**COMMENTS:** We live own a place about 1/2 mile south and east of Mr Vanderhorst's proposed dairy heifer operation. We are generally downwind from the site of the proposed 1500 head CAFO. We are concerned about the inevitable odor from a 1500 head capacity CAFO adversely affecting our life and property value. Our daughter is a realtor, and has the property adjacent to Mr. Vanderhoort's facility listed. While the property is a nice place, it will not sell due to the current odor from a 300 head CAFO. We grew up on ranches, and have

*CM*

made our living in the real estate business. We understand the quandary of balancing an owners property rights vs. the neighborhood rights and values. It seems that this large CAFO would better be suited in a less densely settled area. Respectfully, Craig and Debbie Mader
