbeide) (Rule Project No. 2010-046-111-EN)

(Erin Selvera, Shelley Naik) (Non-Rule Project No. 2011-026-MIS-NR)

Item 103 **[Docket No. 2011-0707-SIP.](#)**
