This project has been funded in part by the United States Environmental Protection Agency under assistance agreement # CE-006550-01 to the Texas Water Commission. The contents of this document do not necessarily represent the views of the United States Environmental Protection Agency or the Texas Water Commission, nor do the contents of this document necessarily constitute the views or policy of the Galveston Bay National Estuary Program Management Conference or its members. The information presented is intended to provide background information, including the professional opinion of the authors, for the Management Conference deliberations in drafting of official policy in the Comprehensive Conservation and Management Plan (CCMP). The mention of trade names or commercial products does not in any way constitute an endorsement or recommendation for use.

Policy Committee

The Honorable Rodney Ellis, Chair
Texas Senate

Vice-Chair
Regional Administrator, EPA Region 6

Mr. John Hall
Chair,
Texas Water Commission

Ms. Terry Hershey
Vice-Chair,
Texas Parks and Wildlife Commission

Mr. James Blackburn
Founding Chairman,
Galveston Bay Foundation

Mr. Charles W. Jenness
Chair,
Texas Water Development Board

Mr. Charles Miller
Past Chairman of the Board
Greater Houston Partnership

Local Governments Advisory Committee

The Honorable Ray Holbrook, Chair

Management Committee

Mr. Myron O. Knudson, Chair

Ms. Barbara Britton, Vice-Chair

Scientific/Technical Advisory Committee

Dr. Robert McFarlane, Chair

Ms. Teresa Battenfield, Vice-Chair

Citizen's Advisory Steering Committee

Ms. Sharron Stewart, Chair

Mr. Ron Embry, Vice-Chair

Galveston Bay Public Forum

Dr. Don Bass, Chair

Program Director

Dr. Frank S. Shipley

The Galveston Bay National Estuary Program

Texans increasingly express their expectations for a clean environment in terms of entire ecosystems. Until recently, our tendency was to view environmental problems in isolated pieces we could understand—indeed this view was institutionalized (and seemingly immortalized) in an elaborate mosaic of fragmented jurisdictions. The Galveston Bay National Estuary Program (GBNEP) is a forerunner in elevating hands-on management of coastal environments to the level of the ecosystem; and in doing so, is encouraging an integration of traditionally disparate institutions.

The GBNEP was established under the authority of the Water Quality Act of 1987 to develop a *Comprehensive Conservation and Management Plan* (CCMP) for Galveston Bay. The purpose of the CCMP is to address threats to the Bay resulting from pollution, development, and overuse. To address these threats, five years of work commenced in 1990, consisting of three phases: (1) Identification of the specific problems facing the Bay; (2) A Bay-wide effort to compile data and information to describe status, trends, and probable causes related to the identified problems; and (3) Creation of the CCMP itself to enhance governance of the Bay at the ecosystem level. The GBNEP is accomplishing this work through a cooperative agreement between the U.S. EPA (Region 6) and the State of Texas (administered by the Texas Water Commission).

The structure of the GBNEP reflects a strong commitment to consensus-building among all Galveston Bay user groups, government agencies, and the public. The GBNEP "Management Conference" consists of six Governor-appointed committees with broad representation, totaling about one hundred individuals. Meetings of these committees are also open to the public, and public participation in policy-setting and in Bay management are considered strengths of the program. When submitted to the Governor of Texas in late 1994, the CCMP will reflect thousands of hours of involvement (much in the form of volunteer time) by individuals who in various ways use, enjoy, or help govern this vital coastal resource.

EXECUTIVE SUMMARY	1
1. INTRODUCTION AND BACKGROUND	7
2. DREDGE-AND-FILL ACTIVITIES PRIOR TO WORLD WAR II	11
2.1 Nineteenth Century Navigation Projects	11
2.1.1 Inlet stabilization	11
2.1.2 Navigation channels	11
2.2 Twentieth Century Navigation Projects	18
2.2.1 The Houston Ship Channel	18
2.2.2 Other navigation channels	20
2.2.3 The Dikes	29
2.3 Non-navigation projects	29
2.3.1 Galveston	29
2.3.2 Tributaries	30
2.3.3 The shell dredging industry	32
2.3.4 Closure of Turtle Bay	33
3. MODERN FEDERAL PROJECTS IN GALVESTON BAY	35
3.1 Compilation of USCE dredging data	35
3.1.1 The data base	35
3.1.2 Data processing	40
3.2 Federal dredging activity in Galveston Bay	41
3.3 Dredged material disposal	97
4. MODERN NON-FEDERAL DREDGE-AND-FILL ACTIVITIES IN GALVESTON BAY	103
4.1 Compilation of Section 404 permit data	105
4.2 Section 10/404 permit activity in the Galveston Bay region	107
4.3 Estimates of dredge-and-fill activities authorized by Section 10/404 permits	126

<i>Section</i>	<i>Page</i>
5. DREDGE-AND-FILL ACTIVITIES: SUMMARY AND DISCUSSION	145
5.1 Physiographic alterations	145
5.1.1 Navigation channels and dredging	146
5.1.2 Disposal areas	151
5.1.3 Shell dredging	155
5.1.4 Siltation and subsidence	157
5.2 Effects of dredge-and-fill activity	167
5.2.1 Hydrographic effects of dredge-and-fill activities	167
5.2.2 Habitat effects of dredge-and-fill activities	172
5.3 Conclusions	178
5.4 Recommendations	182
