Consideration for publication of, and hearing on, proposed new Section 106.513 of 30 Texas Administrative Code (TAC) Chapter 106, Permits by Rule. The proposed rulemaking would implement House Bill (HB) 3268 from the 82nd Legislature, 2011, Regular Session, which requires that the commission develop a permit by rule (PBR) or a standard permit to authorize emissions from combined heat and power (CHP) facilities. Proposed new Section 106.513 is a PBR which establishes emission standards and compliance requirements for CHP units in accordance with the requirements and guidelines of HB 3268. The proposed rulemaking would remove language from these sections requiring small emitting sources to collect and report annual emissions event and maintenance, startup, and shutdown data to the Texas Commission on Environmental Quality for emissions inventory

purposes. These requirements are limited to small sources located in nonattainment areas, maintenance areas, early action compact areas, Nueces County, or San Patricio County that are not required to report this data annually in an emissions inventory per 30 TAC Section 101.10, Emissions Inventory.
