Item carried forward from Agenda of April 4, 1990 and April 25, 1990

- Item 1. APPLICATION BY GULF STATES ASPHALT COMPANY, INC. for an amendment to Permit No. 01058 to authorize an increase in the discharge of utility wastewaters commingled with stormwater from a volume not to exceed an average flow of 50,000 gallons per day to a volume not to exceed an average flow of 60,000 gallons per day. The proposed amendment would also delete Outfall 002 which previously regulated the discharge of stormwater and reroute the stormwater through Outfall 001. Effluent limitations for chemical oxygen demand have been revised from 80 lbs/day to 63 lbs/day and biomonitoring requirements have been added. The applicant operates the South Houston Plant, an asphalt products manufacturing plant (includes roofing and paving products and asphalt emulsions). The plant site is at 300 Christy Place in the City of South Houston, Harris County, Texas. The effluent is discharged into a roadside ditch; thence to Berry Bayou; thence to Sims Bayou; thence to the Houston Ship Channel, Segment No. 1007 of the San Jacinto River Basin.
