Item 42 [Docket No. 2011-1789-MIS.](#)

Hyperlink  
Updated  
5/29/2012  
10:00 AM

Consideration for approval of an update to the Texas Nonpoint Source Management Program. This document is required to be submitted through the Governor's Office to the United States Environmental Protection Agency for continued eligibility for Section 319 Nonpoint Source Grant funds under the federal Clean Water Act. This document represents the joint submission of both the Texas Commission on Environmental Quality and the Texas State Soil and Water Conservation Board. (Monica Harris) (Project No. 2012-006-MIS-NR)

**PETITION MATTER**

Item 43 [Docket No. 2012-0751-RUL.](#)

Consideration of a petition for rulemaking under Section 20.15 of 30 Texas

Administrative Code (TAC) Chapter 20, Rulemaking. The petition was filed with the Texas Commission on Environmental Quality by Baker Botts L.L.P. on behalf of Halliburton Energy Services, Inc. on April 5, 2012. The petitioner is requesting amendments to 30 TAC Chapter 117, Control of Air Pollution from Nitrogen Compounds, Subchapter D, Combustion Control at Minor Sources in Ozone Nonattainment Areas, Division 2, Dallas-Fort Worth Eight-Hour Ozone Nonattainment Area Minor Sources. The petitioner is requesting a partial exemption for engines that are used exclusively for product testing and personnel training, operate in limited service, and meet the applicable federal emissions standards in 40 Code of Federal Regulations Part 89. The petitioner is also requesting revisions to the corresponding monitoring and recordkeeping requirements to reflect the new category of exempt engines. Additionally, the petitioner is requesting clarification that "product testing" as used in the new exemption is distinct from engine "testing" as used in Section 117.2130(c). (Javier Galván, Amy Browning) (Project No. 2012-029-PET-NR)

### **RULE MATTERS**

Item 44 [\*\*Docket No. 2011-1226-RUL.\*\*](#)

Consideration for publication of, and hearing on, proposed amendments to 30 TAC Chapter 290, Public Drinking Water, Sections 290.38, 290.39, 290.46, 290.103, 290.109 - 290.112, 290.116, 290.119, 290.122, and 290.275; and 30 TAC Chapter 291, Utility Regulations, Sections 291.161 and 291.162. The proposed rulemaking would bring Chapters 290 and 291 into conformity with House Bill (HB) 805, 82nd Legislature, 2011, Regular Session and would make Chapters 290 and 291 more consistent with the federal Ground Water Rule (GWR) including a change to the definition of groundwater under the direct influence of surface water to make it consistent with 40 Code of Federal Regulations Section 141.2; the federal Total Organic Carbon (TOC) Rule; and United States Environmental Protection Agency (EPA) Method 334.0. The federal regulations implement the federal Safe Drinking Water Act. The statutory amendments made by HB 805 expand the counties to which the Emergency Preparedness Plan requirement applies and provides a timeline for newly affected water systems to comply. The proposed amendments made for the GWR establish rule language consistent with that used in the federal regulations. The proposed amendments to the TOC Rule are to correct an inaccuracy in the applicability statement that extended the state requirements of Section 290.112 to treatment plants that are not subject to the corresponding federal requirements. The proposed amendments also include EPA Method 334.0 as an approved alternative for measuring chlorine residual in drinking water. (Matt Court, Christiaan Siano) (Rule Project No. 2011-056-290-OW)

Item 45 [\*\*Docket No. 2012-0501-RUL.\*\*](#)

Consideration for publication of, and hearing on amended sections of 30 TAC Chapter 106, Permits by Rule and the non-rule Air Quality Standard Permit for Oil and Gas Handling and Production Activities. The proposed amendments would remove certain counties from the applicability of subsections (a) through

(k) of Section 106.352, Oil and Gas Handling and Production Facilities and from the non-rule Air Quality Standard Permit which relate to the control of oil and gas facilities in the Barnett Shale region. The proposed amendments would clarify the measurement of minimum separation between oil and gas facilities and receptors where a local ordinance exists requiring equal or greater distance, and would extend the deadline in Section 106.352 to notify the Commission of an existing facility location and method of authorization. (Beecher Cameron, Betsy Peticolas) (Rule Project No. 2012-020-106-AI)

### **PUBLIC COMMENT SESSION**

- Item 46 The Commission will receive comments from the public on any matters within the jurisdiction of the TCEQ, with the exception of pending permitting matters or other contested cases which are subject to the ex parte prohibition found in Texas Government Code §2001.061.
