Update

4:44 PM

Consideration of a request from the Lower Colorado River Authority (LCRA) for an Emergency Order under Tex. Water Code § 11.139 to temporarily change the process required in its 2010 Water Management Plan (WMP), Permit No. 5838, for curtailment of interruptible stored water. LCRA filed this request on July 2, 2013. LCRA has the right to divert and use up to 1.5 million acre feet from Lakes Buchanan and Travis, in Travis, Llano, and Burnet Counties, Texas, under Certificates of Adjudication Nos. 14-5478 and 14-5482. These certificates require LCRA to develop the WMP, Permit No. 5838, which provides how LCRA makes water available from these lakes to help meet "firm" water customer needs, downstream interruptible irrigation demands, and environmental flow needs of Matagorda Bay and the lower Colorado River, and how LCRA will manage and curtail supplies from the lakes during times of drought including through a repeat of the Drought of Record. LCRA requests that the emergency order change the triggers for curtailment of interruptible water in the 2010 WMP to state that LCRA is not required to release any water for interruptible customers other than Garwood irrigation division for the duration of the order. (Robin Smith, Kathy Alexander)

Consideration of whether to affirm, modify, or set aside the Executive Director's Order suspending certain water rights in the Brazos River Basin, signed on July 2, 2013. On June 26, 2013, Dow Chemical Company made a senior call based on its February 14, 1942 priority date in its Certificate of Adjudication No. 12-5328. The Order was issued by the Executive Director pursuant to Texas Water Code Chapter Section 11.053 and 30 Tex. Admin. Code Chapter 36. The Order has a term until December 28, 2013, unless modified or terminated, and was issued by the Executive Director without a hearing. Water rights junior to February 14, 1942, that were not for municipal, domestic, or power generation uses, were suspended. Two municipal water rights junior to February 14, 1942, were not suspended. The other junior water rights with municipal, power, or domestic uses in the basin identified in the Order were suspended, partially suspended, or adjusted. The Order allows diversion and impoundment by the suspended water rights holders during certain higher flow levels if conditions change to cause temporary higher flow levels in the Brazos River watershed during the term of the Order. The Order affects certain water rights in Austin, Bastrop, Bell, Bosque, Brazoria, Brazos, Brown, Burleson, Burnet, Callahan, Colorado, Comanche, Coryell, Eastland, Erath, Falls, Fayette, Fort Bend, Freestone, Grimes, Hamilton, Harris, Hill, Hood, Jack, Johnson, Lampasas, Lee, Leon, Limestone, Madison, McLennan, Milam, Mills, Palo Pinto, Parker, Robertson, Somervell, Stephens, Travis, Waller, Washington, and Williamson Counties.
