Item 60 [Docket No. 2012-0845-SIP.](#)

Consideration for publication of, and hearing on, the proposed Houston-Galveston-Brazoria (HGB) 1997 Eight-Hour Ozone Standard Nonattainment Area Motor Vehicle Emissions Budgets (MVEB) Update State Implementation Plan (SIP) Revision. The proposed SIP revision would update the March 2010 HGB attainment demonstration and reasonable further progress SIP revisions for the 1997 eight-hour ozone standard to replace the on-road mobile source emissions inventories for nitrogen oxides (NOX) and volatile organic compounds (VOC) based on the United States Environmental Protection Agency's (EPA) MOBILE model with those based on the EPA's MOVES model. The 2008, 2011, 2014, 2017, and 2018 NOX and VOC MVEBs and the contingency analyses would also be updated using the MOVES-based emissions inventories. The updated MVEBs would help the HGB area meet transportation conformity requirements of the Federal Clean Air Act. The proposed revision also includes a review of emissions inventory data, photochemical modeling, and the quantitative and qualitative corroborative analyses used as weight of evidence supporting the March 2010 HGB attainment demonstration. Consideration for publication of, and hearing on, proposed amended Sections 291.22, 291.102, 291.105, and 291.113 of 30 Texas Administrative Code (TAC) Chapter 291, Utility Regulations and Sections 293.11, 293.32, 293.41, 293.51, and 293.81 of 30 TAC Chapter 293, Water Districts. The proposed rulemaking would implement House Bill (HB) 679, HB 1901, Senate Bill (SB) 18, SB 512, SB 573, SB 914, and SB 1234, 82nd Legislature, 2011, Regular Session. The proposed amendments would: impact a district's ability to increase the allowable change order amount; exempt bonds issued by a public utility agency

from Executive Director approval; alter eminent domain powers of a municipal utility district outside its boundary; modify the election qualifications for a fresh water supply district director; exempt bonds issued by certain multi-county districts from Executive Director approval; limit the time for certain municipalities to consent to certificates of public convenience and necessity (CCN) within the corporate limits or extraterritorial jurisdiction (ETJ) of the municipality and set conditions for granting the CCN without the municipality's consent; alter a city's ability to extend a CCN beyond its ETJ if a landowner elects to exclude property; adds a provision that a CCN applicant or CCN holder that has land removed by landowner election is not required to provide service to the removed land for any reason; change the requirements for a release from a CCN; specify that having federal loans is not a bar to release; and add requirements for notice of utility rate changes. Item 62 **[Docket No. 2011-1226-RUL.](#)**

Consideration of the adoption of amendments to 30 TAC Chapter 290, Public Drinking Water, Sections 290.38, 290.39, 290.46, 290.103, 290.109 - 290.112, 290.116, 290.119, 290.122, and 290.275; and 30 TAC Chapter 291, Utility Regulations, Sections 291.161 and 291.162. The adoption would bring Chapters 290 and 291 into conformity with House Bill (HB) 805, 82nd Legislature, 2011, Regular Session, and provide consistency with the federal Ground Water Rule (GWR) including a change to the definition of groundwater under the direct influence of surface water to make it consistent with 40 Code of Federal Regulations Section 141.2; the federal Total Organic Carbon (TOC) Rule; and United States Environmental Protection Agency (EPA) Method 334.0. The federal regulations implement the federal Safe Drinking Water Act. The amendments made for HB 805 expand the counties to which the Emergency Preparedness Plan requirement applies and provide a timeline for newly affected water systems to comply. The amendments made for the GWR establish rule language consistent with that used in the federal regulations. The amendments to the TOC Rule correct an inaccuracy in the applicability statement that extended the state requirements of Section 290.112 to treatment plants that are not subject to the corresponding federal requirements. The amendments also include EPA Method 334.0 as an approved alternative for measuring chlorine residual in drinking water. The proposed rules were published in the June 15, 2012, issue of the *Texas Register* (37 TexReg 4353) for Chapter 290 and (37 TexReg 4398) for Chapter 291. (Matt Court, Christiaan Siano) (Rule Project No. 2011-056-290-OW)

Item 63 **[Docket No. 2012-0501-RUL.](#)**

Consideration of the adoption of amended sections of 30 TAC Chapter 106, Permits by Rule and the non-rule Air Quality Standard Permit for Oil and Gas Handling and Production Activities. The adopted amendments remove certain counties from the applicability of subsections (a) through (k) of Section

106.352, Oil and Gas Handling and Production Facilities and from the non-rule Air Quality Standard Permit which relate to the control of oil and gas facilities in the Barnett Shale region. The adopted amendments clarify the measurement of minimum separation between oil and gas facilities and receptors where a local ordinance exists requiring equal or greater distance, and extend the deadline in Section 106.352 to notify the Commission of an existing facility location and method of authorization. The proposed rules were published in the June 15, 2012 issue of the *Texas Register* (37 TexReg 4341). (Tasha Burns, Betsy Peticolas) (Rule Project No. 2012-020-106-AI)

Item 64 **Docket No. 2012-0896-RUL.**

Consideration for publication of, and hearing on, proposed amendments to 30 TAC Chapter 117, Control of Air Pollution from Nitrogen Compounds, Subchapter A, Definitions, Section 117.10; proposed amendments to Chapter 101, General Air Quality Rules, Subchapter H, Emissions Banking and Trading, Division 4, Discrete Emission Credit Banking and Trading, Section 101.379; and corresponding revisions to the state implementation plan. The proposed rulemaking would revise §101.379 and the definition of emergency situation in §117.10 to reference the most recent version of the Electric Reliability Council of Texas, Inc. (ERCOT) protocols for emergency notice. The proposed rulemaking would also revise the definition of emergency situation in §117.10 to reflect changes made by ERCOT to promote reliability during energy emergencies by allowing the operation of generators for the purpose of selling power back to the electric grid under limited circumstances.
