## NOTICE OF PUBLIC MEETING FOR TPDES PERMIT FOR MUNICIPAL WASTEWATER NEW

**PERMIT NO. WQ0011404002**

**APPLICATION.** Dowdell Public Utility District, c/o Smith Murdaugh, Little & Bonham, L.L.P., 2727 Allen Parkway, Suite 1100, Houston, Texas 77019, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0011404002, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 900,000 gallons per day.

The facility will be located west of Lozar Drive, approximately 750 feet northwest of the intersection of Lozar Drive and Avalon Aqua Way, in Harris County, Texas 77379. The treated effluent will be discharged to a detention pond system; thence to a 48-inch storm sewer pipe; thence to Harris County Flood Control District (HCFCD) ditch M114-00-00; thence to Willow Creek; thence to Spring Creek in Segment No. 1008 of the San Jacinto River Basin. The unclassified receiving water uses are minimal aquatic life use for the detention pond system, limited aquatic life use for HCFCD ditch M114-00-00, and high aquatic life use for Willow Creek. The designated uses for Segment No. 1008 are high aquatic life use, public water supply, and primary contact recreation. In accordance with 30 Texas Administrative Code Section 307.5 and the TCEQ implementation procedures (June 2010) for the Texas Surface Water Quality Standards, an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in Willow Creek, which has been identified as having high aquatic life use. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements.

**PUBLIC COMMENT / PUBLIC MEETING.** A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal

Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.
