The area addressed by the application is located at 111 Red Bluff Rd in Pasadena, Harris County, Texas 77506-1530. This application was received by the TCEQ on May 30, 2014.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, will codify the conditions under which the site must operate. The TCEQ Executive Director recommends issuance of the draft permit. The purpose of a federal operating permit is to improve overall compliance with the rules governing air pollution control by clearly listing all applicable requirements, as defined in Title 30 Texas Administrative Code (30 TAC) § 122.10. The permit will not authorize new construction or new emissions.

Notice and Comment Hearing. The hearing will be structured for the receipt of oral or written comments by interested persons. Registration and an informal discussion period with commission staff members will begin during the first 30 minutes. During the informal discussion period, the public is encouraged to ask questions and engage in open discussion with the applicant and the TCEQ staff concerning this application and draft permit. Issues raised during this discussion period **will only** be addressed in the formal response to comments if the issue is also presented during the hearing. After the conclusion of the informal discussion period, the TCEQ will conduct a notice and comment hearing regarding the application and draft permit. Individuals may present oral statements when called upon in order of registration. A five-minute time limit may be established at the hearing to assure that enough time is allowed for every interested person to speak. There will be no open discussion during the hearing; however, commission staff members will be available to discuss the proposal and answer questions after the hearing. The purpose of this hearing will be to receive formal public comment which the TCEQ will consider in determining whether to revise and/or issue the permit and in determining the accuracy and completeness of the permit. Any person may attend this meeting and submit written or oral comments. The hearing will be conducted in accordance with the Texas Clean Air Act § 382.0561, as codified in the Texas Health and Safety Code, and 30 TAC § 122.340.

A notice of proposed final action that includes a response to comments and identification of any changes to the draft permit will be mailed to everyone who submitted: written comments, and/or hearing requests, attended the hearing, or requested to be on the mailing list for this application. This mailing will also provide instructions for public petitions to the U.S. Environmental Protection Agency (EPA) to request that the EPA object to the issuance of the proposed permit. After receiving a petition, the EPA may only object to the issuance of a permit which is not in compliance with applicable requirements or the requirements of 30 TAC Chapter 122.
