Annual	1.3	25

PM_{2.5}

Maximum Averaging Time	Maximum Increment Consumed (µg/m ³)	Allowable Increment (µg/m ³)
24-hour	1	9

This application was submitted to the TCEQ on May 18, 2016. The executive director has determined that the emissions of air contaminants from the proposed facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Harlingen regional office, and at the Brownsville Public Library Main Branch, 2600 Central Boulevard, Brownsville, Cameron County, Texas, beginning the first day of publication of this notice.
